

Newark, New Jersey, January 4, 1984

A regularly scheduled meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in Council Chamber, City Hall, Newark, New Jersey at 1:20 P.M.

The audience arose for the National Anthem.

The prayer was offered by Reverend Joseph J. Granato, St. Lucy's Roman Catholic Church.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Branch, Carrino, James, Martinez, Rice, Tucker, Villani, President Grant, City Clerk Frank D'Ascensio, Clerk of the Municipal Council; Assistant Corporation Counsel Robert McDonald, Sergeant Floyd Bostic, Sergeant-at-Arms.

(Councilman Payne arrived 1:25 P.M.)

President Grant stated, "In accordance with New Jersey P.L. 1975, Chapter 231, Section 5, adequate notice of this meeting has been provided by notifying by mail the Newark Star Ledger and Elizabeth Daily Journal, by posting on the designated bulletin board in the basement of City Hall and by filing in the Office of the City Clerk on December 13, 1983, the schedule of regular meetings and conferences of the Newark Municipal Council.

In addition, the agenda of this meeting was similarly disseminated on December 28, 1983, at the time of its preparation. All persons who prepaid for advance notice of meetings also received copies of the schedule and agenda as required by law."

A motion to consider Resolution 7-R-cr, adopted December 21, 1983 at this time was made by President Grant, seconded by Councilman Martinez and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Rice, Tucker, Villani, President Grant.

Resolution recognizing and commending the Officers of the Newark Police Department responsible for the safe and successful conclusion of a serious hostage crisis in December, 1983, without a single loss of life.

President Grant requested Police Director Williams, Chief of Police Zizza, Captain George Dickscheid, Lieutenant Gerard Inneo, Sergeant Gary Egan, Police Officers Frank Padilla, Thomas Sumter, Joseph Curran and James Nance to approach the dais.

President Grant stated most of the residents of the City of Newark and persons outside of the City no doubt recall a tense situation that happened just a few weeks ago. Because of the alertness of the Members of the Hostage Team of the Newark Police Department, the matter was completely resolved without the loss of life, without the firing of firearms and the hostages were eventually freed. It is because of the action of these men, representing our Newark Police Department that this Council finds it timely to honor them.

President Grant read the following resolution:

WHEREAS, on December 6th, 1983, members of the Police Department, while investigating a shooting incident were suddenly confronted with a potentially explosive situation - when a person with a long history of criminal offenses, armed with two .38 caliber revolvers, after wounding 2 persons at another location, began holding two women and nine young children hostage in return for a promise of safe escape from the city; and

WHEREAS, throughout the day and night that followed, members of the Police Hostage Negotiating Team, at great risk to their own lives and under the constant threat of hostile gun fire, worked ceaselessly, using tremendous restraint and presence of mind out of concern for the women and children held at gun point by the suspect in a locked and barricaded apartment; and

January 4, 1984

January 4, 1984

WHEREAS, after countless hours of life and death confrontations and pains-taking negotiations by the superbly prepared officers, the suspect surrendered - dropping one revolver from an apartment window and handing the other weapon through the apartment door to one of the officers present - thus enabling the police to free every hostage unhurt and ending the terrifying situation without any harm to human life or a single shot being fired;

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT it does hereby recognize and commend the entire Tactical Force of the Newark Police Department of which the Negotiating Team is a part, for demonstrating such superb skills in the protection of the lives and property of Newark's citizens while exposing themselves to life endangering episodes out of the deep sense of civic duty and public responsibility.

BE IT FURTHER RESOLVED that a copy of this resolution be presented by the Municipal Council to each Newark Police Officer involved in this incident in grateful appreciation of their heroic and courageous actions both individually and as a fine-working team.

(Councilman Payne arrived 1:25 P.M.)

President Grant presented suitably inscribed resolutions to Captain George Dickscheid, Lieutenant Gerard Inneo, Sergeant Gary Egan, Police Officers Frank Padilla, Thomas Sumter, Joseph Curran and James Nance, on behalf of the Members of the Council.

Director Williams stated the acknowledgement of this accomplishment by Council is very important. It is an incentive for these officers as well as the others in the Newark Police Department to continue in the high risk area of public safety to try to make their Department the best Department in the Country and their citizens the safest citizens in the country. They deeply appreciate this honor and will continue in the professional vain they have functioned to make them proud of them in the future.

Chief of Police Zizza noted once again the Municipal Council has recognized "extra special big-league action" by a marvelous group of men and thanked the Members of the Council for honoring them.

Captain Dickscheid stated the incident that occurred on December 6th was a very complex operation which not only involved the Members of the Tactical Force and Negotiating Team but also Members of the West District, Detective Bureau and the Traffic Division. He thanked the Members of the Council for honoring them.

(To create the title and salary range for Secretarial Assistant, Stenography and Secretarial Assistant, Typing, in the Department of Administration)

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

SECTION 1. That Section 1. of an ordinance entitled, "An ordinance creating permanent positions in the Department of Administration and establishing salaries therefor," adopted May 4, 1977 and amendments thereto, be amended by creating the following title, title code, annual minimum salaries and annual maximum salaries as follows, to wit:

(a) Office of the Business Administrator

<u>POSITION</u>	<u>EFFECTIVE</u>	<u>ANNUAL MINIMUM SALARY</u>	<u>ANNUAL MAXIMUM SALARY</u>
Secretarial Assistant, Stenography 102923 (35 Hrs.)	1/1/84	\$ 14,087.36	\$ 16,489.10

SECTION 3. This ordinance shall take effect upon final passage and publication and in accordance with the laws of the State of New Jersey.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR.D.J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY, addressed the Municipal Council stating it seems to be systematic of what is continually occurring throughout the fiscal year; changes in title, positions, adjustment of salary ranges. To the ordinary citizen it appears at times some of these changes must certainly be for the benefit of some group of employees or even for an individual. If so, these changes must have a harmful effect on employee moral. Personnel procedures in Newark government are in accordance with Civil Service rules and regulations. He felt the incumbent should be required to be a competent stenographer. He doesn't believe there are any present Civil Service titles such as Secretarial Assistant, Stenography and Secretarial Assistant, Typing. It is hard for him to imagine a Secretarial Assistant who cannot take and transcribe dictation. He noted that both titles have the same salary range and there is no recognition that one title requires a necessary skill that the other lacks.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Branch, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

President Grant: The yeses are nine and the noes are none. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

January 4, 1984

Councilman Carrino pointed out that according to Personnel, this was done because of a desk audit by Civil Service. One was performing the typing and one the stenography. There is no salary change.

Councilman Payne added there is no salary change, no creation of new positions and it is a result of a desk audit by Civil Service.

January 4, 1984

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MS. DEBORAH KARPATKIN, 38 WALNUT STREET, ATTORNEY, REPRESENTING THE AMERICAN CIVIL LIBERTIES UNION (ACLU), addressed the Municipal Council in opposition to this ordinance. The speaker said the law would amount to an "illegal intrusion into the private relationship between the parent and the child and criticized it as a law which would take control of children away from the parent and substitute that control to the City of Newark." The speaker also questioned the necessity of the curfew law which she said would affect the majority of well-behaved children because of the few troublemakers, saying the ordinance would make it difficult for the children to walk the family dog because of the 100 yard proviso, as well as merely returning home after studying in the home of a classmate. The speaker also noted that many children are on the streets between 10:00 P.M. and 5:00 A.M. because of their duties as members of single-parent households. The speaker urged the Council not to adopt this ordinance.

MR. MARC LITTLE, FORMER RESIDENT OF NEWARK, 311 ASHLEY STREET, JACKSONVILLE, FLORIDA, addressed the Municipal Council in favor of the ordinance.

MR. ALAN KING, 47 QUITMAN STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the curfew ordinance. He does not dispute or argue with the sponsor's well intention of total commitment to the wide-spread problem with respect to youth loitering or idleness after the hours of 10:00 P.M. He disagrees with the bill on several grounds. He felt it falls far short of addressing the real problem of our youth in the City of Newark and felt that there is a need for adequate recreational, educational and cultural activities. He also felt that this law would do nothing to address that particular problem and that it would be unenforceable. The speaker reiterated there is a need for recreational facilities in the City of Newark.

MR. BENJAMIN AMOS, EXECUTIVE DIRECTOR, VINDICATE SOCIETY, addressed the Municipal Council supporting the proposed ordinance. The speaker offered several suggestions with respect to enforcement of the ordinance and to add "teeth" to the ordinance by appropriating funds in the City Budget to establish or provide support to various youth centers around the City.

MR. WALTER SHORE, SOUTH ORANGE, NEW JERSEY, addressed the Municipal Council applauding them for introducing this ordinance and felt that the curfew ordinance in other cities and towns have proved to be successful.

MS. MARY CARTER, 50 NORTH MUNN AVENUE, NEWARK, NEW JERSEY, applauded the action of the Municipal Council in trying to establish a curfew in the City of Newark and felt it was about time the buck stopped somewhere. She questioned where are some of these organizations when some of these children get into trouble. She requested the Council not let organizations, negativism or anything else deter them from the direction they are going in now.

MR. ARMANDO AVILES, 816 MT. PROSPECT AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council in favor of this ordinance and only wished that it would be extended to 17 and under.

MR. ISAAC MUHAMMAD, 665 SOUTH 15TH STREET, NEWARK, NEW JERSEY, EXECUTIVE DIRECTOR, UNITED COMMUNITY ORGANIZATION, addressed the Municipal Council supporting the curfew but questioned what are the alternatives. He felt that recreational activities were sorely needed. The speaker said that they cannot add any more burden on the families of the City of Newark.

MR. RUSSELL DAWKINS, 189 GOLDSMITH AVENUE, NEWARK, NEW JERSEY, felt they should have a curfew ordinance but further research should be made.

MS. NIA VENNOY, 138 SOUTH 13TH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council stating that she was a little ambivalent about the curfew ordinance because of the administration's police state mentality.

January 4, 1984

MR. JEFFREY DYKES, 275 SCHLEY STREET, NEWARK, NEW JERSEY, addressed the Municipal Council supporting the curfew ordinance but felt that there should be some recreation for the youth of the City.

MR. RON DENNIS, VAILSBURG BLOCK ASSOCIATION COUNCIL, addressed the Municipal Council in support of the curfew ordinance. The speaker said it was not a taking away of our children but more or less a protection of our children.

Councilman Rice stated that this Council is not trying to interfere with anyone's right. He thinks they all understand the right of privacy and the right that has been quoted by the Courts so many times. However, the decision some of them have to make with respect to this ordinance is going to have to be one based on the effectiveness of the people. His major concern is that he cast his vote for the health, safety and welfare of our society, particularly our young people.

Councilman Branch said one thing this ordinance has done was bring in some meaningful dialogue and most certainly some good things have been said about this ordinance. He pointed out that his mother and father were his curfew. They should not overlook the fact that they should have good recreational programs. Being that the recreational programs are not there they should stand up and fight for them. He is supporting this ordinance because it is needed and long overdue.

Councilman Martinez said most parents employ their own curfew but unfortunately there are some youngsters who are unsupervised and are sometimes incorrigible. All laws are controversial and no one law is supported 100%. As elected officials they have to examine their own conscience and support ordinances that will be in the best interest of the majority of the residents of the City, if not all of them. Perhaps they can in Newark start putting the television commercial at 10:00 P.M. "Do you know where your child is?"

Councilman James congratulated Councilman Tucker for his efforts and time he has expended in drafting this ordinance. He personally believes the philosophy that parents are responsible for their children is a good one and anyone that can't supervise or know the whereabouts of their children below the age of 13 should not consider themselves parents and they would certainly need help and counseling. They have to recognize that this ordinance will not really be effective unless they call upon the Board of Education and our school system to advance the concerns of education and educate the children why they should not be allowed to roam the streets at hours not complimentary to them. It will not work if they don't call upon the religious community and ask our church to improve the moral training so the children will know the reason and motivation behind this ordinance.

Councilman Carrino said there are some things people don't understand about this ordinance. This ordinance represents a two-fold change of policy by the City of Newark. As most people know there is an ordinance on the books now for under 18 years of age to be off the streets by 10:00 P.M. What they in essence are doing is bringing that down to 12 years of age. One of the reasons is that it has been acknowledged by the Police Department that it is almost unenforceable at age 17. Everyone acknowledges that the City of Newark no longer has recreation but in the City's highlight of recreation, no responsible agency whether it be the City of Newark or the Board of Education would allow a 12 year old to stay in the playground until 10:00 P.M. at night. A recreation program in the City of Newark would not solve a 12 year old being in the street after 10:00 P.M. Personally he thinks it should have been up to 14 years of age but he will respect Councilman Tucker's wishes to at least start it and see what the results are going to be.

Councilman Payne concurred with remarks made by his colleagues and gave praise to Councilman Tucker for working on this ordinance. A youngster should have three component parts. He believes the mind, the body and the spirit should be developed. He hoped youth service agencies would assist parents who are having problems with these young people. This ordinance is necessary and he has received calls that the age should be raised.

Councilwoman Villani said what they are doing today is being a responsible body and indicated she is going to support this ordinance because the curfew they are going to impose today will eliminate the criminals of tomorrow.

January 4, 1984

Councilman Tucker stated the essence of the ordinance is not to punish the children but to protect the children. They as local elected officials have an obligation not just to respond to concerns but in some way or other to draft legislation that they really and truly believe will better conditions in the City of Newark. He recognizes the lack of recreational facilities but they also have to recognize what they have to do as a community within the City of Newark. The curfew within the City of Newark years ago was not only on the books but in effect, it was enforced. The curfew is to deal with one simple perspective and that is to insure that parents exercise their parental responsibility and that is to take children off the streets of Newark and insure that they would not get involved in any kind of anti-social behavior. When they talk about the original ordinance that is on the books which deals with 18 year olds they should understand the appeal process that took place mostly in the 60's. This ordinance has been amended through judicial edict to such a degree that it is unenforceable at this point in time. In talking with the Police Director, the Police Department has priorities and to a certain degree have limited manpower. It would be difficult for him to actually go into a great indenth plan of going out and arresting young people. His concern was that the Police Director has a responsibility to enforce the laws that are promulgated by the Council and also by State Statute. He also had an opportunity of talking with some Judges in our Court system.

Councilman Tucker noted that this is not going to cure all of the youth problems within the City of Newark but thinks it represents a start. If they go back to the 60's, one of the major supporters of ACLU was himself. They have to recognize that situations change as time goes on.

Councilman Branch suggested that they have public hearings in every Ward and hear about the ordinance and see what kind of response they get from the community.

President Grant stated the framework of this ordinance contains a lot of substance. What this ordinance is calling for is an ordinance where there can be an example for other generations to come. He has deliberated over this ordinance for some time, talked with the Law Department, of course they would say there is no reason the City Council could not pass it. They had reservations in other areas as they do with a lot of legislation they introduce. He thinks the intent of the ordinance is that children ought to be made to respect the law, not fear the law. He suggested that when the Council meets next Tuesday, they consider some amendments. One amendment might be that if a child is picked up off the streets that the child is not taken directly to the Youth House but to the parents home because that could have lasting effects on the child. The intent of the ordinance is excellent and certainly hoped they would consider some of the other parameters.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Tucker, seconded by Councilman Payne and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Ordinance to amend Title Twenty-One, Chapter Five, Section Three of the Revised Ordinances of the City of Newark, New Jersey (1966) as amended and supplemented.
(To adjust sewer user charges)

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

Section 1. That Title Twenty-One, Chapter Five, Section Three of the Revised Ordinance of the City of Newark, New Jersey, 1966, be amended in its entirety to read as follows:

I. Large Scale Residential, Industrial, Commercial, Tax Abated and Tax Exempt Users

All large scale residential, industrial, commercial tax abated and tax exempt users of municipal wastewater facilities shall be billed for such use on two bases. For purposes of this ordinance, such users shall be defined as all users identified as such by the regional sewer authority pursuant to the regulations of the United States Environmental Protection Agency, 35.929-1(b)(4).

a) Twice a year, each such user shall be billed for its share of the operating and maintenance costs borne by the regional sewer authority in the treatment of wastewater. These billings shall be based on a method of calculation approved by the United States

Environmental Protection Agency which shall at a minimum reflect the volume of waste and the strength of that waste as measured by the parameters of biochemical oxygen demand (BOD) and suspended solids (SS) per unit volume. Calculation of the amount to be billed shall be done by the regional sewer authority, who shall present the bills to the City of Newark for distribution and collection of payments.

Bills payable pursuant to this subsection shall be presented to the affected users on January 15th and July 15th of each year, or as soon as is practicable thereafter. Such bills shall be due and payable upon presentation.

b) In addition to such bills as payable pursuant to subsection I-a. of this ordinance, all large scale residential, industrial, commercial, tax abated and tax exempt users shall also be billed periodically for all other costs associated with the collection, transmission and treatment of wastewater.

1. As payment for their share of such other costs, such users shall pay a local sewer user charge to be billed at a rate of \$5.10 per 1,000 cubic feet of water supplied by the City.

2. As an alternative to (1), any such property owner may install metering equipment on his premises to measure the actual flow of sewage into public wastewater facilities. The responsibility for the purchase, installation, and power functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The local sewer user charge for property owners who elect direct actual metering shall be \$5.10 per metered 1,000 cubic feet of sewage.

3. Property owners who are subject to the terms of this section and who obtain water, either in whole or in part from sources other than the City, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The local sewer user charge for these properties shall be \$5.10 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the City.

4. In the event that a property owner who is subject to the terms of this section shall prove to the satisfaction of the Director of Engineering that there is no substantial relation between the intake of water at the property, regardless of its source, and the output of sewage from the property, and if it be determined by the Director of Engineering that it is not practicable to measure sewage emanating

January 4, 1984

from the property by meters, then the property owner may elect to pay a user charge based upon engineering studies supported by substantial evidence. All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

5. In no event shall any property owner who is subject to the terms of this section utilizing municipally controlled sewers pay a local sewer user charge of less than \$10.20 per quarter.

II. All Other Sewer System Users

All other users of municipal wastewater facilities, with the exclusion of publicly owned facilities utilized for the performance of the functions of either the municipal government of the City of Newark or of the Newark School District, shall be billed for their usage, based on the following.

a) Users of municipal wastewater facilities shall be billed \$6.70 per 1,000 cubic feet of water supplied by the City.

b) As an alternative to (a), any property owner may install metering equipment on his premises to measure the actual flow of sewage into the public wastewater facilities. The responsibility for the purchase, installation, and proper functioning of any such meter shall be that of the property owner. All such meters shall be subject to the approval of the Director of Engineering and shall be maintained in a continuous state of accurate operation by the property owner. The user charge for property owners who elect direct actual metering shall be \$6.70 per metered 1,000 cubic feet of sewage.

c) Property owners who obtain water, either in whole or in part from sources other than the City, shall provide, and maintain at their own expense, water or sewage meters which shall register the total discharge of sewage to the municipal wastewater facilities. All such installations shall be subject to the approval of the Director of Engineering and shall be maintained by the property owner in a continuous state of accurate operation. The user charge for these properties shall be \$6.70 per 1,000 cubic feet of metered wastewater discharged to the public sewer, whether or not the water is furnished by the City.

d) In the event that a property owner shall prove to be satisfaction of the Director of Engineering that there is no substantial relation between the intake of water at the property, regardless of its source, and the output of sewage from the property, and if it be determined by the Director of Engineering that it is not practicable to measure sewage emanating from the property by meters, then the property owner may elect to pay a user charge based upon engineering studies supported by substantial evidence. All such studies must be approved by the Director of Engineering and shall be subject to his periodic review.

e) In no event shall any property owner utilizing municipally controlled sewers pay a user charge of less than \$13.40 per quarter.

Section 2. Any prior ordinance or part thereof which is inconsistent with this ordinance is hereby repealed.

Section 3. This ordinance shall take effect as of January 1, 1984, after final passage and publication in accordance with the laws of the State of New Jersey.

HEARINGS OF CITIZENS.

6-HC-a. MR. LUTHER ROBINSON, 75 CLINTON AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to providing recreational facilities for the handicapped.

6-HC-b. MR. WARREN L. CONGLETON, 75 CLINTON AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council on behalf of Ms. Smith, Director of Care, Inc. She is out trying to raise funds from the government and private sector to help sponsor their program. He thanked the Council for their vote of confidence in unanimously approving their proposal for recreational programs for the developmentally disabled. They have to take their people out of the City for recreational activities and felt with the increased amount of disabled people, he felt they should have their own recreational programs. He asked the Council whether it is possible that they could set up a program using the facilities of YMCA or YWCA and the Boy's Club for the developmentally disabled. He also stated they would need Council's help in developing an educational program to educate the general public so that they could understand the difference between the developmentally disabled and the mentally retarded.

President Grant informed the speaker that he has met with Mayor Gibson and Members of his Administration and has asked that Administration in the 1984 Budget place money in the Budget for recreational activities for the handicapped. He was very receptive to that and has directed Director of Recreation and Parks to come up with a program to be presented to the Mayor very soon.

A motion to permit Mr. Thomas Edwards to be heard under "Hearings of Citizens" was made by Councilman Branch, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

6-HC-c. MR. THOMAS EDWARDS, 894 SOUTH 19TH STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to presenting a proposal on 299 Clinton Avenue which is in need of funds for emergency repairs. There are presently 20 some people living in this building and 90 apartments to be repaired. The speaker noted that this building could also be used for the homeless in the City of Newark.

President Grant stated that prior to this meeting he was made aware of the proposal. He knows Mrs. Skidmore has been struggling with this building and he suggested to Councilman Branch that under Motions, the Council support the efforts of that proposal in trying to do whatever rehabilitated work that can be done at this location. The dollars that have been mentioned could possibly come in. Business Administrator Hill has indicated that relative to providing homes for the homeless he would prefer an agency outside the City to run it. He suggested that someone meet with Business Administrator Hill and get a proposal together and that can be considered in their Budget for 1984.

Councilman James concurred with any concerns to rehabilitate buildings in our City to improve the stock of housing and the proposal warrants scrutiny.

Councilman Branch stated he has not had a chance to look at the proposal. He noted that he visited 299 Clinton Avenue which is in need of repair.

Councilman Tucker said he had an opportunity to speak with Councilman Branch before the meeting. He has a copy of the proposal submitted by 299 in concert with Newark Coalition of Neighborhoods. He thinks all of them generally support the tenants at 299 in their efforts to rehabilitate that building. He thinks they need to meet with them and hopefully add this item on the special conference on Tuesday.

January 4, 1984

711

He has no problem voting on a Motion saying they support them. They have to find out if MPDO is going to be supportive and find out from the Business Administrator to what degree the City can permit resources to this building.

President Grant said they will check the special conference agenda to see if it can be added on.

Councilman Payne said this is the first he has heard of this matter and feels it is something commendable, if it is feasible. He would like to have the opportunity to read the proposal and have some discussion on it.

President Grant said that on Tuesday if they meet, it will be for discussion purposes only and not to take a vote on any dollars.

Councilman Tucker said that 299 bought the building from the City but it was a forced sale. The Real Estate Commission said the City was spending too much money on that building. What Real Estate did was sell the building and the tenants bought said building which had a lot of prerequisites that the City was supposed to assist them. MPDO originally felt they didn't have to honor those commitments because it was not a City-owned building. He knows the tenants have submitted proposals to HUD and the Council supported that. HUD was not amenable to at least give them the kind of support that they need. 299 still owns the building and he thinks they have new legislation that was introduced and approved last year which they might look at. They need to be real and not give a resolution that says they support them. They have to have an indepth discussion with the appropriate people. He knows there is no heat and had a opportunity to look at the television program in which they did a story on this building which is in a deplorable condition. If they try to do a quick fix, they will be in the same situation.

A motion to permit Mr. Richard Cammarieri, to be heard under "Hearings of Citizens was made by Councilman Carrino, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

6-HC-d.

MR. RICHARD CAMMARIERI, 85 FOREST HILL PARKWAY, NEWARK, NEW JERSEY, stated he will make sure all the Members of the Council are in receipt of the proposal that was submitted by NCN to OBG on behalf of 299 Clinton Avenue building for emergency rehab money. In reviewing the history of 299, it appears that one of the major problems from various sectors is a lack of confidence in the ability of the tenants to manage the building even if they did get the funds. Whether that was justified or not, that happened in the past and can't deal with that now. NCN has been successful in the whole gambit coalition building efforts and he thinks the support system they can marshal in support of the tenants at 299 is enough to make this project successful. He thinks 299 can deal with two issues, housing for the homeless and model for tenant self-sufficiency. He hoped the Council would look at this proposal favorably.

After 7-R-br, Councilman Carrino stated he hoped this item can be taken care of at the special on Tuesday in determining the security services for the City. Certainly the City has a legal and moral obligation to provide security for City buildings. He recalled two years ago when they did not act on the security measure, the Newark Police were pulled off the streets to guard the buildings. He certainly doesn't want to be in a situation right now with conditions the way they are. He reiterated he hoped that on Tuesday that they would call the principles involved to make sure they have another bid or find out what the situation is.

President Grant replied right now the particular companies that are under question are operating on a ratified contract.

After 7-R-bq a discussion was held with respect to this resolution wherein Council expressed extreme dissatisfaction with the site selected for this auction, and urged the Office of Real Property to find a more accessible and central location. Council Members commented that the Holiday Inn North is difficult to find, and inconvenient to public transportation. In the Council's view, holding an auction in such a place defeats the objective of attracting the maximum number of prospective buyers, particularly Newark residents. The Council asked that arrangements be made for an alternate site before the Special Meeting on Tuesday, so the resolution can be amended. Individual Council Members suggested various possibilities, including the Quality Inn on Park Place, the Hilton Gateway, the Council Chamber, Symphony Hall, Biase's, Thomm's and other public buildings and hotels. It was the Council's desire that this auction be held in a place easily accessible by the greatest number of people, including those without private transportation.

January 18, 1984

A motion to adopt the ordinance on first reading, was made by Councilman Tucker, seconded by President Grant.

Councilman James questioned the fiscal impact of this ordinance.

Councilman Tucker said it was only for a 5% increase.

Councilman James felt that all City employees deserve a cost of living raise. He suggested the ordinance be reviewed by the Council Members. He recalled this ordinance came before the Council another time previously and it was for a 38% increase in salary.

Councilman Tucker said the fiscal impact for 1983 was \$106. and for 1984 it was \$2,756.

Councilman James stated he wanted research done on all of the increases given for that position.

Councilman Carrino said this was the first time in the 10 years he has been a Councilman that he has seen an ordinance come before the Council for an incumbent in any position. He asked the City Clerk how many Assistant Purchasing Agents there were in the City.

Councilman Tucker replied there was one Assistant Purchasing Agent.

Councilman Carrino asked why the term incumbent had to be incorporated into the ordinance. He stated the Council usually gave salary increases to a position rather than to a person.

Councilman Tucker reminded the Council that they requested that on all raises that were submitted by Administration they should be notified as to whether it was an incumbent, a resident, the amount of percentage on the raise and the fiscal impact.

Section 2. Any prior ordinance or part thereof inconsistent herewith is hereby repealed.

Section 3. This ordinance shall take effect upon final passage and publication in accordance with the laws of the State of New Jersey.

January 18, 1984

Temporary President Payne called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and defer action on this ordinance for further discussion by the Council was made by Councilman Carrino, seconded by Councilman James and failed of adoption by the following votes:

Yes: Councilmen Branch, Carrino, James, Temporary President Payne.

No: Councilmen Martinez, Rice, Tucker, Villani.

Councilman Carrino stated this ordinance was just to make sure the disco's closed the same time as the bars, and also to stop serving liquor the same time as the bars.

Councilman James mentioned there was a need for the disco's in the City of Newark. But the way they are run is in question. He felt the ordinance should be enforced because the disco's were being misused. He stated for example, prostitution, drugs, etc. He felt it would be good for the kids of this City to have someplace to go and dance and enjoy themselves. He said there were a lot of people in this City that just like to have fun without getting into trouble. He did not want the disco's to be eliminated.

Councilman Branch stated if the laws were enforced the community people would feel safer.

Councilman Martinez agreed the rights of other people have to be protected.

Councilman Tucker said he was in favor of the ordinance as it was.

Councilman James indicated the good business owner would be punished for the bad business owner.

Councilman Rice said he thought the ordinance was good for the people of the City.

Councilman James stated the way the ordinance was worded, the social clubs would not be affected from closing and serving liquor at certain hours. He said to even suggest that people could not dance after 2:00 p.m. might place the Members of the Council in a generation gap of young people. He felt if the facility was not being run properly and were in violation of the City's law, then they should be cited and given violations. He mentioned there were a large segment of people that want to dance in the communities. He knew the Council could not duplicate a Studio 54, but the City should have a quality facility that adhered to City laws and who offer the young people something to look forward to.

Councilman Tucker said there was not a need for a Council conference on this ordinance because it has already been discussed. He felt the issue should be voted on due to the fact it was discussed by Council.

Councilman Carrino stated that since it was his ordinance and it is not being deferred, he said he would make a motion to close the hearing and adopt the ordinance.

A motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Carrino, seconded by Councilman Martinez and declared adopted by Temporary President Payne by the following votes:

Councilmen Branch, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Councilman Payne introduced Captain Knox of the South District and nine of the ten young men who were instrumental in the apprehension of two burglars and in the recovery of stolen goods.

Captain Knox said these young men followed the burglars and then surrounded the building until the police responded. He said they were fortunate to have these youngsters work in coordination with them so that they were able to apprehend the burglars and recover the stolen property. He remarked that it is important that they recognize young people when they participate with the police in situations such as this. He extended his congratulations and thanked them again for their cooperation.

Councilman Payne read the following resolution:

WHEREAS, many urban cities across the nation are plagued by the increase in crime which contributes greatly to a host of ills and the deterioration of neighborhoods; and

WHEREAS, recent studies of crime prevention in the inner-city support theories that combating crime and its fears are best realized by joint efforts between local police departments, community groups and concerned citizens determined to make residents feel safer and to be safe in their communities; and

WHEREAS, on October 27, 1983, ten courageous youths in the City's South Ward assisted Newark police officers in the apprehension of burglary suspects and the return of personal property stolen from neighborhood residents; and

WHEREAS, by their deed and action these young persons not only disproved the notion that most young people are uncaring but also demonstrated the type of courage and valor essential to the belief that a neighborhood that is not fearful of crime is a neighborhood of watchful and caring citizens devoted to reversing the crime weakening fabric of urban life;

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, THAT it does hereby recognize and salute the ten youths for their terrestrial concern for the safeguarding and survival of the City and residents of the City of Newark.

BE IT FURTHER RESOLVED that a copy of this resolution suitably inscribed be presented to each youth in warm appreciation of their deed.

February 1, 1984

Councilman Payne presented each of the young men with a suitably inscribed resolution on behalf of the Members of the Municipal Council.

Councilman Payne stated that it is rare that they have the opportunity to recognize the good youngsters. He said in his opinion there are many more good youngsters than there are bad. He noted that every youngster should have the opportunity to go to school and learn without fear. He said they have to take back the streets from the criminal element. He congratulated the young men.

HEARINGS OF CITIZENS.

6-HC-a.

MR. FRANK HURTZ, 103 - 16TH AVENUE, NEWARK, NEW JERSEY addressed the Municipal Council with respect to the Rent Control Ordinance. Mr. Hurtz presented documentation to the Council and requested them, as the legislative body of Newark, to seriously think about making necessary changes in the ordinance to bring about fairness and justice for the citizens. He also requested the Council immediately grant police powers to the Rent Control Board. He noted that the present ordinance permits landlords, even if they have not registered their buildings, to petition for a tax surcharge. He mentioned many discrepancies in allowing landlords to charge different rents for the same type apartments. He cited that the owner of 402 Mount Prospect Avenue has not paid the City any taxes. He reiterated the necessity for the Council to eliminate the tax surcharge.

President Grant suggested that this matter could be discussed more comprehensively at a future special conference with Mr. Hurtz, the Law Department and representatives of the Rent Control Board.

Councilman Tucker stated that based on the existing ordinance the landlord may not have registered his property but he could ask for a tax surcharge and be legally within his rights to do so and Mr. Hurtz is requesting that they eliminate that surcharge. He noted the ordinance on the agenda of this meeting, which was tabled, addresses setting a penalty for the landlords. The Law Department has indicated that this penalty could be too severe and possibly would be in violation of the landlord's rights. He said they must have a determination from the Law Department. He noted that prohibiting the Landlord's ability to pass increases on to tenants is another issue.

Mr. Hurtz said the tax surcharge is not a pass-along. It is a petition to levy further increases in rents.

February 1, 1984

006

Councilman James said the Council would be appreciative of any recommendations on how to improve and strengthen the Rent Control Ordinance. He stated there is no correlation between rent control and paying taxes. There are legal statutory guidelines on paying taxes and until you violate them you still own the building. The concern raised by Mr. Hurtz with reference to different rents for the same apartments is that when an apartment becomes vacant, the landlord charges the going rate for that apartment. He noted this ordinance has been the subject of more discussion than any other ordinance this Council has approved in the last 10 years.

Councilman Carrino stated that if this building was purchased from HUD, it would not fall under the rent control guidelines.

6-HC-b.

MR. D. J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY addressed the Municipal Council with respect to elected officials accepting official positions in political campaigns. He noted that the Mayor and one aide have accepted official positions in the campaign of a candidate for President of the United States. He opined that he does not believe any public servant should be involved officially in any campaign other than his own. He noted that the Mayor heads a non-partisan municipal government. His position as Chairman of the campaign of any candidate is inappropriate, unethical and even of questionable legality. In any case the citizens of Newark should not be required to pay salaries and office expenses of officials in anybody's campaign. If these men feel deeply that they are indispensable to this campaign they should take a leave of absence without pay and leave City Hall for the duration of the campaign. He said they would retain their personal prestige but not the prestige of a functioning official in the Government of the City of Newark.

Councilman Tucker questioned if Mr. Henderson was raising the issue that the Mayor or Business Administrator is utilizing City time in regard to a political campaign or that the Mayor should not be involved in any campaign.

Mr. Henderson responded the Mayor or his Aide should not accept an official connection with any campaign. He said the Mayor could endorse anybody he wanted to but to take an official position, in his opinion, was wrong.

Councilman Payne stated that persons who are elected or not, whether they are presidents of banks, public entities or professional businessmen, have a right and responsibility to be involved in partisan or non-partisan politics. He noted one of the problems today is the lack of participation by good people to serve in any official capacity. He opined the more people that become officially or unofficially involved the better it would be. He noted our democratic system works better with participation. He stated that the City of Newark taxpayers have no responsibility of paying for the person's part in political activity. These people do it at their own expense as they have done many other times in the past.

At the conclusion of Mr. Henderson's statement, a motion to consider Resolution 7-R-ca, was made by Councilman Branch, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Martinez, seconded by Councilman James.

Councilman James commended Councilman Martinez for sponsoring this resolution and for his involvement in East Side High School hosting a football banquet. He said normally they have a resolution presented to them for a winning season or a championship but this resolution is being presented to a team that has won only one game in five years. In a time when there is a great emphasis on winning and when athletes are being exploited it is refreshing and heart warming to see a spirit of good sportsmanship, support of cheerleaders, faculty and students. The East Side team did not quit when they were losing, but exhibited skill and good sportsmanship and it is good to honor a team on how they played the game and one that has brought honor to themselves, their community and the City of Newark.

Councilman Rice stated this type of sportsmanship is one that should be displayed throughout the City. He said the City must make sure recreation is available to the youngsters of the City so that when they get to high school they will exhibit the same skill and good sportsmanship and spirit.

Resolution commending the Newark Board of Education for its prompt action in developing a program in the public schools to combat sexual abuse of children.

A motion to adopt the resolution was made by Councilwoman Villani, seconded by Councilman Martinez.

Councilwoman Villani stated that most often it is easy to criticize the Board of Education but this resolution is one to commend them. She noted that over a year ago she formed a committee on sexual abuse and incest prevention for children. This committee met with Dr. Salley who in turn contacted Mrs. Gladys Jones. Both of the committees then met and in an incredibly short time put together and introduced this program into the Public School System.

Councilwoman read the following letter into the record:

January 28, 1984

Dr. Columbus Salley
Executive Superintendent
Newark Board of Education
City of Newark
2 Cedar Street
Newark, New Jersey 07102

Dear Dr. Salley:

I am writing to you as a member of Councilwoman Marie Villani's Committee on Sexual Abuse and Incest Prevention to express my extreme delight about the progress your Department has made in a very short period of time to introduce this very delicate subject matter into the elementary school curriculum.

February 1, 1984

We, as citizens, are often quick to criticize personnel in large bureaucratic systems for their failure to adequately respond to the needs of individuals they are mandated to serve. We are far less likely to formally recognize achievement and responsiveness on the part of public officials.

I certainly harbored strong reservation and doubt when the Committee decided to approach the Board on the issue of child sexual abuse and incest. In all candor, such doubt continued, notwithstanding your sincere and strongly worded expressions of determination to do something about this problem when we met with you in October. I now believe!

On January 27th, I attended a meeting in the office of Gladys Hillman-Jones in which Committee members were presented with a publication entitled, "Child Abuse PK-3: A Miniguide". This material created within a very short period of time is an extraordinary document which I am sure will help to sensitize teachers to this terrible problem, will bring added protection to victimized children, and most importantly, will help to prevent such maltreatment of our youngsters.

I want to personally commend all those individuals within the Board who worked on this project, most particularly Ms. Clare Whittaker who I understand assumed major responsibility for putting together the finished product.

Sincerely,

Stuart Grant

A MOTION DIRECTING THE CITY CLERK TO PREPARE A RESOLUTION RECOGNIZING MR. PRENTICE THOMPSON AT THE BOARD OF EDUCATION FOR A COMMENDABLE JOB IN THE NUMBER OF ARRESTS HE HAS MADE AND THE NUMBER OF INSTRUMENTS HE HAS CONFISCATED IN THE SHORT TIME HE HAS BEEN AT THE BOARD OF EDUCATION was made by Councilman Branch, seconded by Councilman Carrino.

Councilman Carrino stated that as a result of Mr. Thompson's efforts, they will see a dramatic reduction in the number of items stolen from schools in the current fiscal year and through the apprehension of employees who have been stealing things the word is out that Newark's schools are no longer easy pickings. He noted aside from the fact that Mr. Thompson has done an excellent job he opined that the economics of the amount of monies that the Board of Education will save at the end of this year is going to be dramatic.

Councilman Payne stated he was supportive of the job done by Mr. Thompson and appreciated the zeal with which he has taken on this assignment. He opined that the youngsters will be relieved that they can attend school in a more positive atmosphere than that of fear that currently exists.

Councilman James said he also commends Mr. Thompson for his great work and perhaps this will help to motivate him in continuing to do a great job.

Councilman James said it was unfortunate that they were not able to easily recognize the work of dedicated teachers and administrators who labor in classrooms, have to be both mother and father, disciplinarian, religious leaders. He said he hoped there was some way they could single out these teachers who are doing a tremendous job each day. He said the individual teacher in the classroom is in his opinion underpaid.

7-M-d. A MOTION CRITICIZING NEW JERSEY NETWORK FOR ITS INACCURATE AND UNFAIR PORTRAYAL OF THE CITY OF NEWARK ON THE PROGRAM, 'THE WAY WE ARE', SHOWN ON THE STATE'S PUBLIC TELEVISION STATIONS ON JANUARY 25, 1984; FURTHER, CRITICIZING THE RECORD NEWSPAPER OF HACKENSACK FOR ITS EXTENSIVE PROMOTION OF THIS BROADCAST was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker said the City of Newark should make a rebuttal to the program produced by the New Jersey Network for the public television section which portrayed Newark as represented by the downtown business community and the Ironbound area and all the rest of the City as welfare and poverty. He noted the presentation was not just in poor taste but created a situation where the vast majority of the viewing audience would have a tremendous negative opinion of Newark. The program in its original form was designed and developed to interpret the census of 1980 and how shifts in population were taking place. This program presented Newark in a very lousy, lackadaisical and unprofessional way. He said he met with the City Clerk's staff to share with them publications, especially the Bergen Record. The information was given to them last week and he anticipated that a comprehensive resolution would be developed so the Council could act affirmatively on it today. He stated he wanted to know why this Governing Body does not have an appropriate response to this request.

Analyst Doug Eldridge stated the report is nearly completed and will be ready on Thursday. He said it required extensive research into the 1980 census in order to respond fully to the allegations in the television documentary.

Councilman Tucker requested that an appropriate response be sent to the Board of Directors of New Jersey Network and the Editor of The Record with a copy forwarded to Governor Kean, Members of the State Legislature, Mr. Stephen Aduato, Chairman, Public Broadcasting Authority, Board Members, N.J. Public Broadcasting Authority, Mayor Gibson, Business Administrator Hill, Communications Manager Moore, Mr. Malcolm A. Borg, Chairman, The Record, Mr. Roger Carman, Director, The Fund for New Jersey, Mr. Mort Pye, Editor, The Star Ledger, Associated Press, United Press International and "New Jersey Nightly News".

The motion was declared adopted by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Tucker, Villani, President Grant.

Yes: Councilmen Branch, James, Payne, Tucker.

A motion to defer action on the ordinance was made by President Grant, seconded by Councilman Branch.

Councilman Tucker stated this particular ordinance deals specifically with designation of the Newark Economic Development Corporation as Zone Development Corporation for City of Newark. The Zone Development Corporation is identified by New Jersey State Statute as that particular entity within the City of Newark which would implement the zone enterprise legislation that was adopted by the State

February 1, 1984

of New Jersey. He noted there are pre-requisites in dealing with the designation of a particular zone and one is that community people must be involved in that particular corporation. He said most of them were knowledgeable that there are no community people currently serving on the Newark Economic Development Corporation. There was never any discussion with Community Based Organizations. There has never been any discussion in this matter with the Corporation Counsel and Council dealing with compliance of Statute. He said if Council moves affirmatively on this without involving community people, which this legislation does not, then in effect what they are doing is making a determination to write off the community and government because N.E.D.C. is not a municipal created corporation. He said this Council does not appoint or confirm any Board Members currently on N.E.D.C. and there is no community based organization on it.

Councilman Martinez stated this matter should be discussed completely at the special conference since it is an important issue that will bring jobs, ratables and development into the City of Newark.

Councilman Tucker questioned what Community People would be invited. This legislation does not consider Community based people.

President Grant said subsequent to what must be discussed has to be developed by this Council. Whatever legislation is presented it is up to this Council to study it and make sure before they vote on it, if those things that should be in place are in place. They should get the legislation, study it and then make a decision on it.

A motion to defer action on the ordinance and directing the City Clerk to invite Business Administrator Hill, Assistant Corporation Counsel Grant and Newark Economic Development Corporation Executive Director Faiella to the February 7, 1984 Special Conference was made by President Grant, seconded by Councilman Branch and adopted by the following votes:

BOARD OF ADJUSTMENT APPEAL.

4-A-1. The Deputy City Clerk read IN THE MATTER OF APPLICATION OF SHYROON JAGGASSAR, APPLICANT, TO PERMIT IN A 3RD RESIDENCE DISTRICT CONVERSION OF 1-FAMILY TO 3-FAMILY DWELLING WITH INSUFFICIENT SIDE YARDS AND NO ON-SITE PARKING ON PREMISES 348 CLIFTON AVENUE.

The Board of Adjustment at its regular meeting November 29, 1983, approved the application by a vote of 6 Ayes and 1 Nay.

An appeal in this matter was filed in the Office of the City Clerk on December 12, 1983, by Mr. George Wilson.

On December 21, 1983, the Municipal Council adopted a resolution amending the appeal filed by George Wilson to include Raymond Stabile as a joint appellant and party to this action.

The transcript in connection with this matter was received January 30, 1984 and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On January 31, 1984, the City Clerk notified the applicant, the applicant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting February 15, 1984, at 8:00 P.M., in the Council Chamber, second floor, City Hall, Newark.

This is the time and place for the appeal to commence.

February 15, 1984

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Shyroon Jaggassar, Applicant, to permit in a 3rd Residence District conversion of 1-family to 3-family with insufficient side yards and no on-site parking on premises 348 Clifton Avenue. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

MR. GEORGE WILSON, 570 RIDGE STREET, NEWARK, NEW JERSEY, said being aware there must be some side yard property to a multi-family dwelling, it is obvious that this is in violation because there is no side yard connected to this property. The property is no more than 40 feet wide. There is no possible place for on-site parking. This premise is located on a street that is extremely congested. At the present time it is becoming a hazard to park or drive on that street. Adding three more families or three to six cars to that condition would be taking away from the quality of life of that community that probably attracted the owner of this property. It is evident that this has been over-looked in the original appeal for a variance because the necessary property for parking is not there. He knows of no other arrangements that can be made to make that possible.

MR. GEORGE METTLER, 79 NORTH FRANKLIN TURNPIKE, RAMSEY, NEW JERSEY, representing Mr. and Mrs. Jaggassar, the applicants. Mr. and Mrs. Jaggassar are present in audience and also brought a Realtor to testify but according to the President's opening statement they would not be permitted to testify. Also present in the audience is Mr. Rosa and Mr. Neo, from the Rosa Agency.

Mr. Mettler pointed out that the Board did grant this variance, as it was pointed out, only one objection. Those parties had an opportunity to examine the property, they had an opportunity to see what was there and they made a decision. They had ample opportunity to examine the records and now for this Board to overrule them is only based on an argument. It is not being based on any facts that are being brought into the record. The record speaks for itself. This is a three-family zoned area. This house has been maintained as a three-family house for some 50 years as set forth in the record. The test is the use of the property. The property has been used as a three-family and continued to be used as a three-family to this date. It was purchased this way from the prior owners that way and the prior owners purchased it that way and it has been like this for quite some time. These parties are not trying to increase the use of the property. The property has three families in it. The argument by the adversary is that by granting this you will bring additional two more families into the property that this is a one-family and making it a two-family. That is absolutely not true. As the record reflects there are three families in the house and that is the way it has always been. The present ordinance that is only in dispute is the off-side parking. Yet being that this premise has been used as a three-family for more than 50 years, that present ordinance is not more than 50 years old, so they have a non-conforming use as to the off-street parking. As it was set forth in the record, there is only one car in this entire building that is being used and is being parked off the street. In granting this application they are not changing anything that is already in existence. They are not increasing off-site parking, they are not increasing the congestion in the area. However, to not continue the application which has been granted would create a potential abandonment of this house which is certainly not what the town wants because as the Jaggassar's would testify and as set forth in the record, when they applied to purchase this house, it was set forth the amounts of rent, they obtained for a Certificate of Occupancy at that time that it was allowed as a three-family house and the bank loaned them the money with the understanding this was a three-family house. To now not let them use it as a three-family house would remove a family from Newark, remove one dwelling and at the same time cause a potential loss of that house because the Jaggassar's would not be able to then maintain that house with just one other tenant. There was in the transcript remarks about the certain needs that have to be met in order for this house to comply with the three-family requirement. These needs have been partially complied with and that is what brought this about when they brought their

electrician in and had the house wired for three families rather than the one family as it was previously, or one unit for the three units, three families that were in the house, that is what brought this all to a head. The City of Newark has not done anything about this house for 50 years. The Jaggassar's who are attempting to comply with a police regulation, that they need a fire exit, smoke detectors and things like that are told all of a sudden that now you have to get rid of one or two of your families because you are not in compliance with the law. They have done nothing wrong. They've lived open all these years without trying to hide that there are three families in this house. They filed immediately after purchasing this house with the Rent Stabilization Board setting forth what the rents are. They always complied with all of the other regulations of the town and for the town now to circumvent what is an existing condition that three families do exist in this house on Clifton Avenue is not in the interest of justice. He also pointed out this individual, Mr. Wilson is not within 200 feet, as he understands his address of the Jaggassar's residence of Clifton Avenue and he questions his right to even raise the objection.

Councilman Carrino read the following:

"This appeal from a decision of the Board of Adjustment involves premises at 348 Clifton Avenue, which is zoned as a Third Residence District. The lot is 25' x 100' in size and on it is a building which is 2½ stories high in front and 2 stories high in the rear. The structure was originally constructed as a one-family dwelling but is now being used to house three families. The property is in an area composed of dwellings, most of which are of similar size.

Although a three-family home is permitted in a Third Residence District, a variance is required to permit the conversion of the building from a one-family to a three-family dwelling as there is no on-site parking and one parking space must be provided for each family. In addition, a variance is required because of an insufficient side yard. The testimony before the Board indicates that the applicant purchased the home as a three-family dwelling and is seeking to legalize a situation which is not permitted under the City's zoning ordinance.

On November 29, 1983, the Board of Adjustment determined that the variance could be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the Zone Plan and the Zoning Ordinances of the City of Newark for the following reasons:

February 15, 1984

1. The grant of the variance will provide sorely needed housing for the City; and
2. Housing in the area is mostly three-family to multi-family so the grant will not be an intrusion.

An appeal was taken to this body which is empowered to hear appeals from variances granted pursuant to N.J.S.A. 40:55D-70(d), known as "d" variances. That section of the Municipal Land Use Law concerns variances granted "in particular cases and for special reasons ... to allow departure from ... [the zoning ordinance]... including, but not limited to, allowing a structure or use in a district restricted against such structure or use."

The Municipal Land Use Law requires that an applicant for a "d" variance show:

1. That there are special reasons for granting the variance; and
2. That the relief "can be granted without substantial detriment to the public good and will not substantially impair the intent and the purpose of the zone plan and zoning ordinance."

The applicant has shown that "special reasons" exist for granting a variance in that the house has been utilized as a three-family dwelling and the City needs additional housing. However, the applicant has not shown that a variance can be granted for a three-family dwelling without substantial detriment to the public good. Granting such a variance would have a substantial negative impact on parking in the area. Although the applicant testified that there is no problem with parking on the street, one of the Commissioners indicated that the area was very congested when he made his inspection and he had to double park on the street. Another Commissioner, who said he was familiar with the property, stated that a three-family dwelling is "overburdening to the area, parking wise and tenant wise."

February 15, 1984

On the other hand, granting a variance to permit a two-family house would not substantially affect the parking situation. Neither would it be substantially detrimental to the zone plan as three-family homes are permitted in the zoning district.

I, therefore, move that the Municipal Council adopt the facts I have recited and the reasoning I have set forth and modify the decision of the Board of Adjustment so as to permit the use of the property for a two-family dwelling, seconded by Councilman Martinez and declared adopted by President Grant by the following votes:
 Yes: Councilmen Branch, Carrino, James, Martinez, Payne.

Not Voting: Councilman Branch.

A motion to reconsider this ordinance was made by President Grant, seconded by Councilman Martinez and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker,
President Grant.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

Councilman Carrino noted Mr. Henderson in the audience and requested him to approach the podium and questioned how many times the Newark Preservation Landmark Committee has met.

MR. D. J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY,
replied 25 or more times and the next meeting is tomorrow night.

Councilman Tucker stated the present Landmark Committee created by ordinance have never been appointed by the Mayor. He knows the Members of the

Landmark Committee have functioned on an on-going basis but they have never been sanctioned by City Government. The communication from the Historical Committee clearly indicated one factor that the ordinance creating them has been on the books for the last 2½ years but the Mayor has never exercised his option of creating them. He knows this new Commission, although it has been related by the Business Administrator that it is uniquely different, is quite similar and he is hopeful that at least if they are amenable to approve the ordinance, that at least the Mayor will be amenable to appoint the people.

Mr. Henderson questioned whether the Business Administrator furnished the Council with information as to the proposed staffing of this Commission. Will it have the usual quota of the Executive Assistant, Coordinator, Specialists, Analysts and a Director. Did he give any estimate of the cost involved in the operation of this Commission.

Councilman Tucker replied based on the ordinance there is no cost. The only point that needs to be raised is that they originally say that the staff support for this Historical Commission would primarily be done through existing staff positions. He thinks it is important to pinpoint that it is different than the Historical Commission. This new Commission would primarily deal with maximizing the different ethnic groupings within the City of Newark, doing a historical review of the different ethnics and their interaction with the development of the City of Newark. He thinks the question they have raised, is that the Historical Commission has a similar role so consequently why is there a need for a new Commission plus the Historical Commission at this point and time has the support of the staff and he thinks when they talked with Business Administrator Hill and Administration, they were of the opinion that somehow both entities need to sit down and work out whatever needed to be worked out so that both groupings would be conducted in the City of Newark. They are not disagreeing that they should not have a historical perspective dealing with every ethnic group in the City. He believes what needs to take place is that the historical society and this new grouping should in some way merge together and work out whatever needs to be worked out.

Councilman Branch said he believed this Commission was established before he came on the Council and questioned how long does it take before it is acted upon. If this would have been passed, would it have any bearing on the Mayor in appointing the Commissioners or does the Council have the power to appoint the Commissioners.

President Grant informed that this item will be on the Special Conference of February 21, 1984.

Councilman James concurred with remarks made by Councilman Tucker. The specifics have not been worked out but he thinks it is their opinion whereas the Landmark Committee has existed over the years as indicated by the question posed by Councilman Carrino, Mr. Henderson and many other citizens have given many hours dealing with the question of culture in our City. They would think it would be irresponsible to create a new Commission at this time without finding out why his Committee has not been given some recognition, some status or what in fact will this new Historical Commission do that the Landmark Committee has not done already. If they were to approve this tonight it would simply mean a duplication of responsibilities.

No one else appearing, a motion to close the hearing and defer action on this ordinance and directing the Deputy City Clerk to invite Mr. Edward A. Nehb, President, Newark Preservation and Landmarks Committee, Mr. D.J. Henderson, Business Administrator Hill, Assistant Business Administrator Banker, Corporation Counsel Teare and Chief of Staff Smith, Mayor's Office to meet with the Council at their special conference February 21, 1984.

HEARINGS OF CITIZENS.

6-HC-a. MS. DIANE FINDLEY, 129 TICHENOR STREET, NEWARK, NEW JERSEY.

6-HC-b. MS. BEAUTYMAE WEBSTER, 106 TICHENOR STREET, NEWARK, NEW JERSEY.

The above speakers addressed the Municipal Council with respect to the Homeless Trailer being operated by the Salvation Army at the corner of Pennington Street and Railroad Avenue. They urged the Council for their support to have this operation ceased at this location. They pointed out the increase of burglary and crime in this area. They noted that they were not against the homeless but felt the community should have its input.

Councilman James said it is true the City of Newark has been actively involved in the question of the homeless. Certainly all of them have a concern of individuals who walk the streets without a home and especially in the winter months might even die because they do not have adequate shelter. They have helped in many ways. They have actually provided a \$5,000. grant and the original trailer which was located on Mt. Carmel Guild site; placing of the water, the toilet and assisting in the electrical hook-up was done by the City. He will under Motions, introduce a Motion, stating "The Salvation Army cease operating the Homeless Trailer and a program at 299-301 New Jersey Railroad Avenue and with the assistance of the City, relocate said facility and program to property being considered for Reverend Doctor David Lee, Executive Director, Workers Together for the Needy Foundation, Inc. and or to coordinate the services for the homeless with the United Community Corporation, 31 Fulton Street, Newark. As a Member of the Committee on the Homeless, he personally feels they have a moral obligation. All of them want to help the homeless. If in a community where they plan to locate the trailer, there is opposition which they have learned from others in the community, he believes they have a right of community input and have accepted their concerns that they are not against the plight of the homeless but are against the present location because the street cannot accommodate the trailer. They have a letter from Dr. Lee indicating if the City will assist them in obtaining the Mac Truck Building at Broad Street he will willingly and enthusiastically accept the homeless tomorrow. He believes the paperwork for leasing this facility is presently on the Business Administrator's desk. They also have received communication from the United Community Corporation indicating they have opened up a homeless program, dormitory space, 7 days a week including food. As a Member of the Committee and he has certainly been assisted by Councilman Martinez, they have listened to those residents along that street and they have a legitimate right to share in that decision that this trailer is not in the best location to do the job for the homeless and at the same time not to be detrimental to the community.

Councilman James reiterated under Motions and with the assistance and the support of the Council Members, they will draft a letter to the Salvation Army asking them to move with due haste in relocating the trailer or actually coordinate with United Community Corporation to keep that trailer against the wishes of the community.

Councilman James requested through the Chair, to invite Executive Director Buck, Newark Housing Authority, Ms. Brenda Beaver, Salvation Army, Deputy Director Swales, Emergency Management Civil Defense, Interim Executive Director Gaskins, President Simmons, United Community Corporation, President and Director Lee, Workers Together for the Needy Foundation, Inc., Business Administrator Hill, Corporation Counsel Teare and Director of Health and Welfare Cherot to meet with the Council at their special conference February 21, 1984 to discuss the services for the homeless.

Councilman Martinez said he thinks it should be a lesson to every Ward Councilman. That when decisions are made, whether by Administration or outside groups, that a contact should be made to that particular Ward Councilman. It is not only embarrassing but insulting. He is not disagreeing that the homeless program is a bad program. It is a very good one but he felt that the Ward Councilman should be involved and the representatives of the area.

Councilman Tucker said he believes his colleagues have received notification from that tri-funded program that has already started for the homeless that will exist at U.C.C. That is funded part by the City, the County and the State and is operational at 31 Fulton Street. They have the ability to provide, not only services to the homeless, sitting down, but providing beds and also have the ability to feed them in the evening and have the ability to provide them with social services. Once they have the official "Kick-off" next week, he thinks it will alleviate some of the situation they are dealing with at Pennington Court. He is hopeful that other programs similar to this one will be able to suffice. This will not take care of all of the homeless in the City.

February 15, 1984

Councilman Martinez questioned Councilman Tucker whether he has touched base with any of the community people in that neighborhood where he is indicating relocation from one area to another.

Councilman Tucker replied in the affirmative. One of the problems they had at 31 Fulton Street location was the fact they wanted policemen to be there. Part of the application that was filed with the County, State and City, was to hire off-duty policemen who will be there between the hours 6:00 P.M. to 8:00 A.M. That was one of the prerequisites some of the business people and some of the residents wanted.

Councilman Martinez asked for a copy of what Councilman Tucker has just stated.

(For further action on this item, See Motion 7-M-a, on page 51 in the minutes of this meeting)

A motion to permit Mr. Miles Burger and Mr. Kelly Willoughby to be heard under "Hearings of Citizens" was made by Councilman James, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

6-HC-c. MR. MILES BURGER, 430 BROAD STREET, NEWARK, NEW JERSEY, owner of Club Zanzibar in Newark and an officer of the newly formed Newark Discotheque Owners Association.

6-HC-d. MR. KELLY WILLOUGHBY, 45 BRANFORD PLACE, NEWARK, NEW JERSEY, Club Sensations.

The above gentlemen addressed the Municipal Council with respect to the discotheque ordinance. They pointed out that without amending the ordinance, it would create a tremendous hardship on the owners of licensed discotheques. They urged the Council to amend the ordinance to permit the licensed owners to continue their established businesses to operate hours predicated on hours under the old ordinance.

Councilman Rice said they are trying to seriously turn some corners in correcting some of the ills that have been existing in the City of Newark for a long time and have not been created by the "disco" scene per se. He thinks it is time this Council makes it mind up that they are going to start to regulate their City day and night until they can eradicate some of the negative aspects. He doesn't think the business people, if they were to close at a reasonable hour, like the taverns, at 3:00 o'clock would be affected by any great dollars. He certainly understands what the owners are saying to them and they don't want to run any business out of the City of Newark. He disagrees with people coming before the Council and trying to tell them about the economics of their situations and all of the values placed in the City of Newark when in fact that is not all true. He is not trying to hurt any disco or clubs in the City of Newark just like he is not trying to enforce the laws to hurt any video companies. They recently adopted the curfew ordinance to protect the young people. He is not saying they are in the business of regulating peoples lives and certainly believes the first amendment right. He believes they have a vested interest, obligation to protect the citizenry.

Councilman Payne recalls when this ordinance was adopted about a month ago, he made a request that the Council defer action on this ordinance at that time. It was something in his opinion, he was uncomfortable, unsure and not ready to move on. He agrees they need to have controls and in his opinion they have moved almost into a period of anarchy and in many instances lawlessness. There needs to be a move towards restoring order because any society that is ruled by anarchy and a lack of discipline is on its way to extinction. He strongly feels they must move in directions to retain and restore the types of discipline that they had in the past.

Councilman Payne said he hoped in the future when there is some question on something that has implications like this that they would take another week to discuss it.

Councilman James said he was one of those who didn't support the ordinance. He has learned all the things that benefit the business community is not harmful for the City and he has come to learn that he would hate to see Prudential with its \$29 million leave the City. At one time he didn't have that opinion. He has heard some Members of the Council say the ordinance as presently changed and drafted and supported by the Council, was a good one because mothers didn't belong out there dancing because they belong at home watching their children. He thinks that is a

great statement but doesn't think they can legislate it because if they are not dancing it doesn't mean they are going to be home. He hoped they would face the challenge of recognizing in our City, there is a time to dance, a time for people to enjoy themselves and a time to improve our social and cultural offerings in our City. If it is a bad disco, a bad bar, a bad club, close it down. But if it is a good one, there is a time to dance.

Councilman Tucker pointed out to Gary's Bar wherein the Council had many problems with same trying to close it down for a number of years. He thinks the real issue is whether we want to have those discos located in areas where people have clearly indicated not just to the Council but everyone that they do not want discos in those residential communities. There is a disco trying to be established not in a residential community but in a quasi commercial community that has a residential community directly adjacent to it. He has had an opportunity to meet with Mr. Burger and some of the other representatives at the pre-meeting conference and said at that time if they cannot control the actions of discos, interacting in residential communities, basically establishing themselves without regulation of the City of Newark, then it means they have got to take the action that they have taken as a Council. If there are other alternatives which in effect do not in any way whatsoever hurt them, then he has no problem listening to them. He is not in support of people establishing discos in residential communities and he is not of the opinion they should be established in commercial or industrial communities unless the people who are affected by that disco feel that is something they should be dealing with. He recognizes that that determination may not very well be accepted by a large number of our young people who really like to dance those late hours in the morning. He would like them to look at one factor, contact the Police Director and have him identify the number of crimes and incidents directly related to discos from 3:00 A.M. to 6:00 A.M. and put that into the hopper when they start to make their consideration because that to him is the real cost of what it is. He is not going to reconsider anything that means a disco can be established in a residential community and you can't do anything about it and takes six years to get rid of it. If there are other viable alternatives he has no problem dealing with that.

Councilman Carrino said it is up to the City Council to decide what hours those people should be allowed to dance. Certainly nobody wants to hurt existing businesses in the City and that was one of the reasons why they wanted it deferred a month ago. The proliferation of illegal places being used for discotheques is starting to permeate every Ward in the City of Newark and if this ordinance is going to stop that that is fine. If there are amendments that could be passed in this ordinance that would not affect the places in existence now but they have an ordinance in effect now and no one is trying to rescind it or change it. The Law Department did respond to them and it is something they should discuss next Tuesday.

Councilman Rice said he wants to make it very clear that his position is not one to say that they have to deny their young people, seniors, women or male the opportunity of discoing or dancing. He is not trying to take away those kinds of rights but he is trying to protect the taxpayers and residents of the City of Newark and help turn this City around.

Councilman Branch noted this matter has been discussed on three or four occasions. He respects his colleagues but felt they spend a lot of time on issues wherein they should have been discussed at the pre-meeting.

(Copy of resolution and correspondence submitted to each Member of the Council)

Councilman Tucker said it is important to understand that no local vendors in the City of Newark were solicited in regards to hooking up these remote water meters. Also it became very clear that they were talking specifically about pipe fitting function. Any plumber in the City of Newark could perform or any plumber in the State of New Jersey. It should also be noted that Purchasing Agent Lucarelli indicated that he sent those bids to companies who basically, on a national basis install remote water meters. What those companies do is hire local people to install these water meters into a home. He also indicated the bid they are in receipt of is the only bidder, a contract for \$320,625. wherein a vendor would be paid \$36. to come into a home, remove approximately two pieces of pipe and install two couplings; run a wire that would be approximately 30 feet; install a remote reader detector on the outside of the building. They raised this issue at the pre-meeting conference; it was discussed and it was known right there and then that they did not even attempt to locate local plumbers on this contract.

Yes: Councilmen Carrino, James, Payne, Rice, President Grant.

Not Voting: Councilmen Branch, Martinez.

Councilman Tucker said they met with Business Administrator Hill and representatives of the Water Department to explain why they are in effect contracting with an out-of-state firm. He requested the Deputy City Clerk to have inserted in these minutes remarks made at the pre-meeting conference with respect to this resolution.

"PRESIDENT GRANT: I think one of the questions the gentleman who raised it had to do with I think it is a firm out of Michigan somewhere that is receiving the contract. I think the question was raised why do we have to go to Michigan when possibly there may be firms in this area.

MR. FRANK GRAZIANO: First of all Councilman, that money was not out of the Operating Budget. It was out of the Capital Budget. This contract was approved last year and that's what we are going to use the money for this year. We ordered the meters. We already received over 2,000 meters. The reason why is that outfit was doing the installation for Jersey City and we were recommended to them by Rocco Canassi where we buy our meters. Joe has interviewed them and we put out the specs through the regular procedures and they were the only bidders for the installation and they also bid and it was passed on First Reading and nobody in Newark seemed to come up with any bids.

PRESIDENT GRANT: To the best of your knowledge, is there any one in Newark who could have bid on this?

MR. GRAZIANO: I don't know. It was advertised.

PRESIDENT GRANT: In other words you don't know of any Company in Newark with the same capabilities.

Mr. Graziano: Off hand, no I don't. Nobody has even come forward. In fact we even sent letters out to Neptune, Badger Companies. Nobody responded.

COUNCILMAN TUCKER: My concern is I find it hard to believe that nobody in the State of New Jersey is interested in the contract.

MR. GRAZIANO: Oh, I'm not saying there isn't somebody interested in it. The only thing I say is nobody came forward at the time of the bid. They were the only ones.

COUNCILMAN TUCKER: The point that I'm raising is you said, I believe you said, you met with the ones who in effect is now the only bidder.

MR. GRAZIANO: They were the only ones who bid on the contract.

COUNCILMAN TUCKER: Well, how come you couldn't meet with other institutions within the State of New Jersey?

February 15, 1984

MR. GRAZIANO: At the time Joe sent out letters but he got no response. What we could do, it's up to the Council, we could re-advertise it again to see if there is anybody interested in New Jersey that wants to come in to bid. It's possible that at that time nobody looked into it or nobody was interested in it. This wasn't done in New Jersey until Jersey City started it. That's how we found out about it.

COUNCILMAN TUCKER: My concern is a very simple one. I think there's got to be somebody in New Jersey to do this contract. I can't believe that we got to go to Michigan to get this job disposed of. Let me qualify something. Let me be frank and say that. My concern is representing people who live in this town and obviously there are business people in the State of New Jersey. So if you tell me that in 16 months I'm not concerned with that.

MR. GRAZIANO: So you would be interested in somebody that is in New Jersey, not nobody in Newark, maybe somebody in New Jersey.

COUNCILMAN TUCKER: Somebody in New Jersey. I can't believe and I'm not going to accept the fact that nobody in this whole damn State can't do this job. That's the issue involved.

MR. GRAZIANO: I imagine there are people out there who can do it. It's the idea that nobody responded. What's the decision Council would want. We can re-advertise.

MR. ELTON HILL: But to re-advertise now, that would be for next year, wouldn't it? We have a contract with the guy.

MR. GRAZIANO: The contract hasn't been approved. It only passed the first reading. It's not into effect. We have the meters. They are just waiting for the okay.

PRESIDENT GRANT: Approximately how many other companies around the State of New Jersey did you write to?

MR. GRAZIANO: I don't know that Councilman Grant.

COUNCILMAN BRANCH: Are we going to hold this up now until you re-advertise?

PRESIDENT GRANT: The Council hasn't voted on it yet so there is no direction to re-advertise. The legislation is on the agenda for approval. It is up to the Council to vote it up or vote it down. If it is voted one way to reject and re-advertise then they would go out but that's not what we have before us.

COUNCILMAN BRANCH: What is the time frame on the installation?

PRESIDENT GRANT: Councilman Branch wants to know the time frame. From what he said is that the meters were in - some of them were ordered.

MR. GRAZIANO: They are ordered. Already 2000 have been shipped and Central Installation is just waiting for the okay to start. We got 700 and 7000 meters to put in this year and next year we have approximately about the same figure and we will complete the whole City. This will bring us to about 75%. This will leave us about 24% to finish the rest of the City. Whatever the Council wants, that's what we'll do.

COUNCILMAN TUCKER: My concern is that I don't even know why we should raise this. In other words why should we say we call upon somebody from Newark and if we can't get somebody from Newark, try and get the State of New Jersey and then if you can't get that then obviously do the best you can or whatever. What I'm saying is why should we have to say that? Why should we even have to say that?

MR. HILL: What did the specifications require when you did it? Was it just for State people?

MR. GRAZIANO: No, it was just contractors that install the remotes.

MR. HILL: Just to install the remotes. Did we specify in the specifications that they had to be from Newark, New Jersey or anyplace in the Country?

February 15, 1984

(Conversation between Business Administrator Hill and Mr. Graziano was inaudible.)

BUSINESS ADMINISTRATOR HILL: How many people bid?

MR. GRAZIANO: One.

BUSINESS ADMINISTRATOR HILL: One person. We advertise in how many papers?

MR. GRAZIANO: Lou will have to tell us that. I don't know.

BUSINESS ADMINISTRATOR HILL: When you look at the standard procedure of advertising and only one person bid, how can the Council hold anybody responsible for that?

COUNCILMAN TUCKER: What I am holding them responsible for, is not them per se. My concern relates to the whole doggone City Administration and that is that you try to get people from the State.

BUSINESS ADMINISTRATOR HILL: All we do is advertise the bid. Nobody comes forward and bids on it. You expect Administration to go out and look for people.

COUNCILMAN TUCKER: Not look for individuals but try to get somebody from the City and try to get somebody from the State.

BUSINESS ADMINISTRATOR HILL: We can find out from Lucarelli if he sent them to others, contracts to bid. That is the standard procedure. If you know there are people in that kind of business you send them an invitation to bid. If you put it in there, you advertise in a legal amount of time and nobody else bids, I mean, what are we supposed to do.

PRESIDENT GRANT: Frank, would you have someone see if they can get Mr. Lucarelli up and bring that information with him.

COUNCILMAN PAYNE: My question isn't regarding that. As a matter of fact not even to Mr. Graziano, maybe the Business Administrator. I have a question regarding the manner in which, I would assume it comes from Administration and not the Law Department. I see the 2%, 100 meters have been installed in the South Ward where the North Ward is totally complete. The East Ward is almost 60% complete. 2%. I am just curious as, what is more difficult over there and as for the Business Administrator, I assume the policy was made there not with the water guys. Mr. Hill, do you know why?

BUSINESS ADMINISTRATOR HILL: I don't know how they established the schedule.

PRESIDENT GRANT: According to this it indicates in the South Ward they have installed 98%. Only 100, only 2% to go.

COUNCILMAN PAYNE: It is just the opposite. I couldn't have gotten that much wrong.

BUSINESS ADMINISTRATOR HILL: I don't know who established that policy.

MR. GRAZIANO: We started in the West Ward because our Cycle, Cycle I then it comes all the way down to 13, the North Ward and we start in the West Ward. In the South Ward we have installed more meters than any other Ward

COUNCILMAN TUCKER: Let me ask you one question. What kind of contractor is this one contractor that is recommending to get this bid. What kind of a contractor is he or she.

MR. GRAZIANO: It's a big outfit. That is all they do all over the country. They install meters.

COUNCILMAN TUCKER: Can you describe to me what are they doing. In other words you are talking specifically about somebody who in effect is really either a plumber.

MR. GRAZIANO: They hire people, installers on piece work.

February 15, 1984

COUNCILMAN TUCKER: What I am saying to you and the reason why I am raising this issue about somebody from Newark or somebody from the State of New Jersey, is that you are talking about somebody who is nothing more than a pipefitter. Basically that is what you are talking about. I am talking about the actual task.

MR. GRAZIANO: They are a big outfit.

COUNCILMAN TUCKER: I don't know the outfit and I'm glad I don't know them. My concern is that you are talking about somebody who goes in a house, disconnects the old meter, puts a new meter in, runs the wire outside and puts the piece in. You are telling me that nobody in the City of Newark could do that.

MR. GRAZIANO: No. I didn't say that.

COUNCILMAN TUCKER: No, but in effect if we vote affirmatively for that, that is what in effect it says. So you are talking about a pipefitter or a plumber and we do not have a plumber or a pipefitter in Newark, or a plumber or a pipefitter in the State of New Jersey to do this. That is the net result of the action. I am not saying, I am not negating the fact that you didn't ask people. I am just saying I find it difficult to believe that we can't find nobody to do that.

MR. GRAZIANO: We probably can't. We had a Meter Lab at one time and I made a study of that. It is costing us more to have our people do it then contract it out.

COUNCILMAN BRANCH: Let me ask you a question. I see where we got 7,500 remote meters at \$55. per unit which comes to about \$412,000. My question is that you said earlier that you had bought over 2,000 units. They don't supply them. They just come in and charge that per unit. They don't buy it?

MR. GRAZIANO: We buy it from Rockwell International. We buy it with the remote. Central Installation just installs it. We tell them where to go and they install it and they get paid after the job is completed.

COUNCILMAN BRANCH: And they charge us this kind of money.

MR. GRAZIANO: They charge so much per unit.

COUNCILMAN TUCKER: My only concern on there is. How many folks do you know have plumbing businesses in the Central Ward. You can't hire some people to hook up the meters at say \$55. a meter.

MR. GRAZIANO: They are charging us \$36.80 per unit.

COUNCILMAN BRANCH: How much?

MR. GRAZIANO: \$36.80 per unit.

COUNCILMAN BRANCH: You have \$55. per unit.

MR. GRAZIANO: That is to buy the meter and the remote. We are talking about the installation, that's the material. That's the meter with the receptacle. We buy that from Rockwell International, because they were the lowest bidders. They have the three wires. The installation of one meter Central is charging is \$36.80; one inch meter \$36.80, one inch meter out of cycle \$21.25 and the protective box \$11.25.

PRESIDENT GRANT: Maybe when Lou Lucarelli comes up we could perhaps ask him some of the questions that have been asked you in terms of how the bids went out, the number of companies they contacted because your office has done what you were supposed to do indicate to the Administration that you want to go out for bid. Administration advertises. So that person when he gets up here perhaps ask him some of the same questions. Are there any other questions?

COUNCILMAN TUCKER: My concern is when we start looking at the bids, I don't know what the plan of action is. I get a feeling that there isn't a plan of action that would maximize hiring Newark vendors and New Jersey vendors. That to me is the issue now. It's like I remember conversation with Fleming over the investments. We had got into the Affirmative Action investments, what have you. Fleming said it was his job to get the maximum amount of benefits on investments and I think someone raised that means if you invested in South Africa you would

February 15, 1984

do that and he said "yes". The issue I am saying is, what is the basic plan. I know I had sent, we asked the Chamber of Commerce to give us a listing of all businesses in the City, in a list. We got that list and send that list down to Lucarelli. On that list is broken down all plumbers in Newark, all electricians in Newark. I bet you a dollar to a donut that Lucarelli is not sending out the notices to those people. That to me is the issue involved in here is that we don't want to seem, like the people who live in Newark, work for Newark don't want to push Newark. That is what I am dealing with. They don't push Newark but want to push Michigan. That doesn't make any kind of sense.

BUSINESS ADMINISTRATOR HILL: I don't know because all we are talking about is installation of remote water meters. That is a unique situation. I don't know who is the average person to install those meters.

COUNCILMAN TUCKER: Elton, it takes approximately 20 minutes. The issue is. I remember the guy coming to my house doing it. He takes those two couplings on one side and puts in two pieces of pipe and he is out of there in 20 minutes. That is what I am saying. You are talking about either a pipefitter or a simple plumber and you don't need to go to Michigan to get a pipefitter or a simple plumber with all of these plumbing concerns located here in Newark.

BUSINESS ADMINISTRATOR HILL: Look, when you advertise the contract for installation of remote meters. How many invitations did you send in the paper.

PURCHASING AGENT LUCARELLI: Well, we advertised in the paper for everyone to see and of course, in addition to that we advertised in three companies. Central Installation is the one that.....

PRESIDENT GRANT: Can you give the name and addresses of those you sent.

PURCHASING AGENT LUCARELLI: Central Installation, Fraser, Michigan, Manhattan Water Meter Repair, Bergenfield, New Jersey, Rockwell International, Pittsburgh, Pennsylvania.

COUNCILMAN TUCKER: In other words you did not send any notifications to any of the plumbers in Newark.

PURCHASING AGENT LUCARELLI: No we did not.

COUNCILMAN TUCKER: Do you mind if I ask why. Why wouldn't we do that.

PURCHASING AGENT LUCARELLI: It never occurred to us to do that simply because it wasn't that easy as I heard that it is. I repeat what the gentlemen from the Water Division told me. Supposedly the questions asked them is why can't a plumber install this meter.

BUSINESS ADMINISTRATOR HILL: Testing and electrical wires.

MR. GRAZIANO: In the contract they do hire local people.

COUNCILMAN TUCKER: Can I raise this. There is no electrical work. There is a wire. You are talking about a wire. There are three wires that go directly in like a telephone, that goes from the meter out to the outside of the house. All I am saying in effect is that there seems to be no philosophical perspective to say "let's try to make sure we give it to a Newark vendor". If he had never sent it to a Newark vendor, then obviously that is the reason why he has no responses.

BUSINESS ADMINISTRATOR HILL: Well, when you advertise in the public newspaper, anyone interested in any kind of work comes in to bid.

PURCHASING AGENT LUCARELLI: So far as the law is satisfied that is true.

BUSINESS ADMINISTRATOR HILL: Do you expect us to go out and knock on every guys door and tell him something.

COUNCILMAN TUCKER: Lucarelli, we sent you a listing of all vendors in the City that was compiled by the Chamber of Commerce. Do you send those people those lists.

February 15, 1984

PURCHASING AGENT LUCARELLI: Yes, when it is applicable to their type of the contract. For instance, if we have much need for repair work to City-owned buildings of course, that is the list we use to secure names and award contracts.

COUNCILMAN TUCKER: Why couldn't, if you are using the list how come you didn't do it in this one.

PURCHASING AGENT LUCARELLI: I was led to believe this was a project of a technical nature. The installation of the unit was not as easy as I heard, mentioned that it could be. If that is the case and the Law Department cannot substantiate the fact that it is a project that involves some kind of expertise I would suggest that we rescind this.

MR. GRAZIANO: The wires are hooked up right. Make sure they are in the right house.

COUNCILMAN TUCKER: Do you figure the plumbers in Newark are dumb.

MR. GRAZIANO: No.

COUNCILMAN TUCKER: Let's understand something. How in the hell can a plumber hook up a boiler and be able to run that which has a complicated electrical wiring system and they can't hook up three wires, I mean one wire, with three leads on two pieces of apparatus. It is not technical. It is basically a mechanical thing.

BUSINESS ADMINISTRATOR HILL: Did you know how to hook these up before you saw the man hook them up in your house.

COUNCILMAN TUCKER: No.

BUSINESS ADMINISTRATOR HILL: But you saw him do it.

COUNCILMAN TUCKER: Yes.

BUSINESS ADMINISTRATOR HILL: Then that means that every other plumber out there has never had an experience in hooking up meters, does not know how simple this is.

(Councilman Tucker and Business Administrator Hill talking at the same time)

COUNCILMAN TUCKER: Plumbers are putting up those remotes not only in Newark. We are not unique in Newark. We are not the only people in the State hooking up remote meters. What is happening in effect is that plumbers throughout the City are hooking those things up. The difference is that we do it differently here.

BUSINESS ADMINISTRATOR HILL: I don't see anyone interested.

COUNCILMAN TUCKER: I just think that if they get notified to bid on the situation, then they probably.... This is just one incident. I am not concerned with this particular bid. What I am concerned about is that we should have a general philosophical philosophy that says "let's try to give it to somebody that is paying taxes in Newark." That is what I am saying. It's just like our flags, we have a guy on Bloomfield Avenue who makes flags. All of sudden, I need a flag, I found out that we have a contract with some guy out in Brooklyn, to get a damn flag. Nobody ever went out to the guy on Bloomfield Avenue who makes flags and said "would you bid on this contract." That is what I am saying. I am not dealing with the fact.....

BUSINESS ADMINISTRATOR HILL: I will tell you something right now. If you think I am going to go to some contractor, instruct someone to go to a contractor to tell them to bid on a contract, I will not be caught up in that kind of bind.

COUNCILMAN TUCKER: You see. When the Chamber of Commerce did that I.B.M. computer print-out and gave it to him and doesn't do it then it tells you what is happening.

February 15, 1984

CS1

BUSINESS ADMINISTRATOR HILL:set up an invitation to bid. We should also advertise in the paper. That is what the law requires.....instructed somebody to go to an individual or a corporate individual and tell him I want you to bid on this contract.

COUNCILMAN TUCKER: Mr. President, can I get a copy, we made a resolution and sent it down to Lucarelli dealing with Newark vendors. It did not say go to this one vendor. It listed every manufacturing, industrial manufacturing and commercial outlets in the City. In that motion, I made that motion I said try to send them bids. Obviously, if they don't want to bid they won't bid but at least try to do it. That is the issue. Try to get somebody in Newark who has a business, paying taxes, to get it. I am not dealing with any one vendor. I am just saying if you have the ability to notify people, notify them. If they don't want to respond that is it.

COUNCILMAN PAYNE: I just have to agree to some degree with Councilman Tucker. I can see Mr. Graziano, when they got the water to do it. The water people to go ahead and do it. This is the contractor. This is the way we think it has to be done. The contractor, they bid and get the thing. I really don't have problems, really with the techniques of the Water Department per se but I just want to hitchhike on the philosophical point of view. I think it is kind of incumbent of the whole question of affirmative action, the whole thrust of the 60's opened up things was that you would do some things differently, not in violation of the law but differently. Perhaps the plumbers in Newark saw a remote control thing and maybe thought it was a little more than it really was. Just case in point on this particular issue, and they do this in cities, they do it in Atlanta, do it in Cleveland, Coleman Young, Los Angeles. They even do it in some small cities. They would have a little affair and invite the local, not a whole elaborate thing, in the local plumbers and say "this is the thing and this is the way it is done", and maybe you think of a remote and they are thinking of some high technology, telstar, and it might be you might need a guy that uses the same monkey wrench, screws it off, pulls it up, etc. Maybe a half dozen guys would say "you know, the unknown. people that don't know, they don't want to say they don't know. The fear of unknown is the greatest fear, they tell me. You show tht it might not be the most astronomical kind of event. I think that is the responsibility, not on everything but something special. There must have been a lot of money spent to have the entire City done. Something like that, a local firm paying local payroll taxes, maybe these people do work in the City. It could be on something like this a little bit of creativity, a little bit of something else, not everything. I am not criticizing your Department, Frank, I am just saying the Purchasing Department, with increases of salary and everything, we could create something because it helps us all, helps the City payroll tax, puts a little more money in the coffers, maybe it means another policeman. I think everybody around the table basically is for the City getting back on its feet. I think it is unfortunate that we do miss the boat sometimes on things like this that could possibly be done once you let people know you can do it. I agree with the philosophical thing that we all ought to be encompassing. We ought to try to see how many people we can bring in. It is not your job to tell a guy you should bid on this. It was the same thing with the medical school. They used to bring in 500 and fail 400 to graduate 100 doctors. Now they bring in 100 and graduate 100. Try to make it inclusive rather than make it deductive. That is my only point in unique situations like this.

PURCHASING AGENT LUCARELLI: Frequently, now more than ever we hold pre-bidders conferences with bidders and explain to them what it is the agency is seeking in the form of a service or a commodity but the initial input has to be by the vendor. He has to respond to the advertisement and say "I am interested".

COUNCILMAN PAYNE: I would say on something like this, I would tap the lady down there, one of the clerk-typists or steno, have them type up a couple of letters and just mail it to some plumbers in Newark. Just on a special shot and say this might be something, big plumbers up in the Central Ward near Metropolitan Church, some of the guys up in the old North Ward could still do this kind of work.

February 15, 1984

COUNCILMAN BRANCH: I don't want to be repetitious in what I am saying but I said this before. We don't establish any kind of incentive programs to encourage people to invest in Newark, to get people who may have the expertise to do some of the things you are talking about and when we come to meetings like this and we call Mr. Lucarelli and others and we still don't have incentive programs, we don't have any kind of proper announcements to encourage people. We are talking about trying to bring people into the City of Newark and get those who pay City taxes, we have to do more than just sit here and talk about it. Put it into some kind of action to be carried out. Advertising is one thing but what you do from this Council is another.

COUNCILMAN TUCKER: George, we got the Chamber of Commerce to identify every Newark vendor. That took approximately a year. They gave us a computer print-out which identifies people not only just by names but by categories of business interests. It had all of the plumbers, all of the electricians, all off the people who manufacture whatever it is and made a Council Resolution. We gave it to Lucarelli and told him to send a letter to every one of those vendors when they are going to deal with plumbing matters, electrical matters. That is an incentive. If you live in Newark or you have a business located in Newark, we are going to send you notification which at least is the first option. Clearly, if you don't want to bid then that is your business. You choose not to do that. What I am hearing is that that was not done. So in effect (didn't finish)

PURCHASING AGENT LUCARELLI: It wasn't done by our office. The Mayor's Office also has a direct input of referral of minority vendors in the City.

COUNCILMAN TUCKER: I am not talking about minorities. This was not a minority vendor. This was Newark vendors. I don't give a damn what color they were. The issue was to try to make sure that Newark vendors were given an opportunity to bid. Clearly you and I both understand they may not all bid. They may not want to be bothered with the City and give a lot of justifiable reasons. Some of them may have short financial things and can't wait to be paid but give them the opportunity of saying 'no'. That is what I am saying. Let's say a guy is in business in Newark. He knows that we are going to try to give him some business and when he moves out of Newark he knows that we are not going to follow that rule. That is the real issue.

PRESIDENT GRANT: Mr. Lucarelli. What it bottoms out to be here is that there is an assumption that perhaps that on this particular bid, not enough energy was placed or directed in terms of trying to attract someone near home. I am sure you have advertised in the Ledger. I don't know if you advertised in the Afro or the Elizabeth Daily Journal or Greater Newark. I have asked the Clerk to check on that because they are eligible for advertising that people do read and what we are saying given the list you got, its apparent that you could have used a little more discretion in terms of going out to a few other persons. Now, whether or not this particular installation requires a certain expertise that no one else has, that is a nag of a different hue but if it is a simple matter, I don't know if it is a simple matter because I have never seen one installed, I don't know who it is installed, but if it is the uncoupling of two necks and the reconnection of the same thing with a lead, whatever. I just did some electrical work last night at home that I thought I couldn't do and I saved myself a few hundred dollars. The point we are making here is that this particular contract is not so much at stake.

MR. GRAZIANO: There are a lot of.....in New Jersey. There is one in Union, Elizabeth.... They probably never read the paper. Didn't know anything about it. We have a lot of repair companies that can handle repairing meters.

PRESIDENT GRANT: I think what Mr. Hill indicated if there is a list, an established list, that would be the list Lucarelli would use in advertising and making it known and available to persons to come to bid. Now, if that was not done then you went to three people or you advertised and three persons responded. What we are saying not that this is a fait accompli but from this day forward, we don't need an ordinance for it, I think there is a resolution of intent already been forwarded to your office and we try to use Newark vendors where possible and vendors within the State of New Jersey when possible and if there is a need for outside the State service, then obviously good common sense would tell us to go there.

February 15, 1984

But from step one we try to lower our buckets from where we are. There is plenty of fresh water right here but if we think it is only out in the deep ocean then that is the only place where we will go.

COUNCILMAN TUCKER: There is another example. We have an engineering contract we are getting ready to vote on to check cracks, it is not a bid. I know of one engineering firm, I don't know if there are any other ones and don't know if they were considered. There has to be a basic philosophy that barring everything else we are going to try to go with someone from Newark and at least reach out to them. I am not saying go down and say I want you to bid on it. What I am saying is to notify them that we are considering it and they can either respond or not respond.

COUNCILMAN PAYNE: Just the last point on it. As Councilman Tucker really brought out very well. There are small business people that really don't have a lot of luxuries they don't have and a lot of it sometimes you know..... running the press to. To be able to sit down and really be able to read all the bids, a lot of small printing. A lot of time it just passes by. My point is if it is something general, I think we are doing something, the whole spirit of affirmative action, the whole spirit of working withMr. Chamber of Commerce people, people that have paid a fee to join the Chamber of Commerce and some of them are not even from Newark. But if they had enough interest for some reason to pay \$150. to join the Chamber. Not on everything, then you have a cost problem but on special things. It is in the spirit of the law, whether its being done in other cities, particular cities that are led by minority Mayors you find they even bend over backwards. You would be surprised what they do in some of these cities. We're saying don't do it on every little thing but we are talking about some specific things. Send them a letter telling them about it sometime if it is something like this. As you mentioned a pre-conference thing where you can explain. I'm sure a lot of people didn't bid because they didn't know what the heck it was. We take the initiative, take the first step without, certainly we are not talking about a violation of law.

PRESIDENT GRANT: What has been the company that installed those to date. Which company was that?

MR. GRAZIANO: Central Installation.

PRESIDENT GRANT: And they are from?

MR. GRAZIANO: From Michigan. They have a warehouse here on Summer Avenue and they hire all local people.

COUNCILMAN PAYNE: It is also a fait accompli. They have done it all and have to finish it up. Maybe in the future, I think they are getting away from the payroll tax that we are losing because the checks have to be sent from Michigan, the home office and come back and pay the people locally so we are getting the shaft on that...

MR. GRAZIANO: Right now they are holding 1,000 meters on Summer Avenue.

COUNCILMAN PAYNE: I would move that we move. I think someone else tabled it.

COUNCILMAN TUCKER: I have no problem but my concern is where do we go from here. That you should send out those damn notices to the people who have businesses in Newark. If we aren't pro-Newark, who the hell is going to be. That is the issue that is involved.

PRESIDENT GRANT: I don't think it would smack of collusion. In other words, if you have a list of companies, you don't know them from Adam and that entire list is a set of mailing.

MR. GRAZIANO: We can send out letters to all the meter companies in New Jersey if next year they are interested in remotes, installations, we will be on the look out.

PRESIDENT GRANT: What is it that you have in abundance of responsibility in terms of bids because I know quite often contracts come before the Council in forms of resolutions, what have you, only one responsible bidder or two persons bid or sometimes three persons may bid. What do we send out that we let that we really get a good response on.

February 15, 1984

PURCHASING AGENT LUCARELLI: Janitorial services primarily. You usually get a dozen bidders. Everytime there is an article in the newspaper concerning a contract we get good response. Security contracts. Good response, 10, 12 letters. I'm not suggesting we have comments in the paper relative to contracts. Whenever it happens, whether its an investigation of some type bidders from all over come out.

7-R-f. Resolution authorizing Business Administrator to enter into contract with Mr. John Martino, T/A Mr. Steam Machine, Ironbound Transport Park, 474 Wilson Avenue, Newark, only responsible bid received, to Provide Steam Cleaning Vehicles as listed on attached schedule, for period February 16, 1984 to February 15, 1985; funds shall be encumbered from the 1984 Budget of the Department of General Services and are contingent upon and subject to such appropriation. No monies can be expended until such time as certification is received by the City Clerk; total amount of contract shall not exceed \$25,000.

Councilman Tucker said he would like to ask his colleagues to defer this and ask that vendor to come in. There have been some questions raised dealing with the proposed vendors of that site.

Councilman Martinez asked Councilman Tucker why would he request the person to come in.

February 15, 1984

Councilman Tucker replied some of the vendors of that area have indicated that they are in receipt of City funds or receipt of HUD funds and no minority vendors have been able to locate at that new mall. That is an allegation and he would like to find out if there is any validity to it.

A motion to adopt the resolution was made by Councilman Martinez, seconded by Councilman Rice and declared adopted by President Grant by the following votes:
Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, President Grant.

Councilman James stated in the hearing although Mr. Herbert was not accused of any malicious act, departmental charges in fact were lodged because of a false report. His only concern is are the monies being paid now due to the legal charge which he was actually exonerated or whether it is due to the fact that our own Department charged him with filing a false report. If an individual files a false police report and goes into an administrative court and is forced to receive back pay, what type of supervision, control or administrative control do we have over those who are in this unique, precarious, difficult and certainly a responsibility that they can only honor and praise them. He hoped they would research the report that was given to them because he is confused whether the back payment is due to the fact that he was exonerated of the incident.

Councilman Rice said he can assure Councilman James that he is being paid from the exoneration of the judicial process, court litigation and not Police Department administrative hearing. He has not lost his job regardless of what took place with the police report.

Councilman James questioned whether he was departmentally disciplined for the false report.

Councilman Rice replied it was his understanding that he was disciplined internally but it has nothing to do with the dollars.

President Grant requested the Deputy City Clerk if he had the information to read it into the record.

Deputy City Clerk Marasco said the memo from the Corporation Counsel's Office stated the proposed sum authorizes payment in full satisfaction of a judgement and attorney fees. Subsequent to the shooting, the officer was suspended from the department pending the outcome of the case. The Grand Jury returned no bill and the Police Department conducted a departmental hearing, found the officer guilty and suspended him for six months. The Office of Administrative Law and Civil Service Commission overturned that finding by the Police Department.

Councilman Tucker said there is a substitute resolution for 7-R-bk. The original resolution that appears on the calendar deals with Block 5088, Lots 131, 132 and 170. 7-R-bk-a. Resolution authorizing the Central Planning Board to make an investigation and hold public hearings to determine whether City Tax Block 5088, Lots 74, 119, 126, 133, 134, 138, 161, 164, 166, 166-A, 169, 182 and 74-B are blighted areas. (Waverly Yards)
(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Martinez, seconded by Councilman Carrino.

Councilman James stated he has asked for this information before and has yet to receive it. In the lease arrangements with Norris Industries which they have with the City and has asked for a copy of the original lease arrangement; payments made to the City under this arrangement and what use of the land has occurred during the life of the lease. He questioned when he would be in receipt of that information.

President Grant questioned Deputy City Clerk Marasco whether that information has been forthcoming from the appropriate persons in Administration.

Deputy City Clerk Marasco replied not the type of information Councilman James is referring to.

Councilman Martinez said this is a blight resolution and felt Councilman James request should be honored but felt this resolution should not be held up at this particular time.

Councilman James said if you have no intentions for voting on it based on information received then he would say there is no point of moving it to first step. Councilman Martinez is asking that he is calling this an East Ward matter that he would like exclusive recognition of the Council, he would reconsider his act tonight. If he is calling for a Ward vote, as a Ward Councilman then he will reconsider on this part.

Councilman Martinez said it is an East Ward Project and gave the background of this location.

Councilman James said he is in support of statement made by Councilman Martinez. Anything that is good for the City bringing in new tax ratables, income, they are for it. A blight declaration is only a pre-runner for Fox Lance. He questioned whether there was any place in Newark where they don't have to give tax abatement to build.

February 15, 1984

Councilman Payne said it seems like a greater number of parcels that are being requested then originally listed on the agenda. He would like to have NEDC back before the Council and have them reconsider whether they have to give them a total Fox Lance, 15 years, etc.

Councilman Tucker said the whole declaration of blight basically indicates the area is no longer of use and that in effect it is not structured to at least relate to the modern market. To ask the Planning Board to go through the blight declaration they have to look at the existing structure, find out whether those structures are outdated or not or they are current.

February 15, 1984

381

Yes: Councilmen Branch, James, Payne, Rice, Tucker, President Grant.
Not Voting: Councilmen Carrino, Martinez.

Councilman Rice said they are going to discuss this but hoped his colleagues would think about this. He doesn't know about the other Wards but tractor-trailers have taken over the community, it's good and it means a lot of people are employed but the fact of the matter is that people are being mugged behind these trucks; they are creating traffic hazards, etc. The present law only allows the Police Department to issue summonses between the hours of 12 and 5. He has had trucks in his community week in and week out and the Police refuse to go beyond the 12 o'clock period. What this proposed ordinance is saying that if you have a trailer truck, tractor-trailer, rig-cab, certain size of truck that you cannot park in the City of Newark because it is against the law presently but you cannot park within the 24 hour period any place except unloading your goods or loading.

Councilman Martinez said he thinks the intent of the law is good but there is nothing in front of him to consider at this time.

A motion to adopt the Motion was made by Councilman Rice, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

A motion directing the Deputy City Clerk to place this ordinance on the March 7, 1984 Calendar of the Municipal Council for first reading was made by Councilman Payne, seconded by Councilman Branch.

Councilman Martinez said this is a total disgrace. You have inspectors working for the City of Newark who have gone to school, who are licensed by the City making between \$15,000. - \$18,000. These are inspectors who are not licensed, temporary employees with a salary of \$18,000. - \$21,000. He believes to vote on this is not in the best interests of the City, morale and people looking to improve themselves.

Councilman Rice queried if this is a salary change and Chief Analyst Polster replied the file shows the incumbent's present title is Assistant Real Estate Repair and Maintenance Officer and there is no salary change.

Councilman Martinez stated they were Repairman and will now be called Inspectors, Office of Real Property.

Councilman Payne and Councilman Branch removed their motions directing the Deputy City Clerk to place this ordinance on the March 7, 1984 Calendar of the Municipal Council for first reading.

A motion to table the ordinance and directing the Deputy City Clerk to invite Business Administrator Hill, Director of Engineering Zach, Director of Inspections McGinley and Administrative Aide Lembo, Office of Real Property to meet with the Council at their pre-meeting conference March 6, 1984 was made by Councilman Martinez, seconded by Councilman Rice and adopted by the following votes:

(To adjust the salary of Administrative Analyst, Evelyn Matthews)."
(To adjust salary of incumbent to 3rd step of current salary range. Not represented by any Union. Fiscal Impact - \$2,057.)

Councilman Carrino said he thinks they are starting to set a precedent because of the Assistant Purchasing Agent. This is the second time in two weeks and the second time in 11 years that he has seen a pay raise come through for an individual. There must be a great number of Administrative Analysts in the City of Newark and this person is going to jump to the third step of the current salary range. He doesn't understand how they can start dealing with specific individuals when it comes to a broad City classification.

Councilman Martinez pointed out this employee was hired on July 1, 1983. There are other employees who are permanent who have been here for a long time and are doing this without justification.

Councilman Tucker said he agreed with Councilman Carrino but this individual has been working for a Municipal program but not being benefited by being on the Municipal payroll. This is the same situation that was faced with Kelmo Porter.

A motion directing the Deputy City Clerk to place this ordinance on the March 7, 1984 Calendar of the Municipal Council for first reading was made by Councilman Tucker, seconded by Councilman Branch and failed of adoption by the following votes:

Honorable Donald Tucker

City Hall
Newark, New Jersey 07102

Dear Councilman Tucker:

We have been advised that five (5) ordinances conveying land from the City of Newark to the Newark Housing Authority for the purpose of construction of public housing have been tabled by you.

A call to your office this afternoon failed to elicit what information you require from us in order that these ordinances be moved expeditiously.

March 7, 1984

013

It is important that these ordinances be acted upon as soon as possible since the agency is under a set of date deadlines from the HUD Area Office concerning the development of these public housing units.

Please contact myself, or William Reid at 430-2336, as soon as possible, preferably on Wednesday, March 7, 1984, so that we may supply you with whatever information you require.

Respectfully yours,

MILTON A. BUCK
Executive Director

Councilman Tucker said he believed the Council needed to be in receipt of information to find out what buildings were being built, how much the taxes were going to be and if the buildings were Section 8 housing. His main concern was how much money the City of Newark was going to be in receipt of. He also queried about the fact if HUD was going to build housing on land they currently own.

Councilman Branch mentioned he spoke to Mr. Buck and asked him if someone could come before the Council and explain these various pieces of property in question. Mr. Buck informed Councilman Branch that Mr. William Reid would be present at the regular meeting to try and answer any questions.

Mr. William Reid, Newark Housing Authority, said the Housing Authority was trying to get this approved in conjunction with a medical facility being built. He also mentioned by combining the 65 lots, there will be enough space for townhouses to be built. He stated that once approval was received, 12 months would be given to break ground. He mentioned the Board of Education was also proposing to build a school in that area.

The motion to defer action on the ordinance and directing the Deputy City Clerk to place this ordinance on the Special Meeting calendar for Tuesday, March 13, 1984 was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Tucker, Villani, President Grant.

The Deputy City Clerk presented Communication from Business Administrator Hill, received February 27, 1984, enclosing proposed "Ordinance approving the sale of Block 309, Lot 9, commonly known as 546-548 South 12th Street, pursuant to the provisions of N.J.S.A. 40A:12-13 (b) (1)." (\$1.00) (Newark Housing Authority) (Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to defer action on the ordinance and directing the Deputy City Clerk to place this ordinance on the Special Meeting calendar for Tuesday, March 13, 1984 was made by President Grant, seconded by Councilman Carrino.

Mr. Reid said the Housing Authority was in the process of purchasing the balance of the property from the Board of Education for the South 12th Street area.

March 7, 1984

Councilman Martinez wanted to know if there was a law which exists in the City where the developer would have to get a 99 year lease when purchasing property from the Board of Education.

Councilman Carrino queried as to who would be doing the construction.

Mr. Reid said the Housing Authority would be doing the constructing of the housing.

Councilman Rice said he was concerned with the quality of housing in the West Ward. He mentioned that years, on Brookdale Avenue, the Housing Authority was supposed to build on vacant lots, but to date, have not. He suggested the Housing Authority go to HUD and request dollars to assist the West Ward.

President Grant asked Mr. Reid if these ordinances could be delayed another few days.

Mr. Reid replied it did not matter.

President Grant directed that Items 8-j. through 8-n. be deferred and placed on a Special Meeting calendar for Tuesday, March 13, 1984. He also requested that the Special Meeting be called for 11:00 A.M.

Councilman Tucker again stated his major concern was how much money these properties would collect in taxes.

Councilman James felt that Mr. Reid was not in a position of dealing with the philosophy of the Housing Authority. He said the Housing Authority has had a bad record of purchasing property and leaving it abandoned for long periods of time.

Councilman Carrino indicated he did not understand why the Housing Authority had to take over land to build when there were private developers who want property to build and who would pay taxes.

Councilman Tucker stated that once the Council receives all of the figures for taxes on Tax Abatement properties, including Fox Lance properties, he wanted the Council to discuss them with the Tax Collector.

HEARINGS OF CITIZENS.

6-HC-a.

MR. JOHN GEROW, PRESIDENT, NEWARK FIREMEN'S UNION, 554 SANDFORD AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the Fire Department's Proposed Budget, and the need for more manpower. He felt manpower was the most important issue since there was a depreciation of 49 firemen. More units would get closed if there were not enough men to run the rigs. He noted this situation lead to more and more fire deaths.

Councilman James assured Mr. Gerow that the citizens of the City of Newark did not want a decrease in Fire personnel. He mentioned an alternate measure could be taken by either laying off Municipal personnel, increasing tax rates or going down to Trenton to lobby for more surplus dollars. He asked Mr. Gerow what he would suggest.

Mr. Gerow indicated for every 5,000 in population in the City, the law allows 1 patrolman to be hired; for every 7,000 in population, a fireman could be hired. He said he did not want to see anyone get laid-off because that would cause the services to be diminished. He noted that he had looked at this years Proposed Budget and saw a deficiency of almost \$100,000.

Councilman James said the solution might not be in Newark to find funds. He said he was happy to see Mr. Gerow suggesting ways to find a solution elsewhere.

Councilman Martinez stated there was a catch to the "Graves Bill." The City must maintain the level of services as the previous year before.

MR. FRANK HURTZ, 402 MT. PROSPECT AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to a situation he had with the Rent Control Board. The Rent Control Board told him he did not have to pay taxes for a particular piece of property because it was going to be paid by HUD. He went on to say he had a meeting with people from HUD and they informed him that he did, in fact, have to pay the taxes. He wanted to know what the Council was going to do in terms of the way property taxes are collected by the City of Newark.

He also discussed the subject of Tax Surcharge. He stated that if a property owner fails to pay their taxes within a two year period the City of Newark could foreclose on the property. He felt that would lead into the situation of uncollected taxes. He said that unless the Rent Control law was tight, the City could become bankrupt.

Councilman Tucker mentioned there was an amendment to the Rent Control Ordinance and it dealt with the delinquency of taxes on behalf of the landlord. He said the Law Department indicated to the Council that the ordinance could not be approved and would not stand up in court. He stated there was a maximum fine of \$500,000. that the Council could impose. If the City did impose such a fine, it would have to be done by the Municipal Court. He stated the City was limited to a certain degree in penalizing a landlord when they did not pay their taxes. He said he doubted if the City could go above and beyond those alternatives.

March 7, 1984

President Grant informed Mr. Hurtz that there would be a discussion on the matter of Rent Control and collection of property taxes on Tuesday, March 13, 1984, at 10:00 A.M. He told Mr. Hurtz that he was invited to sit in on the meeting.

6-HC-c.

MR. THEODORE MURNICK, 375 MT. PROSPECT AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to an abandoned building located on 143-149 Lincoln Avenue. He felt this building was a fire hazard. He asked the Council if they could assist him in having the building boarded up.

He also discussed the subject of Tax Abatements and the monies being applied to them. He asked the Council what the City of Newark receives in dollars from the property taxes on these various Tax Abatements. All he asked the Council to do was follow up on the rights they have on all of the tax abatement agreements. He noted that if someone was hired for \$100,000. a year to do a study and get back for the City \$3,000,000., and if the City did not have the \$100,000., he indicated he would lend the City half of the money if he would receive half of what the City received in return.

President Grant asked the representative from the Law Department, Ms. Jeanne Damgen, to explain the process which the City goes through when a building is abandoned.

Ms. Damgen replied that she did not have the information readily available.

Councilman Carrino stated that Mr. Joseph McGinley, Director, Division of Inspections, could take care of the problem of having an abandoned building boarded up. On the subject of Tax Abatements and the dollar amount the City of Newark receives from them, Mr. Kenneth Joseph should be the one who could be able to answer those questions. He felt a letter should be sent to Mr. Joseph pinpointing various Tax Abatement projects and the costs of them.

Councilman James said he was happy to hear that Mr. Murnick and Mr. D.J. Henderson received the Golden Broom Award. He said it was good to know that people were working to improve the quality of Newark.

Councilman Tucker stated that he could obtain the figures dealing with Fox Lance Tax Abatements but the Limited Dividends would take Mr. Joseph a long time to compile. As far as Fox Lance Tax Abatements went, he believed that the City should be in receipt of 2% of the construction cost. He also mentioned a meeting with the Housing Finance Agency where they wanted to develop a new formula with the City.

Councilman Tucker mentioned a meeting that some Members of the Council had with Administration dealing with modular construction. He said there were three areas that were discussed; 1) Straight Property Tax Construction; 2) Mortgage Subsidy, which was backed by Finance Housing Agency and 3) Limited Dividend Fox Lance Tax Abatement. He indicated that Administration said to him that if the City goes into modular construction dealing with non-profit tax exemption, the City in effect, would be in receipt of \$56.00 per month for each of those units. He noted that the resolution that was before the Council was for the parcel of land that was mentioned at the meeting with the Business Administrator. He said he just wanted to be sure if they were the same property.

Deputy City Clerk Marasco read the following letter dated March 7, 1984 from His Honor, Mayor Kenneth A. Gibson:

KENNETH A. GIBSON
MAYOR
NEWARK, NEW JERSEY

March 7, 1984

Mr. Robert Marasco
Deputy City Clerk
City Hall
Newark, New Jersey 07102

Dear Mr. Marasco:

I respectfully request that the Municipal Council consider the following legislation as an added starter at its March 7, 1984, meeting:

-RESOLUTION AMENDING RESOLUTION 7Rch(A.S.) ADOPTED FEBRUARY 15, 1984, AUTHORIZING SOLICITATION OF SEALED BIDS FOR THE SALE OF CITY-OWNED PROPERTY, ET SEQ., PURSUANT TO N.J.S.A. 40A:12-13(a), AND AUTHORIZING ADVERTISING AND SETTING A RETURN DATE FOR ACCEPTANCE OF THE FINAL BID FOR THE PURPOSE OF SAME UNDER SPECIFIED CONDITIONS.

This action is necessary because the legal advertisement, which appeared in the Star Ledger on February 25, 1984, and February 27, 1984, omitted a portion of the property to be sold.

Sincerely,

KENNETH A. GIBSON
MAYOR

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Martinez, seconded by Councilman Carrino and failed of adoption by the following votes:
Yes: Councilmen Carrino, Martinez, Villani.
No: Councilmen Rice, Tucker.
Not Voting: Councilmen Branch, James, Payne, President Grant.

Councilman Carrino asked if this bidder was the highest bidder for the contract.

President Grant replied in the affirmative.

Councilman Carrino queried as to whether Newark policemen were going to secure City Hall and the other buildings. He asked if a rejection of the contract meant that Newark police were going to guard these buildings.

President Grant said he did not think that is what that would mean. The contract, if it is rejected, did not mean Administration had to go out and pull police off the street. It would only mean that Administration would have the responsibility of providing security for the City-owned properties. He stated if he remembered correctly, it was rejected a while back.

Deputy City Clerk Marasco replied in the affirmative.

President Grant said the contract was rejected with a message to Administration to readvertise for bids.

March 7, 1984

Councilman Carrino indicated one of the reasons for rejection would have to be documented as to why the highest or lowest bidder was being rejected. He said he did not have any documentation as to why the contract should be rejected. 043

Councilman Rice noted that many times before the Council Members have stated that it was not a responsible bid. He said he supported keeping police officers in the streets.

Councilman James stated there should not be any interpretations unless there were statements made for the record. If not, this would leave viable alternatives open to both Administration and the Council at a later date. He stated it was in the best wisdom of the Council not to accept the bids as received. He noted it did not cast an unfavorable reflection on parties who bid in the bidding procedure. He reminded the Council that it was already indicated the Council heretofore had asked that the bids be readvertised.

Councilman Martinez stated that after looking over the legislation, he did not see any documentation incorporated. He said the Council was not showing the total responsibility required by State law. He affirmed there had to be a reason if Council was going to reject a contract where less dollars were going to be expended.

Councilman James asked if the Council, within their power, could readvertise and resubmit for bids.

Councilman Carrino said he thought it could be done if the Council had the proper documentation that the highest bidder was not responsible.

Councilman Tucker hoped that his colleagues were aware of the fact that material was being placed into the record that would possibly be utilized by the vendor when and if the Council went to court. He said he did not believe the bid was in the best interest of the City.

Councilman James asked the representative from the Law Department, Ms. Jeanne Damgen, if the Council had the right to reject bids.

Ms. Damgen replied she would have to do further research on the matter.

A motion to reject the resolution was made by Councilman Tucker, seconded by Councilman Rice and declared adopted by President Grant by the following votes:

Yes: Councilmen James, Payne, Rice, Tucker, President Grant.

No: Councilmen Carrino, Martinez.

Not Voting: Councilmen Branch, Villani.

C-18

A special meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in the Council Chamber, City Hall, Newark, New Jersey, at 3:16 P.M.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Branch, James, Rice, Villani, President Grant, Deputy City Clerk Robert P. Marasco, Deputy City Clerk of the Municipal Council.

Resolution authorizing the Purchasing Agent to advertise and receive bids for Security Services.

President Grant stated, "In accordance with New Jersey P.L. 1975, Chapter 231, Section 5, adequate notice of this meeting has been provided by notifying by mail the Newark Star Ledger and Elizabeth Daily Journal, by posting on the designated bulletin board in the basement of City Hall and by filing in the Office of the City Clerk on December 13, 1983 the schedule of regular meetings and conferences of the Newark Municipal Council.

RESOLUTIONS.

7-R-a. (S-2) Resolution authorizing Purchasing Agent to advertise and receive bids for Security Services, Department of General Services, Division of Public Buildings; pursuant to Title 2, Chapter 5, Section 11, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented.
(Copy of resolution and correspondence submitted to each Member of the Council)

Deputy City Clerk Marasco pointed out this resolution excludes security services for City Hall.

Councilman Tucker said that they can basically move affirmatively on this resolution. He does know based on conversation with Administration to have different kinds of services at City Hall, separate and apart from just a regular service. He does believe if they approve this resolution as it stands now, it will give them an opportunity to write the specifications which deal with 1) individuals be armed with 38 and not 45 or 57 and will be wearing uniforms that would be appropriate for City Hall to create a image. He requested that they try to approve this situation which relates to the concerns of all other locations in the City and at their meeting on Tuesday be in a position to approve a more detailed resolution specifying the kinds of services they would like to see in City Hall.

A motion to adopt the resolution and directing the Deputy City Clerk to communicate with Business Administrator Hill, Director of General Services Toma and Purchasing Agent Lucarelli requesting that they meet with the Council at their pre-meeting conference March 20, 1984 and have a resolution ready for Council consideration at its meeting of March 21, 1984, advertising for bids for City Hall security was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Business Administrator Hill, Assistant Corporation Counsel Grant, Newark Housing Authority Executive Director Buck met with the Council March 13, 1984)

A motion to defer action on the ordinance was made by Councilman Payne, seconded by Councilman Tucker.

Councilman Payne indicated there was a call from a South Ward resident interested in 157-159 Chadwick Avenue which appears to be a structurally sound apartment building which could possibly be rehabilitated. At a meeting with the Housing Authority he had requested if it was their opinion that this building could be renovated. He noted that the possibility of this building being demolished by the Housing Authority which would create a vacant lot on that corner is something that would not compliment the new scattered site housing. He said he would like to have some explanation on what they plan for that building.

Councilman Carrino stated that perhaps they were jumping the gun in getting rid of City-owned properties in deference to waiting to find out what the plans are for modular housing. The more we give away the less opportunity they will have to put this type of housing up in different parts of the City.

Councilman Tucker stated that they are selling land to the Housing Authority for \$1.00 and the going rate to sell a lot to any particular citizen to develop anything is \$750. He noted the Housing Authority pays no taxes at all. He said he supports the issue for the development of housing but finds it difficult for them to consistently turn land over to the Housing Authority for \$1.00 and development is limited if not to a great degree stopped.

The motion to defer action on the ordinance awaiting information was made by Councilman Payne, seconded by Councilman Tucker and declared adopted by President Grant by the followign votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

MR. FRANK HURTZ, 402 MOUNT PROSPECT AVENUE, NEWARK addressed the Municipal Council with respect to a job description of this title.

Councilman Payne stated this was the only individual qualified and certified by the State to do environmental evaluations. He noted with the problems they are experiencing in this area he opined that it is incumbent, essential and urgent to have a person who is qualified and certified to check on environmental problems.

Councilman Martinez said this man is the only specialist in the City of Newark and he is considered one of the experts in the State of New Jersey dealing with air, noise and other pollution problems. He noted he is the only individual who makes contact with the State of New Jersey and the only individual currently monitoring air quality and noise pollution in the City. He advised this person was laid off in December and is now being picked up with a new title. He said it is essential and urgent that this work be continued to improve the quality of life in this City.

Councilman Rice indicated during these particular times this position is very much necessary.

Mr. Hurtz said he was expressing his concern that this one person would be able to service the entire City.

Councilman Carrino stated that this was a concern of this Council because the Air Pollution Inspectors had been laid off and were not included in the 1984 budget. He said during the course of deliberation on the final budget they would try to make arrangements to get some of the people back.

March 21, 1984

MS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK addressed the Municipal Council with respect to this man being the only man in the City that does this kind of work. She said he was overworked and underpaid. She queried if this particular person checked on wood-burning chimneys.

Councilman Martinez said that if the air was being polluted then he would check on it but if there is an endangerment then the Fire Director should be called. He stated this person is not working and that is the reason for this ordinance. As of this moment there is no one in the City doing this job.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by President Grant, seconded by Councilman Martinez and declared adopted by President Grant by the following votes:

Councilman Payne stated for the record that Ordinances 6-Ph, S & F-f, 6-Ph, S & F-g, 6-Ph, S & F-h and 6-Ph, S & F-i do not increase the number of positions. These ordinances are only title changes with no increase in salaries.

Ordinance to establish a Historical-Heritage Commission of the City of Newark and providing for the appointment of its members; and outlining the powers and duties of said Commission.

(Copy of ordinance and correspondence submitted to each Member of the Council)

(Ordinance tabled December 7, 1983)

(Ordinance removed from the table January 18, 1984)

(Public Hearing Closed)

A motion to adopt the ordinance on first reading was made by President Grant, seconded by Councilman Martinez and failed of adoption by the following votes:

Yes: Councilmen Branch, Martinez, President Grant.

No: Councilman Carrino, James, Payne, Rice, Tucker, Villani.

A motion directing the City Clerk to return this ordinance to Administration was made by Councilman Martinez, seconded by Councilman Rice.

Councilman James stated heretofore they had a Landmark Commission of volunteer citizens who performed similar duties outlined by the Historical Commission being proposed. He noted that it was unfortunate that at no time has Administration attempted to work with and combine these people into one group. He recalled that Mr. D. J. Henderson had indicated to him the number of hours and energies he had given to the City for the same efforts that this Commission is being proposed, yet at no time has the City reached out to assist this group in their work. He opined it was an insult to these volunteers who have labored for this City and he hoped Administration would read the response of this Council and consider working with these volunteers who have given many years of time and effort.

The motion directing the City Clerk to return this ordinance to Administration was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani.

Not Voting: President Grant.

HEARINGS OF CITIZENS.

6-HC-a.

MR. GREGORY DELLI SANTI, 164 UNIVERSITY AVENUE, NEWARK, NEW JERSEY addressed the Municipal Council with respect to property 154 through 162 University Avenue. He said the property was conditionally sold to Treat Caterers, Inc. on August 30, 1982. The condition was they were to make a capital investment of \$250,000. to commence within six months and the project to be completed within eleven. He noted none of the terms and conditions have been complied with. He requested the Council to consider this sale null and void so that it can go back up for public auction. He noted he would like to be an active bidder.

Councilman Martinez queried if this was the property that was also bid with Orgo?

Mr. Delli Santi responded in the negative.

Councilman Carrino requested that a report be requested from the Office of Real Property on the conditions of this sale.

President Grant directed the City Clerk to request a written report from the Office of Real Property.

Councilman James stated that in the whole program of the Office of Real Property, many individuals who purchase property do not adhere to the contractual obligations. He opined the Council should investigate all of the properties which have been sold by the Office of Real Property and make a report on all of them, then whoever is in violation, the City should take action. He noted it would be wrong to base it individually or on individuals who have vested interests in various pieces of property or who might live in the property themselves. He said it is a broad problem and they must look at the total problem confronting the City of Newark.

Councilman Tucker stated this matter should be discussed at a pre-meeting conference. He noted Mr. Delli Santi had raised an issue that the successful bidder had not lived up to the obligations. He assumed it was a developmental auction and there were bidding conditions. He stated they should forward a communication to the Director of Real Property with the allegation that Mr. Delli Santi is raising and have Mr. Lembo report back to Council with a representative from the Law Department to find out whether or not Mr. Delli Santi's allegation is substantiated.

March 21, 1984

He noted if Mr. Delli Santi's allegations were substantiated the Council should move expeditiously to resolve it but it could not be settled at this meeting.

6-HC-b. MR. FRANK DELLI SANTI, 602 PARKER STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to vandalism occurring at his apartment house located on Grafton Avenue and requested help from the Council in trying to abate this problem.

President Grant stated the appropriate person to deal with security problems was the Police Director and that perhaps at a future special conference this matter could be addressed.

Councilman Carrino requested Mr. Delli Santi to call his office and they will try to set up an appointment with the Police Director.

A motion to permit Ms. Arlene Henry to be heard under Hearings of Citizens was made by Councilman Payne, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

6-HC-c. MS. ARLENE HENRY, 603 ELIZABETH AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to an apartment building at 614 Hunterdon Street. She noted the landlord has walked away from the building and the tenants are in serious condition. There is no heat, hot water or electricity.

Councilman Payne stated he appreciated Ms. Henry bringing this to their attention and he would have someone from his staff visit this apartment to see what could be done.

A motion to permit Mr. Richard Cammarieri to be heard under Hearings of Citizens was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

6-HC-d. MR. RICHARD CAMMARIERI, 85 FOREST HILL PARKWAY, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to continuing the budget meetings at night. He urged the Council to strongly consider this as he felt it would take at least a year for the public to become acclimated to the night budget hearings. He said the Council should be pursuing every avenue possible to make sure Administration and Directors are accountable as they should be to you as representatives of the Community.

Councilman Rice stated he discussed the determination of this Council to go back to day meetings with the citizens of the West Ward and it was their consensus that these meetings should be continued at night. He noted these night meetings were unsuccessful because no directors have been present to answer questions. He said it left the interest of the people and became a matter of issue. He noted in the event the Council voted to resume day meetings for budget hearings he would continue to be available in the evening to answer questions.

Councilman James elaborated on the newspaper article which advised the public that a vote had been taken to discontinue the night budget meetings at a budget meeting held the previous evening. He said if this resolution was to be rescinded it had to be done at a regular meeting not at a budget meeting. He noted that the newspaper article is incorrect and that the resolution to change the budget hearings back to day meetings will be presented to the Council for their consideration this evening. He said they are caught up in a charades situation that is basically due to a lack of communication between the Council and Administration. He said they should have the courage and insight to see if night meetings can work. He said they should not vote tonight to end the evening hearings and that all of them should work together to see if it can work then if it didn't work they could make recommendations.

Councilman Branch stated that it is each Councilman's prerogative in making his decision on a night or day meeting. He noted that at the previous budget meetings there was a very small attendance of the public. He said he would like to see people participation but if there is no response on the part of the public then he has to deal with that decision and he made his decision in voting to have the meetings changed back to day meetings.

March 21, 1984

Councilman Carrino stated he voted for the night meeting and has been present at all of the budget hearings but that it is a fact that Administration does not intend to attend these meetings. He said in his mind, except for the principle of it, they have accomplished absolutely nothing. The fact remains that the only way they can cut multi-million dollars is a direct confrontation with those Directors. He does not think they should put the principle before the reality of going over a \$300,000,000. budget and that is one of the reasons he changed his vote and his priority to go to day meetings because until they meet with Administration they are not going to be able to respond responsibly to a \$300,000,000. budget.

Councilman Payne stated that Administration should have directed the Directors to attend the evening budget hearings and that Administration was wrong in restricting them from attending. When the matter of the Council having the right to bring Directors to budget hearings, day or night, is brought in to Court he is positive the Council will win the case. He said he would hope they would vote to continue the night budget meetings.

Councilman Rice stated for the record that until they start dealing with principles this City is not going to go forward. They have allowed traditions and their inability or lack of ability or desire to deal with principles to hold them back. He said they have to deal with principles and he is tired of Council as a whole yielding themselves to a whim of Administration that everytime it feels they can arbitrarily or capriciously tell them what they can or cannot do and they bow to that. He is asking that they start to work together as a Council and they have to work with Administration in order to move the City and Administration has to work with them. He noted it was time to settle these things.

Councilwoman Villani noted this was an experiment they tried that did not work. She opined they should return to day budget meetings, work with the Directors and get down to the task of reducing the budget.

Councilman Tucker stated that the night budget meetings has increased Council participation if it has not been successful in increasing public participation. He noted there has not been a decrease in public participation because the same amount of people have attended both the day and night meetings. He stated that an experiment in the City of Newark that lasts approximately 30 days is not a real evaluation. He noted they are involved in a major discussion dealing with a resolution to eliminate two budget hearings that have been scheduled and he wonders if the motivation has anything to do with the legal case they are currently in the process of filing in the Courts. He said when you attempt to modify your basic principles then you have to consistently reevaluate where you are. To abrogate their responsibilities and bend their principles is to say their principles were never important to begin with. He opined the Mayor and Council should work together for the benefit of all citizens of Newark.

Councilman Branch said he is too big a man to bend to anyone. He said he has always stressed that Administration and Council should be working together to resolve issues and problems. He said his loyalty is to the people in the Central Ward and when he has to make a decision he makes it.

A motion to consider Resolution 7-R-cf at this time was made by Councilman James, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

7-R-cf.

Resolution by the Newark Municipal Council setting forth a revised format of Municipal Council Budget Hearings, to provide that all further hearings be held in the daytime after March 21, 1984.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Carrino, seconded by Councilman Branch.

March 21, 1984

Councilman James stated there were three reasons given by Administration why they did not want to take part in an evening budget meeting - 1) Administration did not want to participate because it would be on television and Cable television did not do justice to the Newark Municipal Council; 2) Administration said the Public would be allowed to speak at these hearings and they did not want their Administrators to be subject to cross examination by the public; 3) Administration said the evening budget meetings would be a circus and they did not wish to participate in a circus.

He stated for the record that Administration had been proven wrong as there was no television; the public was not permitted to speak and to the best of his knowledge the evening meetings were not a circus. He said the real challenge of Administration and Council is to work together in the best interest of the citizens of Newark and not continue to fight, divide and make power plays. He noted that there had been in the past no more participation at the day meetings than at the night meetings.

Councilman Carrino stated that citizen participation is not the issue as there has been no citizen participation at the day or evening budget meetings. He noted the real issue is the responsibility of the Mayor and the Council. He said the Council has to take the responsibility now to assess a \$300 million budget. He said the real issue of a budget hearing is to communicate directly with the people responsible in submitting the \$300 million budget. He stated in deference to a \$14. tax rate the Council has to take on the responsibility of assessing the budget and start cutting it down. His feelings as an individual is that we have to collectively address the budget in a responsible manner and talking individually to these people to find out where we can cut it down.

Councilman Tucker stated that based on the fact that they are statutory individuals they are charged with the responsibility of doing their job. They can reach out to the Mayor and Department Heads and say it is a joint responsibility but the net result is the Municipal Council must make a decision and that decision is whether or not the tax rate is going to be \$13. or \$14. He said if the tax rate is going to be \$14. he will not vote for it. If it is \$13.64 that was recommended by the Mayor he will not vote for it. If they are talking about cutting it is incomprehensible to believe that a Department Head is going to tell you how to cut a budget that he developed. He said the Council must stand up and make a decision. People elected us to say the tax rate will be what we decide and that is the power and authority this Council has in its hand. He is going to stand up and say if the tax rate is too high he will vote to cut it and if it is too low then he intends to raise it. Whatever the decision is he will live up to the responsibility as an elected official and vote the conscience that he believes is right.

Councilman Payne stated he felt night budget meetings were the best and felt they should continue with the two remaining ones. He noted there is dialogue needed but could not see how that was going to happen with just two more meetings. He noted the Council depends on their staff and auditors and themselves to present ideas and then based on the facts they make a decision.

Councilman Rice said this Council has the authority and obligation to deal with the budget with or without input from the Administration. He said they have experienced auditors to advise them. He said he was calling upon his colleagues to vote to continue the night meetings and then discuss the pros and cons of what they have experienced during these budgetary sessions.

(6-S & F-f, April 6, 1983)

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martienz, Payne, Rice, Tucker, Villani, President Grant.

City Clerk D'Ascensio stated a substitute resolution had been submitted by the Law Department and if this is to be considered you must withdraw the adoption of the original motion.

A motion to withdraw Resolution 7-R-bx was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

A motion to consider "Resolution by the Newark Municipal Council authorizing the Corporation Counsel to employ on behalf of the Mayor, Special Counsel to represent the Mayor if litigation occurs between the Mayor and the Municipal Council regarding the attendance of Department Heads at a meeting and/or hearing of the Municipal Council and the holdover status of certain municipal appointees as outlined in Resolution 7-R-bm, adopted by the Municipal Council on March 7, 1984; said authorization provided for by R.O. 2:14-26. (6-S & F-f, April 6, 1983)" was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker asked what the amendment was in this resolution.

Assistant Corporation Counsel Schwartz stated the primary difference is the particular ordinance which it is preceded under. The original ordinance was 2:6-9 and the substitute ordinance is 2:14-26. He said a covering memo signed by Corporation Counsel Teare indicated that he was unable to approve original resolution because he did not believe it was applicable to the situation. He noted 2:6-9 puts a limit on legal amount of money to be expended by the Mayor on his behalf and under 2:14-26 no such limit is imposed.

Councilman Tucker stated if this amended resolution is approved the Mayor can hire any Counsel at any cost. He said the essence of this is the Mayor does not want to have a limit of \$100. per hour out of Court and \$150. in Court. He further stated since he initiated this resolution it is not his intent to have it amended.

City Clerk D'Ascensio stated if it is the intent of Council not to consider this substitute resolution they should reconsider their withdrawal of Resolution 7-R-bx. He stated by this action the original Resolution 7-R-bx would be considered adopted.

A motion to reconsider withdrawal of Resolution 7-R-bx was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Councilman Rice queried for the record that this Council has the authority to set legal fees for City Civil Servants and of the Government and not for anyone beyond that?

Assistant Corporation Counsel Schwartz stated that your authority is prescribed by the separate ordinances. He said there are different classes of elected officials, there are different classes of employees. Those two criteria or two groups are covered under separate ordinances and dependent upon the individual that is affected and the circumstances surrounding that, there are different standards. He noted for the record they only interpret the ordinances as they appear on the books of the City of Newark.

City Clerk D'Ascensio stated that since they adopted the reconsideration of the withdrawal of Resolution 7-R-bx, then the original adoption of Resolution 7-R-bx remains.

Resolution by the Newark Municipal Council supporting the provisions of Bill ACR-72 in the New Jersey State Legislature which would provide for a certain percentage of New Jersey Lottery monies to be rebated directly to municipalities throughout the State.

A motion to adopt the resolution was made by Councilman Branch, seconded by President Grant.

Councilman Martinez stated this bill should be called the "George Branch Bill" so that everybody in the State knows it came from Councilman Branch.

A motion to amend the resolution by calling it the "Branch Bill" was made by President Grant, seconded by Councilman Rice.

Councilman Payne stated he was not sure this Council has the authorization to change the name of State Legislation.

Councilman James questioned how this money was going to be returned.

March 21, 1984

Councilman Payne advised that the legislation introduced indicates that you get back a percentage of what you put in.

Councilman Martinez suggested that prior to Councilman Branch testifying there should be a formula of what Newark does submit and how much they feel the State should rebate.

Councilman Payne said when this was initially brought up housing was one of the considerations. He said he hoped this would be kept in mind that some dedication should be made.

Councilman Branch thanked his colleagues for their support. He said there are many aspects to this bill. He noted when the lottery was established in 1974, there were three institutions the money was allotted for, but since that time it has exceeded what they anticipated. He said nobody amended the legislation and it was never challenged. He expressed his appreciation to those who extended their help.

March 21, 1984

A motion to adopt the resolution was made by Councilman Martinez, seconded by Councilman Carrino.

Councilman Martinez said that 23 recruits were taken out of the academy and 13 police officers were taken from the emergency bureau. He noted the police academy was closed and the emergency bureau was not functioning. He said fiscally he feels they have a problem. He opined that this Council wants to see policemen on the street not guarding City-owned buildings. He said there is a court date of April 19th and it is his understanding that if the Security Agency wins, the City will have to pay for every day the Police Department was in this building and if the City should win the case then the contract would be revoked and they could go to the next bidder. He asked that the Members of the Council vote their conscience.

Councilman Rice stated for the record that this occurred once before since he was elected and it was always a power play to have the public come at the Council. He said he would like to support this because of the economic reasons but he is not ready to vote on a contract that doesn't set right in his mind. He posed a question to the Law Department asking if Administration could take recruits out of the Police Academy and place them on duty without benefit of training, particularly when those police officers are funded by Federal or State and if in fact they can who bears the rise of any liabilities that may arise from their lack of training?

Assistant Corporation Counsel William Schwartz stated he was not able to answer that question without benefit of doing some legal research.

Councilman Carrino stated it would be prudent for them to bend for three weeks in order to have this matter justified in Court. He pointed out they were spending a lot of money and taking policemen off the street. He noted there is a need to get the policemen back on the street. He pointed out that 6 or 7 years ago the Council ordained that all public buildings had to be covered by security. He commented that they must act responsibly until the court hearing.

Councilman Tucker requested that a letter sent to the Law Department under date of March 21, 1984 be read into the record.

The City Clerk read the following letter:

CITY OF  NEWARK, N. J.

FRANK D'ASCENSIO
CITY CLERK

March 21, 1984

Hon. John J. Teare
Corporation Counsel
316 City Hall
Newark, NJ 07102

Dear Judge Teare

At its pre-meeting conference of March 20, 1984, the Municipal Council directed me to obtain from you a legal opinion on whether a conviction for fraud in the performance of a municipal contract could or should disqualify a contractor from bidding on other municipal contracts.

The Council wants to know whether a bidder who has been previously convicted in a court of law of defrauding the city on a contract can be denied any further business with the city on the grounds that he or she is not a "responsible bidder". The Council also wants to know whether a fraud conviction would have an effect on bidding for any goods or services, or only on the type of goods or services involved in the fraud. Finally, the Council would like to know whether disciplinary action against a contractor by any governmental agency regulating his or her profession can be taken into account in determining the responsibility of a bidder.

March 21, 1984

The Council will appreciate your early response to this inquiry.

Very truly yours

Frank D'Acunzio

City Clerk

DEW

cc: The Members of the Newark Municipal Council
Mr. Elton E. Hill, Business Administrator
Mr. Louis Lucarelli, Purchasing Agent

Councilman Tucker requested that the Assistant Corporation Counsel respond verbally to this letter.

Assistant Corporation Counsel Schwartz stated he was not prepared at this time to respond since he had only seen it a short time ago and did not have time to research the matter.

Councilman Rice questioned if in fact the Council votes for the amendment can they be held liable in any way?

Assistant Corporation Counsel Schwartz responded that submitted with the bid package was a license issued to Masters Investigative Agency directly from the Department of Law and Public Safety Division of the State Police. It was based upon that submission that the Purchasing Agent made the recommendation to this Council that the contract be awarded. He opined that any action taken by the Council in reliance on that would hold this Council in good stead.

Councilman Rice stated he had raised some questions to the State via telephone and the State indicated they could not give him any substantial information. He noted that some of the participants of that particular agency were under investigation. He questioned that regardless of these facts as long as that license is there, even if the license was issued erroneously by the State, they can rely on that license.

Assistant Corporation Counsel Schwartz stated the Council has the right to rely on the license issued by the State.

Councilman Carrino stated that since this man has a legitimate license that the letter read by the City Clerk has slanderous and libelous content. He said he was not polled as an individual Member of the Council to submit that letter to the Law Department. He stated for the record that he knew nothing about the letter, that he had no participation in that letter and the concept of the letter had nothing to do with him.

Councilman James questioned if Administration has the prerogative to go out during this dispute and hire whatever personnel they deem necessary in order to provide security to City Hall other than Newark's finest.

Assistant Corporation Counsel Schwartz stated the answer is "no" based upon the emergency provision of the Local Public Contracts Law which states that in order for there to be a bonafide emergency, the situation must be one that was completely unforeseeable and completely outside of the purview of the municipality to plan for. Based upon that technical definition of what constitutes an emergency the Administration could not do that.

Councilman Payne noted that they have voted on other contracts and he questioned how in one instance it is so precise and in other instances very loose.

Assistant Corporation Counsel replied there are several exceptions under the law and one is the hiring of professional services.

Councilman Rice questioned for the record if the Law Department drafts the contract and if it was the position of the Law Department to review the contract and do what is in the best interest of the City of Newark and the taxpayers.

March 21, 1984

Assistant Corporation Counsel Schwartz stated the documents are prepared in the Department of Purchasing and the contracts and specifications are reviewed by the Law Department. He noted that in terms of expediency the extent of tying up one commonality or contractual theme to one contract seems to be the simplest way to do it. It had been done in the past with no problems.

Councilman Rice stated that it may appear to be the simplest way but it is not the best. He suggested that anything that comes before Council while he is sitting on it should be severed so that in the future they do not have these problems.

Assistant Corporation Counsel Schwartz stated it was not a decision that was made in an unconscious or capricious manner. It was a decision that was made with an eye towards saving the citizens some money. He noted if Council was saying to him that they do not want contracts bid like that in the future then they will look at what they can do to accommodate the Council in that matter, but he wanted to indicate that this will incur extra costs. He repeated this was the first time they had run into this kind of a situation. They had a track record of putting out these contracts on this basis and based on this given track record, the decision that was made was a prudent decision.

Councilman Martinez stated the contractor had gone to Court and the Judge has rendered a decision that no one can have the contract until April 19th when a decision will be made.

A motion to adopt the resolution was made by Councilman Martinez, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:
 Yes: Councilmen Branch, Carrino, Martinez, Villani, President Grant.
 No: Councilman Rice.
 Not Voting: Councilmen James, Payne, Tucker.

City Clerk D'Ascensio stated that the hearing on the budget and tax resolution would be held in the Council Chamber on April 24, 1984, at 11:00 A.M. and 6:00 P.M. He read the following:

Councilman Rice wanted to know if there was a need to vote on this resolution at this time, or if there was a specific deadline.

City Clerk D'Ascensio replied that April 24 was the date for final adoption of the budget. This was just for the introduction of the budget which Mayor Gibson had submitted.

Chief Accountant George Fitzsimons explained that the final date was set by Trenton and it was set for April 24, 1984. He said the introduction of the budget had to be voted on at this time.

Councilman Carrino questioned the External Auditors on what the correct tax rate was.

Mr. Joseph Faccone, representing Samuel Klein and Company, External Auditors explained the projected tax rate was 13.17 as opposed to 12.94. He stated the Administration was using collections for 84% of the rate. He informed the Council that the rate could possibly be set at a lower rate after amendments were made.

Councilman Carrino wanted it stipulated in the record that the tax rate was 13.17 rather than 12.94.

Councilman Tucker noted that also incorporated in the Local Budget was the time to be held for public hearings for the budget. He mentioned that hearings were held in the afternoon of this day and no one from the public was in attendance, due to the fact they were probably working.

Councilman Payne stated he was in favor of the nighttime budget hearings. He felt it was beneficial for the citizens.

Councilwoman Villani felt that more was accomplished in the afternoon than at any other time. She said that meeting with Directors of various Departments and Divisions one on one was self satisfying. She felt this could not have taken place if the hearings were held at night.

(Councilman James arrived at 4:35 P.M.)

A motion to amend the resolution by adding the time of 6:00 P.M. to hear the public was made by Councilman Carrino, seconded by Councilman Branch and declared adopted by President Grant by the following votes:

Councilman James mentioned to Mr. Zinnerford Smith, Mayor's Office Chief of Staff that the Ironbound School was an excellent program. He asked Mr. Smith if he was aware of the amount funded for the school for the previous year?

Mr. Smith replied he believed it was either \$15,000. or \$20,000.

Councilman James asked Mr. Smith if he had any objection to amending the application to include funding for the school.

Mr. Smith indicated if the other grants were reduced by \$20,000. this would be a strong concern.

Councilman James said the accruals were never really spent in the H.C.D.A. accounts. He asked if \$20,000. could be moved from contracts and inserted into the school.

Mr. Smith noted this kind of a transfer could pose problems.

Councilman James asked if there were any plans in the future to include such a project in the application.

Mr. Smith stated the budget that was in the Public Service category were monies that were available. He said the money is allocated on a claim schedule and if it is not spent, it could be reclaimed at the end of the year.

Councilman Payne mentioned the concert series held at the Sacred Heart Cathedral. He felt there was a need for additional police at such events.

Mr. Smith said that such programs were only started out as demonstration programs. He said the Board of Education should attempt to provide series such as those for the City of Newark. He informed Council Members there was no money appropriated for concerts such as the one mentioned.

7-R-bc. Resolution recognizing and commending Alfred Faiella, Secretary and Executive Director, Newark Economic Development Corporation, for numerous accomplishments on behalf of the citizens and government of Newark. (GB)

A motion to adopt the resolution was made by Councilman Branch, seconded by Councilwoman Villani.

Councilmen Tucker requested that Councilman Branch defer this resolution so that further discussion could be held. He stated that the Newark Economic Development Corporation is funded in part by the City of Newark and in part by the representation of the Chamber of Commerce. He noted individuals who work for N.E.D.C. have a dual responsibility that of representing and being an advocate for the downtown business community and also being an advocate of the residents of Newark. He questioned in what way has there been a positive impact on minority economic development within the City of Newark based on Mr. Faiella's efforts and in what way has there been a prime economic development effort specifically sponsored by N.E.D.C. in cooperation with a major minority economic development vendor and in what way has there been increased employment for minorities within the City of Newark. He said Mr. Faiella has clearly represented the perspective of the downtown business community but as an elected official he is concerned about the employment of Newark residents and minority economic development and about continuing development and having a long term impact on the City of Newark.

Councilman Branch stated that he has already invited Mr. Faiella to be in attendance today to receive this resolution. He said he has observed the overall function of Mr. Faiella in terms of amount of dollars that have come into the City through his efforts. He noted they may have to look at whether or not Mr. Faiella has been involved with the minority issue. He raised the question as to what the Affirmative Action program has done to assure that Mr. Faiella be involved with reference to minority contractors. He said it is the responsibility of this Council to make sure minority contractors get a piece of the action.

Councilman James stated that this type of resolution should first be discussed in depth at the pre-meeting conference. He also requested this resolution be deferred since some of the Council Members have raised questions.

(Councilman Payne arrived at 1:30 P.M.)

(Contract awarded without competitive bidding pursuant to Local Public Contracts Law N.J.S.A. 40A:11-5 (M))
(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to defer action on this resolution was made by Councilwoman Villani, seconded by President Grant.

Councilman Tucker stated he had raised concerns about this resolution at the pre-meeting conference whether or not this contract was biddable. He stated he had received notification that it does not have to be bid and if they choose another vendor it may interrupt services currently being provided which would automatically mean an increased cost to the employees of the City.

Councilman Payne said in his opinion to interrupt services would not be in the best interest of the employees.

Councilwoman Villani said there are new programs they have not looked at and she opined that it has been a common courtesy of this Council that when a colleague asks for a deferment it is given to him.

Councilman Martinez stated this particular agent is reputable and has given quality service to the employees. He noted they are in line for new benefits in June and it would not be beneficial to the employees to interrupt the service at this time.

(Business Administrator Elton Hill, Assistant Corporation Counsel Glenn Grant, Newark Housing Authority Executive Director Milton Buck and Newark Housing Authority Chief of Housing Production Reid met with Council March 13, 1984)

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

Section 1. That the premises known as Block 309, Lot 9, commonly known as 546-548 So. 12th Street, on the Official Tax Maps and Tax Duplicate (year 1984), are not needed for public purposes by the City of Newark.

Section 2. That the abovementioned premises be sold to the Housing Authority of the City of Newark, a body corporate and politic, for construction of family public housing ~~by private sale for the amount of one dollar (\$1.00)~~ pursuant to the provisions of N.J.S.A. 40A:12-13 (b) (1).

Section 3. That the Director of Finance be authorized to execute a Bargain and Sale Deed for the above described premises, same to be approved by the Corporation Counsel and attested and acknowledged by the City Clerk.

Section 4. Section 5. That copies of the executed deed shall be placed on file in the Office of the City Clerk and in the Law Department.

Section 6. This ordinance shall take effect upon publication and passage according to law.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

MR. D.J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY, addressed the Council with respect to valuable land. He stated the City of Newark did not have a great deal of valuable land. Whatever land the City had could be put to improper and perhaps damaging use by greedy or short-sighted persons or organizations. He stated the ordinance proposes to give land belonging to the City to an organization which has failed to use and administer effectively the properties it already owns by virtue of gift from the City. He reminded the Council that they have expressed repeatedly their lack of confidence in the Housing Authority. He indicated the Housing Authority is presently being investigated by the United States Department of Housing and Urban Development. He noted the Housing Authority expects an unfavorable report since they plan to hire Council to present their side of the matter. He asked Council if they knew how many apartments were vacant in the Housing's project, how many apartments that were under repair for availability of occupancy, how many abandoned units that were uninhabitable. He felt the Council should have had this kind of information before them before making any decision to give the Housing Authority any more land. He also felt the reasons for failure were lack of concern in Members of the Authority, indifferent and/or incompetent management, lack of knowledgeable or non-existent supervision of the work force and a lack of understanding of elements of routine, meticulous maintenance demanded by these projects. He expressed the land should be kept until a real use is found for the revival and future of Newark.

April 4, 1984

Councilman Payne said Mr. Henderson's points will be well taken and he appreciated all the remarks that he made. He agreed that the history of the Housing Authority was something that was less than desirable. He admitted the management of their properties were not sufficient. Until a better way comes along, the City needs affordable, decent housing in the City.

Councilman James assured Mr. Henderson that his words were of wisdom. He said all Mr. Henderson was saying was how does this branch of legislative government continue to fund the Housing Authority by way of H.C.D.A., how does the Council continue to give them land, land which has not been fully developed. He hoped that based on the Federal audit that the Council tables any relationship and any project dealing with the Housing Authority, unless the Council knows prior to the present, that there was a specific project that would benefit from the conveyance of land.

Councilman Tucker explained this ordinance was specifically for the development of housing. He stated there was a reverter clause in the ordinance which meant that if the Housing Authority did not develop land, he thought within a year or less, the land would be reverted back to the City. He felt the issue the Council had to look at was the HUD evaluation, which is not a good evaluation. The HUD audit substantiates what the Council knew was previously taking place. He believed this was the last piece of housing which was going to be provided by HUD. If this housing was held up, it may be lost.

President Grant said this particular piece of land is on South 12th Street, between 16th and 18th Avenues, adjacent to a large church. He noted this was a block where houses have been torn down and plenty of dumping going on. He felt this project could add to the aesthetics in the area, remove the blight and more importantly, the ordinance has the reverter clause mentioned by Councilman Tucker.

No one else appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilwoman Villani, seconded by Councilman Payne and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

No: Councilman Carrino.

President Grant: The yeses are eight and the noes are one. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

Councilman Carrino stated that once the units were developed and put into place, that would mean it would be tax exempt land. He wondered what was going to be accomplished by filling up all of the empty lots with buildings that would not produce taxes. They would certainly not help the City's financial situation. He felt the timetable should be pushed up on modular housing to find out if or if not it was going to become a fact of life. If it was, then the Council should stop giving away land until the Council finds out if housing could be placed on those pieces of property.

Councilman Branch said there was more vacant land in his ward than in any other ward. To him, it was a plus for any ward when new development goes up. He felt the Council should look at ways to have the Federal Government give the City more dollars.

Councilman Tucker felt that as a Council, they have accepted in the past, the process of public housing not paying any taxes. He said he was hopeful that the Tax Abatement Committee would come up with a recommendation or formula for these new units to pay taxes. He said he did not accept the fact or the process of public housing not paying any taxes at all. He said public housing had the same ability as other units which were developed by Section 8 or 236.

MR. D.J. HENDERSON, 29 OLD ROAD TO BLOOMFIELD, NEWARK, NEW JERSEY, stated he wanted the record to show that his concerns on this ordinance were the same as he previously stated for Ordinance 6-Ph, S & F-d.

April 4, 1984

Councilman Rice mentioned in urban cities like Newark there is always going to be a need for public housing. The question was whether to build middle income housing or start to destroy high rises, which cause detriments to this City. He stated he would vote for housing but there would be a time where he would recognize limits where ratables would have to be paid to the City.

Councilman Tucker requested that Engineering Director Zach explain how this money was being moved around.

Director Zach stated it was not a question of moving the money around. He said they have a million dollar State DOT Grant for this project. They were also able to secure funding for the engineering services through Prudential in the amount of \$112,000. toward this project. They are trying to stay within the million dollar allocation. He said they have bid this project so they would have add and deduct items. What they are doing is taking some deduct items out and making other modifications to the bid process or the contract process that will then afford them the opportunity to complete the remainder of the installation which is for the traffic signals at Raymond Plaza West and Market Street and Raymond Plaza West and Raymond Boulevard which is about \$70,000. The \$913,000. which they are recommending a contract for plus the \$70,000. will bring them up to the million dollars so they won't have to use City cash for this project.

BOARD OF ADJUSTMENT - APPEAL.

- 4-A-1. The City Clerk read In the Matter of Application of Andre Birotte, Applicant (Agape Realty, Owner), to permit in a 3rd Residence District establishment of 4 dwelling units in building located on two lots and with no rear yard, insufficient side yard and no on-site parking on premises 361 Lafayette Street; and parking of tenants' cars on premises 83 Merchant Street.
(Mr. Patrick Catena, Appellant)

The Board of Adjustment at its regular meeting held February 14, 1984, approved the application by a vote of 5 Ayes, 2 Nays and 2 Not Voting.

An appeal in this matter was filed in the Office of the City Clerk on February 16, 1984, by Mr. Patrick Catena.

The transcript in connection with this matter was received March 27, 1984 and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On March 29, 1984, the City Clerk notified the applicant, the applicant's attorney, the appellants and objectors that an appeal in this matter would be heard by the Municipal Council at their regular meeting April 18, 1984, at 8:00 P.M., in the Council Chamber, second floor, City Hall, Newark.

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the matter of Application of Andre Birotte, Applicant (Agape Realty, Owner), to permit in a 3rd Residence District establishment of 4 dwelling units in building located on two lots and with no rear yard, insufficient side yard and no on-site parking on premises 361 Lafayette Street; and parking of tenants' cars on premises 83 Merchant Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and the place for the appeal to commence.

April 18, 1984

MR. PATRICK CATENA, 77 MERCHANT STREET, NEWARK, NEW JERSEY, read the following statement into the record, the same statement he presented at the Board of Adjustment hearing held February 14, 1984:

I would like to object to the granting of the variance of the existing zoning ordinance pertaining to the property listed as 361 Lafayette Street and 83 Merchant Street.

The existing ordinance was passed by the governing body so that an area does not become over-crowded. I don't think we should defeat that purpose.

At the present time, the basement and first floor of this building is being utilized as doctors' offices -- as doctors' offices. I'm a little nervous. This has generated much traffic and is a very busy corner.

Now, the very small lot on Merchant Street that is designated on the plan submitted to the Board of Adjustment is now being utilized by the doctors, patients and workers. Therefore, there will be no room for tenants parking. This lot, at the most, can only accommodate two or three cars of unrestricted parking. Our street now has an abundance of double parking because of businesses located here; namely, the doctors' offices, a credit union and an appliance store and a flower shop. Plus, on our street, we have building lots that are 50 by 100, holding three houses on one lot.

So, we have four of these. You can picture these small houses with no parking. Parking gets so tight because people come in at

April 18, 1984

1054

night and double park overnight.

Our area is over populated with people and cars; and I guess, if anyone is living down in the East Ward, they know that it's an area that progressive people live there and they sort of utilize every space that's in the house, cellar and attic. We all know it's illegal but they do it because they have relatives that they feel needs a place to live.

We feel that this variance, if granted, it's unsafe and an unsanitary condition will be created.

As stated previously, Lafayette and Merchant Street is a very busy corner, which there is a very strong probability that there will be children involved. With insufficient side yard and no rear yard, where will children play? On the busy street or busy driveway that the patients use to go in and out of that driveway?

The garbage situation will be uncontrollable. At the present time, these offices are using plastic, which I think is against the law in the city of Newark. They passed a law that we should use solid containers.

We had an incident, when the previous owner of this building allowed the family to live on the third floor, unsupervised. The family had children that were left unattended. For recreation, they would open the windows and throw the garbage and miscellaneous debris on pedestrians and cars. They had no yard to play in. After many complaints, the family was evicted.

April 18, 1984

We had had a problem with the present owner, during the summer of 1982. He also had some people staying on the third floor. One night, they had a party that became very rowdy, with a lot of screaming and cursing, with the participants throwing bottles out of the window.

He added his neighborhood was made up of owner occupied dwellings who take pride in their property. The neighbors did not feel this would enhance their community allowing an absentee landlord to build the units. He stated some of the points which were raised at the Board of Adjustment was that the Board of Adjustment Members should have raised the concerns of the residents living in the area before granting a variance. He indicated the people were not against Mr. Birotte, but were against the granting of the variance because it would add to the congestion and the inconveniences it would cause to the neighborhood.

Mr. Catena informed the Council the hours of Dr. Birotte's office were from 9:00 a.m. to 8:00 or sometimes 9:00 p.m. He said the previous owners, The Cahill Clinic only utilized the first floor of the building, with the hours being from 9:00 a.m. to 4:00 p.m. He stated at present, the doctor's, patients and workers were using the small lot for parking, with was insufficient. This leaves no parking for tenants. He felt by stating at the recent Board of Adjustment meeting that the units were being built for evicted nuns was influential to board members. If the granting of the variance was upheld, it stayed with the life of the building, and the parking and crowded conditions could only worsen.

MRS. IRENE PRIGNANO, 359 LAFAYETTE STREET, NEWARK, NEW JERSEY, stated her only opposition to Dr. Birotte making the building into a four family dwelling was the parking situation. She mentioned her husband did not have a set time in coming home from work, and at times, found it very difficult to get a parking space near their home. The only available parking spaces were four and five blocks away. This was due to the patients and workers working for Dr. Birotte. She also mentioned Dr. Birotte's patients, who sit on her front porch while waiting for the doctor's office to open in the morning. She stated her daughter, who works in New York and arrives home late, cannot find a parking space and has to park four and five blocks away from her home. She said she worries about her daughter getting mugged because she has to walk home a lengthy distance. She felt this was not fair for the residents.

Mrs. Prignano mentioned her life was made miserable due to the fact that previously there was no live-in landlord. The people were eventually evicted, only through complaints from the nearby residents. She said she had nothing against Dr. Birotte personally, but this variance would cause hardships for the people in the area.

MR. JACK WURGAFT, ESQ., 966 SOUTH SPRINGFIELD AVENUE, SPRINGFIELD, NEW JERSEY, stated he represented Dr. Birotte. He felt the Board of Adjustment covered all of the relevant factors to be considered at their hearing. The fact that Dr. Birotte said he intends to rent to the nuns was stated because the nuns were losing their residence. He mentioned at the Board of Adjustment hearing it was stated the people would not park their cars in the street or in the small parking area. He felt the objections were sincere, under the circumstances, and it did not appear that the problems which were anticipated were going to take place. He noted the objections dealt with problems before Dr. Birotte owned the building. It was Mr. Wurgaft's opinion that this would make a nice addition to the neighborhood.

DR. ANDRE BIROTTE, 361 LAFAYETTE STREET, NEWARK, NEW JERSEY, stated the building in question has been empty since 1976. The building used to be an industrial clinic, namely, The Cahill Clinic, where a lot more traffic took place in the area. He couldn't understand why the people were complaining about the parking because that clinic caused patients to take residents parking spaces away. He said a lot of his patients were neighborhood people, who walked to his office. Actually, the doctors who came to his clinic just came for a few hours of the day. He stated he was in the office from the hours of 3:30 p.m. to 6:30 p.m.

He indicated there was an apartment building which housed 7 families, and only had parking for four cars. No one complained about that building. He said no one complains about the 1 family homes which were converted into 3 family dwellings.

Councilman Martinez read the following statement for the record:

This appeal from a decision of the Board of Adjustment on February 14, 1984, involves premises at 361 Lafayette Street and 83 Merchant Street, which are in an area zoned as a Third Residence District. The Lafayette Street lot is approximately 22' x 70' and is located at the northwest corner of Lafayette and Merchant Streets. The adjacent Merchant Street lot is approximately 27' x 56'. A 3-story building on the Lafayette Street lot extends onto a portion of the Merchant Street lot. The area within the 200' radius of the subject premises is composed principally of residential uses.

The first floor of the building is being used for medical offices; the upper two floors are vacant. The applicant has proposed to establish four dwelling units on the upper two floors, which he intends to rent to employees of a nearby hospital. Although the proposed use is permitted in a Third Residence District, a variance is required as there is an insufficient side yard and no on-site parking for tenants. There are some parking spaces on the unimproved portion of the Merchant Street property; however, these spaces are being used for the staff and patients of the medical offices.

On February 14, 1984, the Board of Adjustment determined that the variance can be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the zone plan and the zoning ordinances of the City of Newark for the following reasons:

April 18, 1984

1. The grant of the variance will allow applicant to provide needed housing for City residents.
2. The grant of the variance will allow applicant to make the best use of property.

An appeal was taken to this body which is empowered to hear appeals from variances granted pursuant to N.J.S.A. 40:55D-70(d), known as "d" variances. That section of the Municipal Land Use Law concerns variances granted "in particular cases and for special reasons ... to allow departure from ... (the zoning ordinance) ... including, but not limited to, allowing a structure or use in a district restricted against such structure or use."

The Municipal Land Use Law requires that an applicant for a "d" variance show:

1. That there are special reasons for granting the variance; and
2. That the relief "can be granted without substantial detriment to the public good and will not substantially impair the intent and the purpose of the zone plan and zoning ordinance."

The applicant has neither shown that there are special reasons for granting the variance nor that the variance can be granted without substantial detriment to the public good. Although additional housing is needed in the City, that by itself should not be considered a "special reason", as it would justify the granting of all applications for a variance to permit the establishment of dwelling units. Neither does the Board of Adjustment's finding that the granting of the variance will allow the applicant to make the best use of the property constitute a "special reason". Property owners are not entitled to make the "best use" of their property where such use conflicts with the zoning ordinance.

April 18, 1984

Moreover, the applicant has not shown that a variance for the establishment of 4 dwelling units can be granted without substantial detriment to the public good. Both objectors and commissioners noted that the area is extremely congested and that the lack of parking space is a serious problem. One objector, Mr. Catena, testified that "our street now has an abundance of double parking", that "parking gets so tight because people come in at night and double park overnight", that "our area is overpopulated with people and cars", (pp. 11, 12, Transcript) and that it is difficult for ambulances, firetrucks and the like to get through, (p. 15, Transcript). Another objector, Mary Catena, stated that "the street cannot handle any more cars", (p. 25, Transcript). Commissioner Benitez acknowledged that the "East Ward has the worst parking problem that we have", (p. 32, Transcript).

Apart from the lack of sufficient parking in the area, objectors noted other problems which may result from the insufficient side yard area. Mr. Catena referred to the busy corner at Lafayette and Merchant Streets and wondered where children of the tenants would play. Ms. Prigano, another objector, told the Board of the problems she had with garbage in her alleyway some years ago when tenants lived in the building, because her home was only 3 feet from the subject premises, (p. 17, Transcript).

Because of the lack of parking in the area, the problems which may result from insufficient side yard area and the fact that the applicant has failed to show "special reasons" for granting the variance, the variance should be denied. I, therefore, move that the Municipal Council adopt the facts I have recited and the reasoning I have set forth and reverse the decision of the Board of Adjustment, so as to deny the variance sought by the applicant, seconded by Councilman Carrino and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Rice, Villani.
Not Voting: President Grant.

HEARINGS OF CITIZENS.

HC-a.

MS. MARCIA BROWN, 402 FABIAN PLACE, NEWARK, NEW JERSEY, addressed the Council with respect to utility shut-offs.

She apprised the Council that over 800 people were having their utilities shut off by P.S.E. & G. They were people who were on a fixed income and found it hard to compensate for the utility costs.

Ms. Brown felt that many of the City's fires were caused due to people trying to keep themselves warm by using various heating equipment.

She also mentioned a petition which was presently being circulated. It was for a moratorium for the utility shut-offs. It was to help the people who were helpless and on a fixed income. She said it would be presented to Council at a later time.

Councilman James agreed with Ms. Brown. There should not be any cut offs for the unemployed people and fixed income people. He stated there was a problem with people who ran their bills up to \$4,000. He asked "what do we do with people like that?" He hoped an answer was found. He mentioned Public Service was owned by private stockholders who wanted to make profits.

President Grant asked Ms. Brown if she was aware that the United Community Corporation provided assistance in that regard. He also stated the County had an office which dealt with utility bills.

Ms. Brown answered she was aware of these factors. She felt it was not enough. She said it degraded a person to be without heat and lights.

Councilman James said if a person had a job it would help the solution.

Councilman Tucker noted he had an opportunity of working with some of the agencies mentioned by President Grant. He explained that most of the grants were established by the State. The grants were specifically dealt for persons on welfare. He mentioned in 1970, State Legislation was passed which gave flat grants for people who were on public assistance. Presently that was frozen. He went on to say the Governor approved a 7% increase for that grant.

A motion to permit Mr. L.M. Austin to be heard under "Hearings of Citizens" was made by President Grant, seconded by Councilman James and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

HC-b.

MR. L.M. AUSTIN, 432 SOUTH 12TH STREET, NEWARK, NEW JERSEY, addressed the Council with respect to his problem with Arace Brothers, a refuse collection company, for placing dumpsters on lots and for the operation of compactors at locations which were in violation of the zoning ordinance of the City of Newark.

President Grant asked what kind of results happened, if any?

Mr. Hugh Gallagher, Assistant Corporation Counsel, informed Council Members that on July 8, 1983, Arace Brothers obtained a variance to park garbage trucks inside the building located at 422-430 South 12th Street. During the ensuing years, Arace Brothers acquired adjacent lots. He went on by saying that recently the Arace Brothers began to park their garbage trucks on these adjacent lots and also began placing their dumpsters against the wall of the building located at 422-420 South 12th Street. In addition, the Arace Brothers installed a compactor at this location and a series of complaints were brought in the Municipal Courts against Arace Brothers for parking their trucks on lots 413-427 South 11th Street and on lots at 422-430 South 12th Street. Additional complaints were brought in the Municipal Courts for placing dumpsters on these lots and for operating a compactor at this location, which was in violation of the City's zoning ordinance. He mentioned various fines were imposed by the Court. Arace Brothers took an appeal from the determination of the Municipal Court, to the Superior Court. The Judge affirmed the decisions of the Municipal Court in this matter. Therefore, the fines are to be paid by Arace Brothers. He added that additional complaints have been brought to the Courts which have not been resolved yet. The Arace Brothers applied for an additional variance to allow certain trucks and dumpsters to be parked on these lots and also for the use of the compactor. The application for the variance

April 18, 1984

was denied by the Board of Adjustment. However, Arace brothers took an appeal to the Public Utilities Commission from the denial of their application by the Board of Adjustment. The Judge entered an order allowing the trucks and dumpsters to remain at this location until there was a full hearing on the matter. This order would prevent the City from enforcing its zoning regulations until the appeal from the Board of Adjustment was resolved. He added the Judge did not sign any order in regard to the compactor that was located on said premises. He mentioned the litigation which involves the decision of the Board of Adjustment was being handled by Angelo Cifelli, Esq., who was representing the Board of Adjustment. He added that the order had been amended, due to the advisement of a compliance officer from the Division of Waste Management dated July 20, 1983. The Arace Brothers were told by the Division of Waste Management that they must obtain all necessary permits from the City and County within a reasonable period of time or the Division would enforce their order. He stated Arace Brothers have failed to obtain the necessary permits mentioned and the matter was being submitted by the Division of Waste Management to the State Attorney General's Office to obtain compliance with the order of the Division of Waste Management dated July 20, 1983. He stated the City of Newark was participating in the case as a friend of the court.

Councilman James mentioned the matter was still pending in the Superior Court. He said the hearing to the appeal from the Board of Adjustment was scheduled to take place on April 26th and 27th.

President Grant said a special meeting should be scheduled after the matter goes into court.

A meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in the Council Chamber, City Hall, Newark, New Jersey, at 11:16 A. M. for the purpose of holding a public hearing on the 1984 Budget of the City of Newark.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Branch, Carrino, James, Martinez, Tucker, Villani, President Grant, City Clerk Frank D'Ascensio, Clerk of the Municipal Council.

RESOLUTIONS.

7-R-a.(S-1) Resolution providing for the reading of the Budget for the Tax Year 1984 by its title.

City Clerk D'Ascensio read the following resolution:

WHEREAS, N.J.S. 40A:4-3 provides that the Budget as advertised shall be read in full at the public hearing, or that it may be read by its title only if:

1. At least one week prior to the date of the hearing a complete copy of the approved Budget, as advertised,
 - (a) shall be posted in a public place where public notices are customarily posted in the principal public building, and
 - (b) copies are made available to each person requesting same during said week and during the public hearing,

NOW, THEREFORE, BE IT RESOLVED, by the Governing Body of the City Newark, that it is hereby declared that the conditions of N.J.S. 40A:4-3, 1(a) and 1(b), have been met and therefore the Budget for 1984 shall be read by title only.

The City Clerk: The Local Municipal Budget of the City of Newark for the Year 1984 was approved by the Municipal Council on the 27th day of March, 1984, informal approval granted by the Director of Local Government Services. The Budget was advertised in accordance with law in the Newark Star Ledger issue of April 10, 1984. In the advertisement, 11:00 A.M. and 6:00 P.M., or as soon thereafter as the Council can convene, on the 24th day of April, 1984, in the Council Chamber of the Newark City Hall, was established as the hearing date. This being the date, time and place, it is respectfully requested that the President declare open the hearing on the 1984 Approved Budget.

President Grant: The public hearing on the 1984 Budget of the City of Newark is declared open.

President Grant called for those desiring to be heard on the 1984 Budget of the City of Newark to approach the rail, give their name and address and be heard.

No one appeared from the public on the 1984 Budget.

Councilman James said they have had a debate on when is the best time to hold the budget hearing and he believes last year they had two. He doesn't know if the public participated or not. Once again it transcends the Council as they have their own differences and they state the issue. The unequivocal fact once again is that somehow they have not been able to reach the public on the importance of the budget hearing and he thinks more important they somehow feel they don't need to participate. Once again here they are meeting in the day and they see two citizens in the audience but not to speak on the Budget. It just challenges the Council to do what they were trying to do and find some alternative means to bring about more participation on the part of the citizens.

President Grant asked Assistant Business Administrator Banker to approach the podium. Years ago the City of Newark received from the Federal Government dollars in excess of \$5, \$6, \$7 million for the Summer Youth Employment Program which meant at that point they could hire between 10,000 and 14,000 youngsters and they did. They understand the number of youngsters who are eligible between the ages of 14 and 21, numbers in the City in excess of 25,000. He understands this amount will only accommodate 3,000 youngsters in the City of Newark. He questioned Assistant Business Administrator Banker if there is any extra legislation in the hopper in Congress that might send in some additional dollars?

Assistant Business Administrator Banker replied historically every year they have received some additional supplementary funding for summer youths over and above the basic entitlement. At this point there is no specific legislation that would necessarily do that. There have been bills introduced in committee in both the House and the Senate that would do that. There is no legislation at the point of a final vote. The State officials are hopeful that there will be some additional dollars preferably targeted dollars to certain areas but he doesn't think it would be prudent for them to expect it to be much more than 30% or 40% above what they already got. In round numbers they could produce about 1,000 jobs for each million dollars.

Councilman Branch suggested the Council needs to take a position in calling upon the Governor and other Legislatures to appropriate additional dollars for summer jobs for young people. As a Council they will be letting the young people and the City of Newark know that they are concerned about their young people getting summer jobs.

Councilman Tucker said he knows last year was the first year the State of New Jersey did not come up with any money. There has been a normal process in the past which means the State usually comes up with between \$500,000. and \$1 million for Newark. Last year the State came up with "zero". The money was appropriated by the State Legislature but the Governor in his budget message took it out. He believes they should adopt some sort of communication to again request their State Legislatures and the Governor to at least put them back to the 1982 level of funding.

President Grant directed the City Clerk send correspondence to the Governor and other appropriate agencies requesting the State of New Jersey once again find the dollars necessary to come in and support what the Federal Government is sending in in support of the Summer Youth Employment.

Councilman James agreed with remarks made by his colleagues relative to greater employment for our youth.

Councilman James noted that they will be losing one of the City Clerk's employees, Peter Masczszak after this week. Certainly over the years he has performed competently in his job. He would hate for this last meeting in which he might partake to go unnoticed of the work he has done in serving the Council and hoped that those who follow him and others in the City Clerk's Office can certainly appreciate the professional skill and the quality and dignity in which he has handled his job. He doesn't think anyone found any reason to be in disagreement or in odds with Peter. He saluted him and wished him well in his new position.

President Grant said that Councilman James' remarks sums up the sentiments of the entire Council and perhaps at a future date, more appropriately they will have him before the Council to present him a resolution recognizing and commending him.

(Councilman Payne arrived 11:29 A.M.)

Councilman Payne stated he supported the three resolutions adopted by the Municipal Council at this special meeting .

Newark, New Jersey, April 26, 1984

A special meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in the Council Chamber, City Hall, Newark, New Jersey, at 1:55 P. M.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Martinez, Payne, Tucker, Villani, President Grant; City Clerk Frank D'Ascensio, Clerk of the Municipal Council.

(Councilman James arrived 2:05 P. M.)

City Clerk D'Ascensio read letter dated April 23, 1984, from Council President Ralph T. Grant, Jr., calling a special meeting of the Municipal Council to consider proposed legislation relating to the 1984 Municipal Budget, including legislation fixing and determining the amount of money necessary for use by the Newark School District for the 1984-1985 school year and appropriating funds for use by the Newark School District for the school year 1984-1985 as well as for the school year 1983-1984.

President Grant stated, "In accordance with New Jersey P.L. 1975, Chapter 231, Section 5, adequate notice of this meeting has been provided by notifying by mail the Newark Star Ledger and Elizabeth Daily Journal and by posting on the designated bulletin board in the basement of City Hall.

RESOLUTIONS.

- 7-R-a. (S) Resolution determining the amount necessary for current expenses of the Newark School District for the School Year 1984-1985 in order to provide for a thorough and efficient system of schools to be \$242,920,047. and the contribution of the City of Newark to be \$43,034,800.

(Copy of resolution submitted to each Member of the Council)

A motion to adopt the resolution was made by President Grant, seconded by Councilman Martinez.

President Grant stated just a few weeks ago the voters of the City of Newark turned down the Board of Education's proposed budget and the process for dealing legally with this matter is being followed to the letter by the Newark Municipal Council. 1) We have extended on two occasions an invitation to the Members of the Board to meet with the Council to discuss the Budget. The first meeting one Member showed, Mr. Charles Bell and the subsequent meeting no one from the Board showed. 2) It is the Council's responsibility to make cuts in the Budget in light of the public's rejection of it and also by identifying the areas to be so reduced. 3) The third action is the action they are taking now, the adoption of the resolution and forwarding this concluded information to the appropriate persons.

Councilman Tucker referred to the second page of this resolution dealing with the capping of services which are above and beyond the mandatory allocation of the State, specifically the bilingual education, food service and other programs. The Council had come forth with a recommendation that they cap those figures at the 1983 level and add an inflationary factor. He just wants to be reassured that has taken place.

Assistant Business Administrator Banker who was present in the Chamber approached the podium.

Assistant Business Administrator Banker explained they have worked with Council's staff in the preparation of these figures. The Board did not respond to the specific question posed by the Council in that regard. In reviewing the Budget they applied the concept Council asked for. In effect those numbers represent a CAP on the cafeteria and certain other areas.

President Grant questioned Chief Accountant Fitzsimons whether he concurred with remarks made by Assistant Business Administrator Banker.

Chief Accountant Fitzsimons replied in the affirmative.

BE IT FURTHER RESOLVED, that two copies of this resolution be filed forthwith in the Office of the Director, Division of Local Government Services for his certification of the 1984 Local Municipal Budget as so amended.

BE IT FURTHER RESOLVED, that this complete amendment, in accordance with the provisions of N.J.S. 40A:4-9, be published in The Star Ledger, April 30, 1984 and that said publication contain notice of public hearing on said amendments to be held in the Newark City Hall, May 3, 1984 at 11:00 A.M.

It is hereby Certified that this is a true copy of a resolution amending the budget, adopted by the Governing Body on the 26th of April, 1984.

April 26, 1984

President Grant stated when the Mayor presented his Budget to the City Council, it carried with it a \$13.44 tax rate. Through the efforts of the Municipal Council, our auditing staff and Members from the Mayor's Administration, they have been able to reduce that down to \$12.77. Last night the County adopted their Budget and if that budget holds, they will be able to reduce this further by 19 points, \$12.58 from the proposed \$13.44. He commended his colleagues on the Council, Members of the Clerk's Staff along with the Clerk and the Members of Administration for working in the interest of the City, even though it is more than last year, it is much less than what was proposed originally.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen James, Martinez, Payne, Tucker, Villani, President Grant.

The City Clerk: The amendments to the 1984 Local Municipal Budget of the City of Newark will be published in The Star Ledger issue April 30, 1984. Two copies of the amending resolution in proper form, certified by me as having been adopted by the Governing Body, will be submitted to the Director of Local Government Services for examination and certification. The Municipal Budget will not be finally adopted until the certificate of the Director of Local Government Services has been received approving such amending resolution. (N.J.S. 40A:4-10)

Councilman Rice introduced Freeholder President Jerome Greco and Freeholder Pearl Beatty.

County Freeholder President Greco presented a resolution from Essex County.

President Greco stated he presented this resolution on behalf of the Essex County Freeholders and they were hopeful this resolution would dramatize the plight of the Ukrainians in the Soviet Union and that the establishment by the Federal Government of a Commission will do a great deal to bring knowledge to all of the citizenry of the world about conditions in the Soviet Union. He said it was their fervent hope and prayer this resolution would play a small part in doing that.

Freeholder Beatty indicated that her hope for all the Ukrainians throughout the world was peace.

Councilman Rice on behalf of the Members of the Municipal Council presented the following resolution:

May 2, 1984

WHEREAS, House Resolution (H.R.) 4459 and Senate Bill S-2456 would establish a special commission, known as the Commission on the Ukraine Famine, to thoroughly research and study the 1932-33 famine which occurred in the Ukraine, reportedly resulting in the deaths of an estimated seven to nine million Ukrainians, a horrendous fact which has seemingly been largely unreported in the Free World's press; and

WHEREAS, this legislation, which is co-sponsored by a large majority of the New Jersey Congressional Delegation, could present pertinent facts about the Soviet system which will in turn enable the American people and government to assess the effect that this famine had on the Ukrainian people as a nation and lead to clearer perceptions of the Soviet system of government in the future, since the Commission report would be published for the use of Congress, the Executive Branch, educational institutions, libraries and the general public; and

WHEREAS, passage of H.R. 4459/S-2456 is of paramount importance to the many citizens of Ukrainian heritage in this nation, a goodly number of whom reside in the Greater Newark Metropolitan Area, contributing greatly to the economic, social and civic life of this community;

NOW, THEREFORE, BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY, that it does hereby support the passage of H.R. 4459/S-2456, for the establishment of the Commission on the Ukraine Famine as a valuable contribution toward the enlightenment and education of the American people.

BE IT FURTHER RESOLVED that a certified copy of this Resolution be forwarded to the appropriate elected and appointed officials on the municipal, county, state and federal levels urging them to actively work for the passage of this much needed Congressional legislation.

(Councilman Carrino arrived at 1:30 P.M.)

Councilman Rice stated that Assemblyman Zangari and Senator Caufield expressed their regrets that they were unable to attend this meeting but that the State had passed a similar resolution.

Mr. Daniel Marchesian accepted the resolution on behalf of the Ukrainian Community in Newark and in New Jersey and their organization "Americans for Human Rights in the Ukraine" thanked all of the Council and Freeholders Greco and Senator Caufield and Assemblyman Zangari for their courageous action in preparing the resolutions and moving them through their respective legislative bodies. He said it was of paramount importance to the Ukrainian community and extremely important that the American public learn about the atrocities that occurred during 1932-1933 when 7 million Ukrainians were starved to death by direct orders of the Soviet Government. Recently the Armenian community commemorated the genocide of one-half million Armenians during 1915, and the Jewish Community commemorated the holocaust of World War II and today the commemoration of the Ukraine famine.

He noted these were acts of horrible crimes against humanity and more so direct crimes against a specific nation and they have to bring these kinds of crime to the glare of the public so everyone knows about it and this would be their best defense. He again thanked the Council for this resolution.

A motion to consider Resolution 7-R-bu (A.S.) at this time was made by Councilman James, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Councilman James read the following resolution:

BE IT RESOLVED BY THE MUNICIPAL COUNCIL OF THE CITY OF
NEWARK, NEW JERSEY, THAT

IT does hereby recognize and commend Jennifer Lowery Payne for her extraordinary marathon run from Charlotte, North Carolina to the George Washington Bridge in Manhattan which Jennifer began on March 31st and plans to conclude triumphantly on Saturday, May 5 thus highlighting dramatically the great need for increased funds and research to combat the terrible affliction of "Sickle Cell Anemia", Further, extending the sincere best wishes of the Municipal Council, on behalf of all of Newark's citizens, for a successful completion of Jennifer's long odyssey of devotion for those less fortunate than she.

BE IT FURTHER RESOLVED that a copy of this resolution suitably inscribed be presented to Jennifer Lowery Payne in fond remembrance of this occasion.

Councilman James on behalf of the Members of the Municipal Council, presented Ms. Payne with a suitably inscribed copy of the resolution.

Councilman James commented that Ms. Payne, when a student at the University of North Carolina, did a research paper on Sickle Cell Anemia, an incurable disease affecting one out of every 500 black Americans. When Ms. Payne discovered her nephew and another member of the family suffered from this disease, she decided to do something dramatic to draw attention to the problem and spur the donation of money for research to eliminate this dreadful disease.

Councilman James noted that if Ms. Payne could run in 34 cities to dramatize this need he felt he could at least support her efforts in Newark by joining her in the seven mile run through the streets of Newark.

Ms. Payne was also presented with a proclamation from Mayor Kenneth A. Gibson, which was presented by Chief of Staff Zinnerford Smith.

Chief of Staff Smith commended Ms. Smith for her efforts and extended the best wishes of the Mayor and the City of Newark for continued success.

Dr. Curtis Way noted he was pleased to be able to honor Ms. Payne and commended her for her efforts to call attention to the plight of black people who suffer from Sickle Cell Anemia.

Ms. Payne thanked the Members of Council for the resolution and said when she started out to run from North Carolina to New York City, which will cover 34 states, she did it to reach a massive amount of people to inform them of this disease. She noted by running through these towns attention was brought to the need for further research on this matter. She again thanked the Council Members for this honor.

Councilman Tucker opined that the variance for this property will come before the Board of Adjustment on May 8, 1984. He queried if it was possible to adopt this resolution contingent upon receipt of the variance.

Councilman Branch said he welcomed any development in the Central Ward. He noted the Central Ward is lacking in many aspects and this business will clean up the area, create jobs and taxes.

7-R-bt. Resolution urging the City Administration and the Personnel Division to
(A.S.) include comparable worth in the criteria used for municipal job classifications and salary ranges.

A motion to adopt the resolution was made by Councilwoman Villani, seconded by Councilman Tucker.

Councilwoman Villani asked support of her colleagues in the establishment of a special task force charged with investigating any inequities in the salaries of female city employees whose work is of comparable value to their male colleagues. She stated that one of every six families nationwide is headed by a single woman with one-third living in poverty.

Councilwoman Villani opined the only way they can attempt to resolve this problem is by providing the female population with economic parity and this can only be achieved by acknowledging the comparable worth of city employees. This task force would be comprised of members of the administration as well as the governing body and would be charged with seeing if female employees were receiving the same pay as their male counterparts for performing comparable duties. She noted that nearly 45 percent of the American work force is comprised of women.

Councilman Payne said he supports the concept of equal pay for work of equal value. He noted the need for the overall overhaul and review of positions in city government, salaries and salary scales.

President Grant noted he was in full support of this resolution and said it is necessary and commendable.

Councilman Tucker said while he agreed with the concept of this resolution, he noted that eight years ago a Committee on the Status of Women was created and charged with examining the status of women within all levels of Newark Municipal Government. He opined there was a need to make sure the Mayor activated that Committee as it was never abolished and make sure the one in effect works.

Councilman Branch suggested that someone from the organization could give the Council a status report and update on the entire commission.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Absent During Roll Call: Councilman Carrino.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Martinez, seconded by President Grant.

Councilman Payne indicated there was a strong need to have the stumps removed as soon as possible after the trees are cut down.

Councilman Payne advised that he would have a survey done on locations of tree stumps in the South Ward and forward the information to Engineering Director Zach.

Councilman Tucker opined that perhaps this resolution should be deferred and discussed with Engineering Director Zach at a special conference to have him explain what his intentions are with reference to this resolution.

Councilman Martinez advised this was for the rehabilitation of Washington Park and Director Zach has asked him to sponsor this as a late starter. He suggested that Director Zach appear at this time and explain the emergency of this resolution.

President Grant directed the Deputy City Clerk to summon Director Zach.

At a later time in the meeting, after Resolution 7-R-by (A.S.), Director Zach arrived at the meeting.

Councilman Tucker queried if the contract was going to the next lowest bidder and what in effect was being eliminated?

Engineering Director Zach responded that the contract is actually going to the lowest responsible bid. He noted the way of determining the lowest responsible bidder in this case was to utilize the unit price items that were in the proposal and they have made appropriate reductions in the items and in the quantities in order to stay within the framework of the dollars that are available for this particular project. He indicated it is still a bid and award to the lowest responsible bidder.

Councilman Martinez queried why it was imperative this resolution be considered as a late starter at this meeting.

Director Zach responded that the problem is in order to get the dollar amount down to where they could stay within the framework of the contract they had to do some modifications in the way of submittal. It has taken time to accomplish that and has taken the normal time to get through the review process.

President Grant advised Director Zach, that the Clerk would be forwarding him a letter, at the request of Councilman Payne, requesting prompt removal of tree stumps and trimming of trees.

Director Zach requested to address Council, in the near future, on a contract for tree analysis and inventory throughout the City. He noted it is the only way they can provide reasonable ability to respond on a ward to ward basis and provide equity amongst the wards.

A motion to adopt the resolution and directing the Deputy City Clerk to communicate with Engineering Director Zach requesting a report of current stump removal and tree-trimming activities within each ward if possible was made by Councilman Martinez, seconded by President Grant and declared adopted by President Grant by the following votes:

(82-94 Halstead Street)

(Assessed evaluation-\$11,600.; minimum price-\$9,000.; minimum capital investment-\$90,000.)

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by President Grant, seconded by Councilman Martinez.

Councilman Tucker stated there is an ordinance that requires that legislation being submitted as a late starter must state the reasons for the emergency as well as providing the reasons for the delay in submitting appropriate documentation in time for the printed agenda. He expressed his concerns about voting on property situations as late starters.

The motion to adopt the resolution failed of adoption by the following votes:

Yes: Councilmen Branch, Martinez, Villani, President Grant.

No: Councilmen Carrino, James, Rice.

Not Voting: Councilmen Payne, Tucker.

Councilman Payne stated since this is just to advertise he would change his vote from not voting to the affirmative. He noted it is bad policy to consider this type of legislation as late starters since there is no time for perusal of the resolution. He opined this message should be relayed to Department Heads.

President Grant stated this particular piece of legislation has been in the hands of Administration for some time.

Councilman Branch indicated that letters should be sent again to make them aware of the ordinance governing late starters.

The motion to adopt the resolution and directing the Deputy city Clerk to communicate with Mayor Gibson requesting that he direct all department and agency heads to comply fully with the ordinance governing late starters in all future submission of late legislation for Council action was made by President Grant, seconded by Councilman Martinez and declared adopted by President Grant by the following votes:

A motion to adopt the resolution was made by President Grant, seconded by Councilman Tucker.

Councilman Rice stated the West Ward voters felt the Council did a good job in bringing the tax rate down to \$12.58. He added the people were disenchanted with administrative services in the City and could not see the benefits of the budget.

Councilman James said the 1984 Municipal Budget could be further reduced by the consolidation of various agencies, reduced personnel and greater collection efforts in fines and property taxes. He also felt the high water rate for property owners should be reviewed.

President Grant noted the Council has worked with the External Auditors and Administration in an effort to reduce the budget as far as it is. He explained that if the Council failed to adopt the budget, then the State would come in and set the City's budget. He felt the obligation of the Council was to move forthwith in a manner that was consistent with the Council's conscience to strike a budget for the Year 1984.

May 8, 1984

Councilman Tucker felt a full Council should be present before going over anything that had to do with the 1984 Budget.

President Grant queried on the law for further amendments to the 1984 Budget.

Mr. George Fitzsimons, Chief Accountant, indicated if there were any further amendments they would have to go through publication in the newspaper, there would have to be a three-day waiting period after publication, another public hearing on the further amendments. He stated the budget was supposed to be submitted to the Essex County Tax Board on May 7th. He reminded the Council that the Temporary Budget was used up, there was no more money to pay any bills.

Councilman Payne said he would like to see a more reduced budget at a lower rate. He also felt the total Council should be involved. He informed the Council Members that he would be out of town in the morning hours, but would be able to get back in the afternoon if he was needed for a budget meeting.

Councilman James queried as to whether the budget would be rolled back to the previous year by the State if it was not adopted by the Municipal Council.

Mr. George Fitzsimons, Chief Accountant, informed the Council that the State would give the City last years appropriation adjusted for any increases or decreases in debt service, which were mandatory items.

President Grant asked Mr. Fitzsimons to repeat his statement on the Temporary Budget.

Mr. George Fitzsimons, Chief Accountant, indicated the City was working on a Temporary Budget since the first of the year. This budget was extended on May 3, 1984 to cover the payroll which was payable on May 4th. There was no money left in the Temporary Budget to pay any other expenses or any other payroll charges.

The motion to adopt the resolution failed of adoption by the following votes:

No: Councilmen James, Martinez, Payne, Rice.

A motion to recess the meeting until 4:00 P.M., May 9, 1984, was made by President Grant, seconded by Councilman Payne and adopted by the following votes:

A recessed meeting of 11:00 A.M., May 8, 1984, of the Municipal Council of the City of Newark, New Jersey, was held at 4:30 P.M. on the above date, in the Council Chamber, City Hall, Newark, New Jersey, for the purpose of adopting the 1984 Budget, as amended.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Branch, Carrino, James, Martinez, Rice, Tucker, Villani, President Grant, City Clerk Frank D'Ascensio, Clerk of the Municipal Council.

President Grant requested City Clerk D'Ascensio to read Resolution 7-R-c (S-1) which failed of adoption May 8, 1984.

City Clerk D'Ascensio read the following resolution title:

7-R-c. (S-1)

Resolution adopting the Budget for the Year 1984, as approved March 27, 1984, and amended April 26, 1984 and May 3, 1984.

A motion to adopt the resolution was made by President Grant, seconded by Councilman Branch.

Councilman James stated the Municipal Budget could be further reduced by the consolidation of various agencies, reduced personnel and a greater collection of efforts in fines and property taxes. He felt the high water rate for property owners should be reviewed. He said these were the reasons why he would not vote in the affirmative.

Councilman Branch read the following statement:

'Since November of last year, when the City announced the need to layoff and demote hundreds of our employees, including vitally needed firemen and policemen, my primary goal for the 1984 budget has been to make sure that our citizens would not be denied the services they need and deserve. Along with my council colleagues I have worked to reach that goal in a way that would not cause unnecessary financial hardship.

I am satisfied that we have met that goal. The budget before us today permits the City to operate without layoffs in the areas of public safety and sanitation, and it provides for a much needed expansion of our recreation efforts. Under this budget, our citizens can continue to receive all City services at or above the 1983 level.

This budget does require a increase in property taxes, but that increase is only one half as much as was proposed by the Administration. In addition, this Council has already taken action to reduce water and sewer bills, with those reductions to average about 17% for the typical water user.

May 9, 1984

May 9, 1984

It is important to understand that there would be no need for increased taxes if the state of New Jersey had not arbitrarily cut the amount of aid which it sends to the City of Newark. Even without any new programs, if the state merely paid us the amounts due under statutes now on the books, the tax rate would be going down and not up.

Given the problems we have faced and the solutions we have found, as a responsible member of the Municipal Council, I will vote to adopt the 1984 budget."

Councilman Branch questioned what would happen if the Budget was not adopted at this time.

Mr. Thomas Banker, Assistant Business Administrator, explained that the State would take over and strike a prior years budget based on debt service and mandatory cost. He stressed this would cause a major lay-off immediately.

The motion to adopt the resolution failed of adoption by the following votes:
Yes: Councilmen Branch, Tucker, Villani, President Grant.
No: Councilmen Carrino, James, Martinez, Rice.

Councilman Martinez read the following statement:

" It might be popular to vote no on this 1984 budget, but I had to consider what it would mean if the Council refused to approve this proposal. The City of Newark would be temporarily out of business, and the state of New Jersey would be forced to strike a budget based on last year's adopted plan plus various mandatory items. This would force the tax rate up over \$12 per \$100 of assessed valuation and result in massive layoffs in essential service areas, such as the Police and Fire Departments--departments which the Council was determined not to cut. Failure of this body to act affirmatively on this budget will result in severe reductions of all municipal services.

I believe that I did as much as I could as an elected official by personally cutting over half a million dollars of the almost \$600,000 in budget reductions made by the City Council. This year's budget reflects a 17 percent reduction in water and sewer charges. The increase in the tax rate, however, must be blamed on state government, which has failed to honor its financial commitments to Newark.

Several years ago, the state legislature voted to make payments in lieu
never
of taxes on properties it owned in Newark. We have / received the full amount of in lieu payments and gross receipts taxes due to this municipality each year.

May 9, 1984

This year, state government anticipates a budget surplus, which it plans to return to the suburbs in the form of property tax rebates, instead of living up to its financial commitments to Newark.

I appeal now to my colleagues to work diligently in seeking the state financial assistance to which we are entitled for property tax relief. At the same time, I encourage the administration of this city to develop a plan to bring in more ratables to Newark, thereby lessening the burden the high taxes place on homeowners. This year, the city was forced to foreclose on 650 homes. We have a responsibility to those who elected us to office, not to allow this to continue."

Councilman Martinez requested to have his vote change from the negative to the affirmative.

A motion to adopt the resolution was made by President Grant, seconded by Councilman Branch and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Martinez, Tucker, Villani, President Grant.
No: Councilmen Carrino, James, Rice.

ADJOURNMENT.

This ordinance will come up for a public hearing and be considered for further action on June 6, 1984.

A motion to amend the ordinance by deleting 103 Bleeker Street from the N.J.R. 45 Plan, was made by Councilman Martinez, seconded by Councilman Tucker.

Councilman Martinez remarked he took photographs of the area involved and felt 103 Bleeker Street was in excellent condition.

Councilman Tucker said he knows it is owned by the Fraternity House but he was concerned if they will be paying taxes on this property.

May 16, 1984

Councilman Martinez replied the assessment on this property is \$10,700. and is currently paying \$1,245.48 in taxes.

Councilman Payne felt he needed more facts on the effect it would have on the overall plan. He would like to have this item deferred until additional information is received.

Councilman James concurred with remarks made by Councilman Payne and noted other citizens have come forward since the initial pre-meeting conference they had and have also raised concerns with parking and their lifestyle would greatly change if they were to go ahead with this project. He felt they should invite all the principal parties and explore the entire project in detail together with citizens and individuals who are in attendance tonight.

Councilman Martinez pointed out the conditions of this area. The buildings they have taken out of this plan, so far everyone's taxes are paid up to date. Those persons who they have not been taken out of the plan, the majority of them have not paid taxes for almost 18 months. The plan will bring in 350 to 370 new students to the area which will have a positive effect on the City.

Councilman Tucker said he supports the posture that Rutgers University should expand and supports the posture that the development of this particular dormitory would be an asset and bring additional income in. He doesn't believe that somebody who is not poor, who is not on fixed income should enjoy the liberties of living in this town and be supported by a person who is paying a high rent on welfare, in receipt of SSI to pay these taxes and the student in effect is paying rent to Rutgers University, then in turn doesn't pay any taxes.

Councilman Tucker felt we have to have the educational communities pay their portion of what they need in order to run City Government. We cannot afford to continue to give them land on a tax exempt basis.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to defer action on this resolution was made by Councilman Martinez, seconded by Councilman Carrino.

Councilman Martinez stated the following:

"I am moving to defer action on this proposed contract because it involves a matter of great concern to me as I am sure it will to my colleagues on this Council.

This contract relates to people going inside the homes of our Newark citizens to repair their water meters. It also relates to the storing of City-owned equipment with a private contractor, employees of that contractor will be driving around the City with City-owned equipment in their vehicles.

I am concerned about the losses of that equipment and for claims by our residents of losses or damage when the contractor's employees are traveling about the City and particularly when they are inside of the homes of our residents.

We have all looked at many proposed contracts to be awarded, particularly we have reviewed contracts where people go into homes in our City to install or replace parts of water meters. Almost all of those contracts have spelled out for the last 5 years in very great detail-as I believe they should-the very broad insurance coverage, substantial amounts of insurance coverage, the contractor must maintain, not only for himself, but also naming the City as an insured.

I want to know why this contract has no such protection-there is a very vague insurance requirement with no amounts of coverage specified for the contractor and no requirement at all that he provide an insurance policy protecting all claims. Why this proposed contract is so very different in such a vital respect from other contracts being awarded by our City.

I am also concerned about a lack of a requirement for a bid or performance in a contract where our City-owned equipment is being left with a contractor. There are times that we have awarded a contract without requiring such bonds in the interest of competition and cost savings, but I want time to see if this type of contract isn't one where we can have both the protection of bonding and still have competition and cost saving.

I note that one of the bidders, a company already working for the City which is bonded, and which insures itself and the City at a lower price than the so-called low bidder for at least a part of the work.

Mr. President, if this matter was originally submitted to this Council, it appeared to be a \$26,000. item. I'd like to be certain that the City Purchasing Agent and the Administration had the opportunity to review this contract properly in the context of it now being approved for more than \$120,000. I would also like to see a copy of Corporate papers of this proposed contractor."

(A.S.) financial agreement of certain Fox Lance Urban Renewal Corporations for failure

A motion to adopt the resolution was made by Councilman Tucker, seconded by Councilman Payne.

Councilman Tucker said for the past four months the Members of the Tax Abatement Committee have been going over all of the existing tax abatement agreements dealing with commercial, residential and development tax abatements within the City of Newark. In 1984 the Municipal Budget projected collection of tax abated properties amounting to \$8.4 million. He has disagreed with this estimate and according to tax abatement contracts approved this year and studied by this Committee, they should be receiving \$11.2 million in 1984. Further analysis by the Committee in addition to the statement made by Finance Director Jones, that owners of tax abated properties in Newark owe at least \$5 million or more in back taxes. There is no reason why the City should not collect over 100% of monies owed by tax abated properties. One of the reasons for the delinquency of payments was the lack of coordination of various agencies responsible for monitoring the various stages of tax abatement process and from granting tax abatements through issuance of Certificate of Occupancy. Some of the delinquent taxes go back as far as 20 years. 9 of the developers who petitioned the City and have been in receipt of tax abatement have never followed through the original agreements that were approved by the Municipal Council. The Committee has found Urban Renewal Corporations that either have abandoned or cancelled their developments and their properties since receiving the abatement have not notified the City of this particular decision. The question remains as to whether or not the Tax Collector has been collecting any taxes on the existing lands and improvements where this development has not taken place. The law requires that taxes assessed on the property prior to development by an Urban Renewal Corporation continue to be paid until the construction has been completed. This Committee will continue to meet and seek answers to these queries. By moving this resolution they will revoke and rescind previously approved resolutions that were authorized by tax abatements for Urban Renewal properties.

Ordinance approving an amendment to the Urban Renewal Plan and Feasibility of Relocation for the Newark Colleges' Expansion Project, N.J.R.-45 (Fourth Amendment). (6-F-b deferred May 16, 1984)

President Grant stated, "In accordance with New Jersey P.L. 1975, Chapter 231, Section 5, adequate notice of this meeting has been provided by notifying by mail the Newark Star Ledger and Elizabeth Daily Journal and by posting on the designated bulletin board in the basement of City Hall.

ORDINANCES ON FIRST READING.

President Grant called for ordinances on first reading.

6-F-a. (S-2) The Deputy City Clerk read An ordinance approving an amendment to the Urban Renewal Plan and Feasibility of Relocation for the Newark Colleges' Expansion Project, N.J.R.-45 (Fourth Amendment).
(Copy of ordinance and correspondence submitted to each Member of the Council)

A motion to adopt the ordinance on first reading was made by Councilman Martinez, seconded by Councilman Branch.

Councilman Martinez stated for the record that he was the originator of having 103 Bleeker Street removed based upon photographs and visual inspections of the entire area. This morning he had a conversation with the President of the Fraternity and also Dr. Samuels of Rutgers. It was indicated to him that there will be an agreement where Rutgers will agree to purchase 259-259½ High Street from St. Michael's Hospital and in turn make the relocation from 103 Bleeker Street to 259-259½ High Street. There will be a fair market appraisal value for the property at 103 Bleeker Street plus, he believed, \$15,000 relocation fees that will be extended to the students. Rutgers has indicated they will expedite as quickly as possible and if necessary contractors to rehabilitate that building. Councilman Martinez stated based on this conversation he was moving this ordinance for adoption on first reading.

Councilman Tucker suggested that the discussion held on this matter at the pre-meeting conference be put on the record on this meeting.

President Grant directed that the discussion held at the pre-meeting conference of May 22, 1984, be incorporated into the minutes of this meeting.

The following is a synopsis of the discussion with reference to this ordinance that was held at the Special Conference of the Newark Municipal Council May 22, 1984.

Dr. Norman Samuels, Provost, Rutgers University, Mr. Dennis Hagerty, Mr. Thomas Usewicz and Mr. Alfred Russo, Attorney for Theta Chi Fraternity Alumni and Mr. Kenneth Louis, Newark Chamber of Commerce and Ms. Del Tufo, President of the Board of Trustees of the Landmark Committee present during this discussion.

May 22, 1984#2

May 22, 1984

Councilman Martinez said he originally asked that 103 Bleeker Street be removed from the development plan of Rutgers but this morning he spoke with Dennis Hagerty, who represents the 103 Bleeker Street building and asked him what he was looking for in an alternative plan. Mr. Hagerty indicated they would like to stay in that particular building or something that would be suitable. Since then he spoke with Dr. Samuels and representatives of Rutgers who informed him there are two buildings on High Street which are owned by St. Michael's Hospital. One building has been abandoned and would need extensive renovation. Rutgers University indicated they would purchase the required property from St. Michael's, turn it over to the Fraternity House and do as much as possible in the renovation of that building and to work along with the Fraternity. The Fraternity group, once acquiring that parcel of property would pay the City of Newark taxes. The City would be relieved of an abandoned building currently existing at 259-259½ High Street, occupy it with students, receive a property tax, water sewage and all the other taxes that come to the City of Newark and beautify what currently is an eyesore. Rutgers in the meantime would come up with their extensive dormitory plan with the exception of that parcel, that was amended in the beginning, surrounding the bookstore and the other renovated buildings. Dennis Hagerty and Dr. Samuels met this morning and he hoped that there would be an agreement that would be acceptable to both parties. It is his understanding that Rutgers University is agreeable to purchase the property, renovate it and turn it over to the Fraternity.

Councilman Martinez explained that the Alumni of this Fraternity become a part of the ownership of the building. He mentioned there were 300 alumni involved in the ownership. He advised that Mr. Russo was representing Mr. Usewicz and the Alumni.

Dr. Samuels noted they will give them facilities, renovate that facility and the fraternity will end up with everything they could want except it will be a different location.

Mr. Russo, Attorney for Theta Chi Fraternity Alumni, advised that in order for an agreement to be enforceable it must be in writing. He pointed out verbal agreements are no longer accepted in Court with reference to real estate and this matter involves real estate. He further commented that the first discussion they had was just prior to coming to this meeting. Based on this discussion it would require extensive written documentation, that is, contracts between the Fraternity and Rutgers University as well as with the hospital. He commented that he did not know if anyone had reached the hospital, or that the hospital had agreed to sell the property to Rutgers University or that Rutgers University has agreed to convey the property to the fraternity. He opined that everyone would like to see that happen but to his knowledge there is nothing in writing that would permit this to happen. Based upon that he would feel that it would be premature to move on this particular amendment to the plan, since bringing it to issue will either cause us to ask to be included in the plan or object to the amendment at this point and we're not certain that anyone wants them to do that. He does not know if the University wants that to be done or that the Fraternity would like that to be done but he would not like to be put into that position.

Councilman Tucker stated at this time, Rutgers is indicating verbally that they are going to follow through on this. The Fraternity is saying they do not have any confirmation from St. Michael's Hospital, owners of the property in question, that they are willing to sell the property to Rutgers who in turn will transfer the property over to the Fraternity.

Councilman Branch opined there should have been confirmation based upon the commitment that was made between St. Michael's Hospital and Rutgers University.

Mr. Russo reiterated that no commitment has been made. St. Michael's Hospital owns the property that they are talking about for a possible exchange.

Dr. Samuels advised they talked to St. Michael's Hospital in December and advised St. Michael's that Rutgers would like to have this property for dormitories. He noted there are two fraternities involved. Rutgers has proposed, to both fraternities, that they would find each fraternity another house, move them and do everything they could for them. Rutgers asked the Administration of N.J.I.T. to approach the students in the Fraternity on High Street and this fraternity took their offer. This Fraternity has decided to pursue a different course. He reiterated Rutgers position and advised that although the Fraternity does not have a written guarantee, the Members of this Council can act as insurers that Rutgers is going to keep its word because Rutgers is going to have to come back to this Council many times for different aspects of this program and he is saying in the name of the University, that they are going to make this fraternity whole, they will move them, give them a good place, and renovate it. The Members of this Council will make sure that Rutgers keeps their word.

Councilman James commented that it is commendable that students who are vital to this community and Rutgers University are willing to work together and cooperate. Everyone wants to see this viable fruition of dormitory space. Somewhere in these discussions they have lost the importance of the presence of Rutgers University and others which bring a viable population to the City and serves to stabilize and provide another image. He opined that in the future they would go beyond the housing question and talk about graduate programs being offered in the City of Newark.

Mr. Russo indicated they would like to work with the hospital.

Councilman Martinez stated if there was a move in that direction it would be acceptable to the Fraternity but he stated from speaking with Mr. Hagerty and Dr. Samuels that one of the problems was the time element. Mr. Hagerty was looking for 6 months time using in-house labor and Dr. Samuels was looking more in the area of 3 months with contracting it out.

Mr. Russo stated that Rutgers has advised they would give the money to the Fraternity to buy the house from St. Michael's, but there is no assurance to the Fraternity that St. Michael's will sell the house. There is nothing in writing between St. Michael's Hospital and Rutgers University agreeing to sell that house.

Mr. Dennis Hegarty stated they never planned to move until the hotel next door was torn down. They never wanted to move. They only looked at other houses because they felt threatened. They thought they would be at the mercy of the large university and the City. They came up with one house in the event they had to move. He opined those points are being neglected. They have been there for 12 years and have paid taxes and been good citizens. That is why he sent a letter to the Council, the Mayor, Dr. Samuels and a few other people and asked that at this time their lot be removed from the acquisition and a committee be appointed by the Council to mediate all actions between Rutgers and the Fraternity. In this manner they could be assured of fair, unbiased and thorough evaluation of an historic building. Just 3 weeks ago the N. J. Historic Sites Council met and for the first time they suggested that Rutgers look into moving the building by putting it on a new foundation in a new location or saving it and incorporating it into their plans. Neither of those issues have been fully investigated and that was their recommendation. They also did say you can destroy the building if all else fails.

Councilman Tucker stated his concern was money in regard to taxes and that is one of the points he is raising and will consistently raise. He commented that he is knowledgeable that this particular plan does not deal with giving the city taxes and that is a major issue. If welfare recipients can pay taxes he finds it incomprehensible that people who make more than that amount can't pay taxes. His concerns do not relate to the fraternity but more to Rutgers University. He is appreciative that the Chamber of Commerce wrote a letter indicating they support this development but he suggested they pay some taxes as well.

Councilman James said he envisions a fraternity house in Newark as a place that serves as a home temporarily for the students who graduate and go on to fulfill their careers. If they talk about the overall good of the city, then this does not harm the Fraternity indefinitely because when these students get a degree they will go elsewhere, relocate, go to whatever community you will call home. These students are using this house during their stay in our city for a brief period of time and that's commendable but if there is a chance for overall growth of the City to stabilize an entire area and to greatly assist Rutgers University while not really doing a disservice to the Fraternity because they have to understand that one building cannot be an obstacle to stop the City of Newark from this overall growth.

Councilman Martinez said today the ordinance will be considered on first reading which will give the University and fraternity the opportunity prior to June 6th, the date when it will be considered on final reading, to come to a binding agreement. He opined that there is a good faith effort on the part of Rutgers to acquire property that seems to be important to the fraternity.

Councilman Rice said he wanted to go on record because to him it goes beyond the frat houses and the taxes. He looked at this university, being a product of it. There is still some in-house things happening. That is going to have to be addressed and some of it is clothed somewhat in a biased way. He is not going to deal with that

May 22, 1984

now but he wants them to know that because it is going to pass on first that they need to be sitting down because the community and student population inside that structure, not fraternity people in essence but just the student population who live in the State of New Jersey of all ethnics. Having some problems in there - some real serious problems so if we're going to be negotiating for the residents of the community, they go beyond stabilizing community structure and then bringing kinds of folks that some body of people think should be there and accept procedures that would distort some of the movements and some of the gains we have acquired for minority people in the past and he is very much disturbed about that and it's going to have to be addressed either with this body in a meeting of the minds or with the press and on the streets. Whether it is a fraternity or university or students or residents they need to start cooperating and he as a Councilperson is going to start to mandate because in the 24th hour they try to come together in the meeting of the minds of something that could have probably been discussed in no time had they been getting along and communicated throughout the years.

Councilwoman Villani stated in the past there have been all kinds of anxieties which direction Newark was taking. There were many concerns but she saw the colleges and hospitals becoming a most important part of the City of Newark. It is something they can be proud of. It is a permanent part of the City. The tax problem will be addressed in the future.

Councilman James stated they are all concerned with the growth of the area but the decision that is going to be made today deals with the entire growth and direction of this City. This decision is not going to be made based on the fact that students want to buy this building and renovate it.

Mr. Kenneth Louis, Vice President of Governmental Affairs, Newark Chamber of Commerce expressed his concerns about the fact that the fraternity is asking this Council to make them a protected class in this situation when this City has not hesitated in the past to disrupt the lives of hundreds of families when they felt the project was for the overall good of the City. He also noted the Rutgers facility once it is constructed will become part of the formula that the State uses in allocating in-lieu payments so that in that sense it is not going to be a free-ride for the Rutgers facility. There will be an in-lieu payment based on that facility. To block this project based on a desire by a fraternity not to move would be out of character for the City.

Councilman Branch opined the institutions are important and the students are important. He opined they are all important to each other. He noted that one of the most important things is how they resolve the issue, how they arrive at a solution that they can all live with within the city. He wants taxes as bad as anyone. Taxes should be paid by everyone but they cannot stop progress in this City because they may not get as much taxes as they want.

Councilman Tucker indicated that if Rutgers has made representation within the context of the City Council it would be very difficult for them not to live up to that representation and come back here again. He said his primary concern is taxes. He pointed out that the City of Newark has made major concessions, too many dealing with the University communities. Many people may not be knowledgeable that when these concessions are made and when they exempt that land it is not without cost. Taxpayers within the City of Newark pay for that. He will not deal with payment in-lieu because payment in lieu of taxation really is a matter of discretionary judgement of the Governor of the State of New Jersey and the State Legislature. If property owners and tenants pay taxes, then students attending Universities and residing in a dormitory can also pay. The issue is that a welfare recipient pays \$3.00 per month and Rutgers University is saying they are not going to pay anything because they are an educational institution. The issue is taxes. They can talk about the importance of the college community and the protected class of the fraternity but the net result comes down to taxes. There has been preliminary discussions with reference to working out some means where they can get an occupancy tax, but there has been no introduction of a bill. He opined that before they voted on this issue on a public hearing they should be in a position to know that something is in process for the City to get some taxes because if they vote for it without any taxes, they have done a disservice to the residents of the City.

Councilman James contended that the University would simply pass this on to the students and then the purpose of education would be defeated.

Councilman Tucker declared that \$3.00 per month would not bankrupt the student or price education out of existence.

President Grant suggested that all schools in the area have a "Special Fee" with no explanation.

Mr. Russo said the vote today is to vote on the amendment adding additional blocks and lots to take them off the original plan. The original plan for the urban renewal area says the property is supposed to be for adequate park, recreation area and facilities. What has happened is that the Council is being asked to remove a commercial building and a couple of parking lots which does not meet this plan and by not including the fraternity house you are giving the authority to condemn a house that already meets the requirement that the plan was originally set out to do. Albeit they know that it is in the middle of what Rutgers wants to do and the Fraternity is willing to talk about relocating, but they are providing exactly what the plan asks for.

President Grant said Fraternity houses do not normally provide housing for students.

Mr. Russo advised that 21 students reside in that house during the school year from Rutgers and N.J.I.T.

Ms. DeLufo, President of the Board of Trustees of the Landmark Committee, stated it was regrettable that this matter had to come to the attention of the Municipal Council. She noted at a meeting of the Historic Site Commission it was agreed that Rutgers University and the Fraternity would have on-going dialogue. Dr. Samuel's did say Rutgers would do everything possible within the plan to save the building. She would hope that both sides could reach their own agreement.

Councilman Martinez stated this is an extensive renovation of Central Avenue and Bleeker Street.

The motion to adopt the ordinance on first reading was made by Councilman Martinez, seconded by Councilman Branch and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, James, Martinez, Villani, President Grant.

Not Voting: Councilmen Rice, Tucker.

President Grant: The yeses are five, the noes are none and two not voting.

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

1. That subject to the terms and conditions herein contained and pursuant to the law of New Jersey and the Revised Ordinance of the City of Newark (R.O. 10:11-1, et seq.) the Municipal Council of the City of Newark has approved, as being in the best interest of the City of Newark, an Application and Agreement with Gustave T. and Patricia Dotoli for 5 Years of Tax Abatement for a commercial or industrial improvement in the form of new construction, erected on land, owned by them, commonly known on the official Tax Map for the year 1983 as 164-194 Manchester Place (Block 851, Lot 25 and Block 858, Lot 6) which premises, pending municipal action on the Application were assessed for each of the years 1982 and 1983 at \$219,000.00 being \$12,300.00 land and \$209,000.00 for improvements.

The application for the 5 years Tax Abatement was filed with the City on August 15, 1981, and this Council has determined that this completed improvement provides within the City, gainful employment, assists in its economic development, maintains or increases its tax base, as well as diversifying and expanding its commerce.

2. That in consideration of said tax abatement on the new construction, Gustave T. and Patricia Dotoli, will pay to City of Newark an annual service charge of approximately \$5,500.00 representing 2% of the cost of construction, estimated at \$277,500.00.

3. That the annual service charge is to be paid quarterly, together with, and on the same due dates as the taxes on the land, for said premises.

4. That nothing herein shall, impliedly or otherwise relieve Gustave T. and Patricia Dotoli, from or relax their obligation to comply with and conform to, all applicable statutes, municipal ordinances, and the lawful regulations made pursuant thereto, governing land, building(s) and the use thereof.

5. That this Ordinance shall take effect upon publication and passage according to law, whereupon the Mayor on behalf of the City of Newark is empowered to execute and the City Clerk to attest and affix the seal of the City to the aforementioned Agreement for tax abatement, a copy of which is on file in the Office of the City Clerk with the accompanying Application, and these two instruments may be there examined during regular business hours.

6. That an executed Agreement authorized by this Ordinance shall be filed with the City Clerk by the Department of Law.

7. That all advertising costs for publishing this Ordinance shall be paid by Gustave T. and Patricia Dotoli before the Agreement, executed by the City, shall be delivered to them.

8. That within 30 days after the execution of the aforementioned tax abatement Agreement, there shall be forwarded by the Office of the City Clerk a copy of such Agreement to the Director of the Division of Local Government Services and to the Commissioner of the Department of Labor and Industry.

9. That this tax abatement shall be in effect for a period of 5 years, starting with the year 1982, and ending December 31, 1986.

10. This entire matter, as well as the adjustment and cancellation of tax liens, is nevertheless subject to the review and approval of the Director, New Jersey State Division of Taxation, whose approval may take a year or more to obtain. Should his approval be not obtained for the herein 5 year tax abatement for the cancellation of tax liens on the improvement(s) for the year 1982 and 1983 in excess of the amount(s) required to be paid by paragraph 12 below, then, anything to the contrary in his Ordinance notwithstanding, the tax liens on Block 851, Lot 25 (170-194 Manchester Place) and Block 858, Lot 6 (164-168 Manchester Place) are not to be cancelled and this Ordinance shall be considered as rescinded from the date of its adoption, and all unpaid tax liens, interest and penalties for the year 1982 and 1983, together with all subsequent unpaid taxes, interest, penalties and costs shall be due and payable.

11. If the director, New Jersey State Division of Taxation approves the Tax Abatement prospectively, then, this Ordinance shall be conformed to authorize tax abatement on improvement(s) for the year 1984, 1985 and 1986.

12. The Tax Collector, subject to the provisions, stated in paragraph 10, shall adjust the unpaid real estate tax liens for the years 1982 and 1983 on 164-194 Manchester Place (Block 851, Lot 25 and Block 858, Lot 6) to reflect, retroactively the tax abatement, herein granted by this Municipal Council on improvement(s) for said 2 years; conditioned, further that there be no unpaid land taxes on said parcel(s) and the amount of tax liens due the City on the adjustment, as herein provided be paid with a cancellation fee of \$15.00 per tax sale certificate, and taxes paid to the County of Essex for the year 1982 and 1983 by reason of the City having included the improvements(s) on said parcel(s) in the ratables for said 2 years shall be repaid to the City of Newark. Further, on the adjusted amount found due to the City of Newark legal interest shall be paid together with interest on any unpaid annual service charge at the same rate, applicable to unpaid land taxes.

13. Nothing, herein contained, shall be a restraint upon the City to foreclose, "In Rem" or otherwise, any unpaid tax sale certificate(s), covering either or both of the aforementioned parcel(s).

14. Anything to the contrary herein notwithstanding, the city's granting of tax abatement to this project's improvements is not only subject to the approval, disapproval or modification of this ordinance by the Director, New Jersey State Division of Taxation (herein Director), but conditioned upon the recipients of this tax abatement, paying to the City (1) the minimum sum of \$23,973.29 before the city shall execute said agreement, and (2) quarterly, thereafter, an estimated annual service charge, until the aforesaid Director acts, the sum of \$2,775.00 plus land taxes.

15. Consistent with the approval, disapproval or modification of the matter embraced in the within ordinance by said Director, the tax collector will accordingly, to the extent necessary, adjust his department's tax records and tax liens or tax lien certificate(s).

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Tucker, Villani, President Grant.

Mr. William Schwartz, Assistant Corporation Counsel, stated he has reviewed the questions raised by Councilman Martinez and also the bid specifications. He mentioned the first issue had to do with the bid and performance bond. He said when he received the package, it was clear that the Business Administrator had waived the need for a bid and performance bond on the contract so that when the contractor bid for this contract all of the contractors were aware of the fact that the bid and performance bond was being waived. He added when the ordinance was read, which gave the Business Administrator the right to waive the bid and performance bond, it appeared that the contracts for \$500,000. or less were within the sole determination of the Business Administrator. He said he was satisfied that the Business Administrator waived the requirements prior to the bids going out to the public. When the specifications were reviewed the objections that were raised were valid to the extent that the specifications were unclear and did not specify an amount which would hold the City as a named insured. He indicated he received a copy of an insurance certificate from Mr. Louis Lucarelli, an insurance certificate which named the City as an additional insured, in the amount of \$500,000. This amount is standard for contracts of that type. The contractor has supplied an insurance certificate which is satisfactory to the Office of the Corporation Counsel in the amount of \$500,000.

Yes: Councilmen Branch, Martinez, Payne, Villani, President Grant.

ORDINANCES ON FIRST READING.

President Grant called for ordinances on first reading.

A motion to remove from the Table "An ordinance approving the sale of premises commonly known as 207-223 Market Street and 37-45 Clinton Street, (Newark Housing and Redevelopment Authority-\$1.) (6-F-a (S-1), May 22, 1984), was made by President Grant, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Rice, Tucker, Villani, President Grant.

June 13, 1984

City Clerk D'Ascensio noted since the ordinance was tabled, we received a letter from His Honor, Mayor Kenneth A. Gibson, in which he changed the condition of the sale, namely to set a minimum of not less than \$180,000. for the consideration of the sale of property or a larger amount if approved by HUD.

6-F-a. (S) The City Clerk read An ordinance approving the sale of premises commonly known as 207-223 Market Street and 37-45 Clinton Street, Block 147, Lots 7, 9, 13, 15, 53, 54 and 59, pursuant to N.J.S.A. 40A:12-13(b) (1). (Newark Housing and Redevelopment Authority; for sum not less than \$180,000. or a larger amount if approved by HUD).

(Copy of ordinance and correspondence submitted to each Member of the Council)

(Ordinance tabled May 22, 1984)

(Ordinance removed from the table June 13, 1984)

President Grant stated the original legislation did not contain any amount. The only request that was made of this Council was to transfer the projects to the Housing Authority for \$1. Upon tabling they requested from the Mayor that this information be sent back with the price. He doesn't think they need to add any more amendments but it does indicate that the minimum price will be \$180,000. unless HUD approves a higher amount.

Councilman Tucker asked if that was going to be a stipulation that will be included within the Deed. He further asked if the Mayor's letter will pinpoint how they will get their money back. Is it automatic and is it also a condition of the Deed that they will be in receipt of this money.

President Grant said that at the Closing, the check should be made payable to the Housing Authority and the City of Newark.

A motion to amend the ordinance that the stipulation be included in the Deed and that at the closing the check be made payable both to the City of Newark and the Newark Housing and Redevelopment Authority was made by Councilman Tucker, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Rice, Tucker, Villani, President Grant.

Councilman Rice said we moved to accept the amendment but he would like to defer the ordinance or table it with the amendments in it. He would like to have a corporate check on both sides. He would like to know who is purchasing and all the actors involved. He has some reasons to believe that there possibly may be some conflict with some negotiators and he doesn't want to be in a position to revoke the sale of that structure.

Councilman Tucker questioned whether it was possible to place this item on the June 20th agenda and subsequently have the developers meet with the Council at their pre-meeting conference on June 19, 1984.

Councilman Rice reiterated he wants to know who the actors are and where they live. He wants a Trenton corporate check run on the entities, not so much the Housing Authority but the persons who are going to purchase same.

Councilman Tucker noted they have a Disclosure Statement on properties and this would tell them who the individuals are involved in this particular development.

Councilman Rice said in most cases unless there are some hidden corporate members or some partners, etc.

A motion to defer action on this ordinance, as amended, was made by Councilman Rice, seconded by Councilman Tucker and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Rice, Tucker, Villani, President Grant.

President Grant directed the City Clerk to place this ordinance, as amended on the June 20, 1984 Calendar of the Municipal Council for first reading.

President Grant mentioned that this matter has been postponed again by the Courts and is now set for July. If his memory serves him correctly, the contract will expire in August anyway. Obviously the Courts are not dealing with this and just letting it take its own course. In the meantime the Law Firm involved has already done certain work. Unless this is approved we won't be able to pay them for what they have done and they will have to go to Court and sue.

Councilman Tucker said there was a question on this resolution dealing specifically with the joint venture and questioned whether it has been resolved.

President Grant replied they have sent written information that they have entered into a contract.

Councilman Tucker asked whether we could get that written information because in this way it would be a single situation. If they don't amend the original resolution it would not make a difference. If they are going to do a joint venture he is in total support of them doing that.

President Grant questioned City Clerk D'Ascensio whether he had received a letter from them and City Clerk D'Ascensio replied in the negative.

Councilman Tucker said he would like to defer this resolution until June 20, 1984 to make sure the resolution includes the stipulation that they are contracting with the joint venture firm and not just the individual firm.

The City Clerk read An ordinance amending and supplementing Title 2, Chapter 4, by establishing a new Section 18, "Criminal Conviction to serve as grounds for disqualification from award of contract".

(Copy of ordinance submitted to each Member of the Council)

A motion to adopt the ordinance on first reading was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker stated that this ordinance establishes a process within the City of Newark whereby individuals who are bidding on goods and services with the City of Newark would disclose whether or not they have been convicted of any criminal activity. If a person who was submitting a bid had been convicted of criminal activity, the Law Department would have to hold a responsibility hearing and that would be held prior to them being in receipt of the bid. He pointed out that if a person does not disclose they have been convicted of a criminal activity and it is found out, that contract is automatically terminated. Another factor to note is that if an individual has been convicted of a criminal activity and the Law Department feels that person should or should not do business with the City of Newark, they would submit a recommendation to the Council who would then make the final determination. This ordinance does not prohibit a person who has been involved in prior anti-social behavior from doing business with the City of Newark but is a protective mechanism to insure that that person has been rehabilitated.

HEARINGS OF CITIZENS.

6-HC-a.

MR. LUVANDER HOLLAWAY, 37 BURNET STREET, NEWARK, NEW JERSEY addressed the Municipal Council with reference to plans for expansion of the institutions of higher learning in his neighborhood and he questioned whether the present residents could be displaced from their homes for future campus facilities. He also queried how the community could become involved in the planning process of these new facilities. Mr. Luvander also addressed the parking problems that exist on Burnet Street at Orange Street.

Councilman Tucker stated that Mr. Hollaway should meet with Rutgers University to see if they have any additional plans for this area. He noted there are no requirements to notify residents of the areas once an Urban Renewal Plan has been adopted by the City. He noted this land was blighted 20 years ago and the only body that can amend the Urban Renewal Plan is the Newark Municipal Council. He said presently there are no plans that he is knowledgeable of to change the Urban Renewal Plan for that area. He also advised that because of the redevelopment plan, the citizen input portion was completed back in the 60's. He opined that perhaps the Council should reconsider that action.

Councilman Martinez suggested that Mr. Hollaway leave his telephone number with the City Clerk so that Traffic Engineer Ceballos could contact him with reference to the traffic problem.

Councilman James suggested that that the site plans be forwarded to Council for their review.

After a lengthy discussion President Grant directed the City Clerk to forward Mr. Hollaway's remarks to the Police Director for his attention and to request Zoning Officer Charlotte Adams to forward an up-to-date description of the exact boundaries of the Newark Colleges Expansion (NJR 45) and Saint Michael's (NJR 156) urban renewal areas, with particular reference to areas that are still under blight declaration but have not undergone redevelopment and also copies of the site plans for these two areas or for any other part of the James Street Commons Historic District and that the Council be notified of any amendments to these site plans that come before the Central Planning Board.

June 20, 1984

Councilman Payne requested, through the Chair, that an evaluation of the 1983-84 performance of Gigi Kennels and copies of monthly reports be obtained from the Director of Health and Welfare.

Councilman James noted that last year, similar complaints were received and the Human Rights Commission helped to establish a committee of residents, fraternity leaders and officials of Rutgers University and New Jersey Institute of Technology to work together to improve conditions in the area.

Councilman James suggested, through the Chair, that the City Clerk be directed to request Ms. Shirley Rutherford, Executive Director of the Newark Human Rights Commission to reactivate this committee on a permanent basis and invite representatives of the institutions, the fraternities and the community to share their concerns on an ongoing basis so all can live together in greater harmony.

Councilman Martinez requested, through the Chair, that the remarks made by Mr. Hollaway also be forwarded to the Human Rights Commission.

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

Members of the Council recalled Mr. Still's numerous contributions toward the betterment of the City of Newark and all were in agreement that an appropriate memorial should be established to keep alive his name and carry on his good works.

Members of the Council also expressed their hope that the Office of Planning and Grantsmanship would be supportive in the evaluation of this project for funding.

6-HC-e.

MR. MICHAEL KARACHUN, SR., 1 COURT STREET, NEWARK, NEW JERSEY spoke with respect to conditions which endanger persons in the downtown area. He advised that cars continue to make illegal turns at Broad and Market Streets, that prostitutes and transvestites congregate around Broad and Court Streets and annoy residents. He also called attention to cars making illegal turns at Broad and Market Streets.

Councilman Martinez noted that all the complaints were police related matters. He suggested that Mr. Karachun's remarks be forwarded to the Police Director. He also requested that the Police Director be invited to the June 26, 1984 Special Conference.

Councilman Rice stated they have to look at what can be done in terms of management of the Police Department and in terms of the total human resources. He noted though there may not be dollar resources, they must bring together all the entities responsible who have law enforcement powers under their jurisdiction in the City of Newark. He said they need to come up with some aggressive kinds of solutions and suggestions.

June 20, 1984

Councilman Carrino noted this conversation should also be with the Mayor. He stated the Police Department is under-manned and it is not the fault of anyone in the Police Department but strictly the politic entity of the City of Newark. He noted that prostitution is no longer a priority in the City of Newark. He concurred with Councilman Rice that there are other entitites in the City that could help supplement the Police Department that should be taken advantage of for the next ten weeks and then try to work something out with the Mayor to try to refurbish the Police Department.

Councilman Payne concurred with Councilman Carrino that we meet with the Mayor and develop a plan. This is a continuing problem and cannot be solved by the Police Director.

Councilman James stated that Administration has not been inclined to hire additional policemen even with money in the budget. He suggested that now we simply need to ask for more dedication from the men in uniform. A more dedicated effort must be made to insure the safety of the citizens.

President Grant directed the City Clerk to forward Mr. Karachun's remarks to the Police Director and further directing the City Clerk to invite Police Director Williams to the June 26, 1984 Special Conference.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Branch, seconded by Councilman Carrino.

Councilman Carrino stated Engineering Director Zach had advised him that the reason the Council had so many complaints with reference to dead trees was because the City was not up-to-date on trees that have to be cut down or trimmed. Director Zach advised that if he had an inventory it would let him know exactly the locations of the trees that needed attention.

Councilman Carrino said he raised the question if the number of trees submitted daily were not being knocked down, how did the Director anticipate knocking down a greater number. Director Zach's response was the fact he needed money to knock down trees had nothing to do with the fact that he had to locate and pinpoint the trees that are dead.

Councilman Carrino suggested this resolution be adopted and if the cost is excessive the money could be used to cut down the trees.

Councilman Tucker stated since the Department of Engineering had Engineers, Architects and Laborers why did they need to hire somebody to look at trees. He said he did not believe it was prudent use of taxpayers' money.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by President Grant, seconded by Councilman James.

After a lengthy discussion it was the consensus of opinion of the Members of Council that this resolution needed further clarification. It was suggested that this item be scheduled for discussion at the June 26, 1984 Special Conference and for a Special Meeting of the Municipal Council on June 26, 1984.

Several Council Members expressed concerns that the sites listed within the resolution were grouped according to school districts rather than wards and were not evenly distributed, so that some neighborhoods would have two or three sites and others would have none. It was also pointed out that the list included numbers without names. The question was also raised as to the possibility of additional sites being selected.

President Grant withdrew his motion to adopt the resolution.

Councilman James withdrew his second to the motion.

A motion to defer action on the resolution and directing the City Clerk to invite to the June 26, 1984 Special Conference Business Administrator Hill, Recreation and Parks Director Chavis and Recreation Superintendent James; further requesting Director Chavis to submit, prior to this Special Conference, a detailed explanation of the selection of school sites for this program setting forth the criteria and process that were used was made by President Grant, seconded by Councilman James and declared adopted by President Grant by the following votes:

A MOTION DIRECTING THE CITY CLERK AND THE BUDGET DIRECTOR TO APPROPRIATE AN APPROPRIATE AMOUNT OF FUNDS WHICH WOULD ALLOW THE CITY COUNSEL AND OFFICE OF THE MAYOR MORE SPECIFICALLY THE CITY OF NEWARK TO HIRE A CONSULTANT TO NEGOTIATE DIRECTLY WITH THE PORT AUTHORITY ON THE EXTENSION OF THE LEASE; FURTHER, THAT THE COUNCIL ESTABLISH A COMMITTEE TO EXPLORE THE FEASIBILITY OF DEALING WITH THE FINALIZATION OF THAT AGREEMENT BEING SUBMITTED TO THE VOTERS TO BE VOTED ON BY A REFERENDUM; FURTHER THAT THAT SAME COMMITTEE BEING ESTABLISHED HAVE THE ABILITY TO GATHER ALL OF THE RESEARCH AND INFORMATION DEALING WITH THE PORT AUTHORITY AND THE INTERACTION OF THE CITY OF NEWARK SINCE 1947 FOR PUBLIC DISCLOSURE WHERE THE PUBLIC CAN BE MADE MORE FULLY AWARE OF THE IMPLICATION OF THAT PARTICULAR AGREEMENT was made by Councilman Tucker, seconded by Councilman Rice.

Councilman Tucker stated that approximately two years ago the Port Authority reached out to renegotiate the current lease with the City of Newark with respect to the airport area. The Council has received no formal official request. He pointed out that the original agreement was approved in 1947 and obligated one-third of all of the land area of the entire City of Newark into a development combine which was the Port Authority of New York and New Jersey and that agreement is still effective today. He noted in the first 17 years of this agreement the City of Newark was in receipt of \$1.7 million and the City is currently in receipt of \$1 million. He expressed concerns that the Port Authority development since 1947 until the present date operates and puts forth the financial impact of in excess of \$500 million. If the Port Authority were to pay real property taxes the amount would be \$62 million on an annual basis. At present the Governor has been successful in getting the Port Authority to agree to pay \$6.7 million but this represents only 10% of the assessed evaluation on an annual basis.

June 20, 1984

1130

Councilman Tucker advised if anybody in the City of Newark is considering the feasibility of extending that lease an equitable plan should be developed in regard to reimbursing the City of Newark for one-third of the land area. This Council must look, not only at the short range implication of this particular recommendation, but at the long range of this development.

Councilman Tucker further pointed out that Kennedy Airport receives \$24 million a year and LaGuardia receives \$18 million for land area, totaling \$42 million a year for 2 airports. He opined that this Council cannot wait until an agreement is negotiated. Since the Council has the ultimate authority to approve that agreement they must be more directly involved.

Councilman James commented there is no statutory obligation for the Port Authority to reopen or renegotiate. He opined if the Council wanted to know the present status they should request the Business Administrator, who is the Chief Negotiator, to advise them.

President Grant indicated that he was present at the meetings and at no time was the Governor or his representative in attendance. At that time it was indicated that the information would not be released to the public until a meeting had been held with the Newark Municipal Council who would review the matter and make a final determination.

President Grant pointed out that the Newark Municipal Council was responsible for the renegotiation of the lease between the Port Authority and the City of Newark.

Councilman Tucker stated they are talking about major negotiations with a Bi-State Agency. No matter how they move that particular negotiation has direct impact on the fiscal solvency of the City of Newark and they cannot allow the negotiations to be on a short term basis. Nothing has been submitted in writing. He opined that if the Council operates under the assumption that the Council can handle this themselves they are going to repeat the same kind of interaction that the Commissioners handled in 1947. This Council must recognize there are certain things they need to get technical assistance and help. This is going to be a major process. The actions of the Commissioners who were involved in the original contract have obligated the City of Newark and have put us in the predicament where the City has lost millions of dollars. This is not a simple process and should not be handled in this way.

Councilman Branch suggested that the Mayor and the Business Administrator be invited to a Special Conference to discuss this matter further.

The motion failed of adoption by the following votes:

Yes: Councilmen James, Martinez, Rice, Tucker.

No: Councilman Branch.

Not Voting: Councilman Carrino, Payne, Villani, President Grant.

7-M-n.

A MOTION DIRECTING THE CITY CLERK TO INVITE THE MAYOR, BUSINESS ADMINISTRATOR AND ANYONE ELSE INVOLVED IN THE NEGOTIATIONS WITH THE PORT AUTHORITY TO MEET WITH THE COUNCIL TO UPDATE THEM ON THE PROGRESS OF NEGOTIATIONS; FURTHER, AFTER HEARING REPORTS CONSIDERATION WILL BE GIVEN TO COUNCILMAN TUCKER'S SUGGESTIONS
was made by Councilman Payne, seconded by Councilman James.

Councilman Tucker pointed out that this Council hired a nationally based consulting firm to represent the City's interest in negotiations between the Port Authority and the County of Essex on a resource recovery facility that represented one-fortieth of the land area. He does not understand the difference. He said the courtesy that he is after is to make sure the taxpayers do not have to pick up the load of somebody's bad negotiations.

The motion was declared adopted by the following votes:

Yes: Councilmen Branch, Carrino, James, Payne, Villani, President Grant.

No: Councilman Rice.

Not Voting: Councilman Tucker.

June 20, 1984

7-M-o.

A MOTION THAT COUNCIL EXPLORE THE FEASIBILITY OF HIRING A CONSULTANT IMMEDIATELY TO NEGOTIATE WITH THE PORT AUTHORITY AND DIRECTING THE CORPORATION COUNSEL TO PLACE ON THE NOVEMBER REFERENDUM A STATEMENT THAT INDICATES THAT ANY AGREEMENT BETWEEN THE PORT AUTHORITY AND THE NEWARK MUNICIPAL COUNCIL BE VOTED ON BY THE CITIZENS OF THE CITY OF NEWARK BY REFERENDUM was made by Councilman Tucker.

There was no second to the motion.

Councilman Payne requested that Councilman Tucker consider separating these two motions.

Councilman James queried if the Port Authority was obligated to renegotiate this lease.

President Grant replied in the negative.

Councilman Tucker stated that for any major developer who is going to develop on the area of land that the Port Authority has right now, the major issue they are dealing with is that the Mortgage Companies and the Banking Industry will not allow them to continue to develop without a guarantee that they will have that land for the period of the mortgage. That is one of the reasons the Port Authority is interested in renegotiating the lease. When the Council goes through the negotiating process they should be knowledgeable on each and every provision of that proposed contract.

Councilman Tucker indicated he would separate the motion.

A special meeting of the Municipal Council of the City of Newark, New Jersey, was held on the above date in the Council Chamber, City Hall, Newark, New Jersey, at 5:00 P. M.

President Grant called the meeting to order and asked for roll call.

Present: Councilmen Carrino, Martinez, Payne, Rice, Tucker, Villani, President Grant, City Clerk Frank D'Ascensio, Clerk of the Municipal Council.

City Clerk D'Ascensio read letter dated June 21, 1984, from Council President Ralph T. Grant, Jr., calling a special meeting of the Municipal Council for Tuesday, June 26, 1984, at 11:00 A. M., or as soon thereafter as practical to consider the following legislation:

BOARD OF ADJUSTMENT APPEAL.

4-A-1. The City Clerk read IN THE MATTER OF APPLICATION OF AMADEN RIBEIRO, OWNER, TO PERMIT IN A 3RD RESIDENCE DISTRICT CONVERSION OF A BUILDING TO A ONE-FAMILY DWELLING ON A LOT CONTAINING A SIX-FAMILY DWELLING AND CREATING TWO MAIN BUILDINGS ON THE LOT; FOR PREMISES 53-55 KOSSUTH STREET

The Board of Adjustment at its regular meeting April 10, 1984, approved the application by a vote of 7 Ayes and no Nays.

An appeal in this matter was filed in the Office of the City Clerk on April 19, 1984, by Mr. William P. Lutz.

The transcript in connection with this matter was received June 13, 1984 and each Member of the Council was furnished with a copy of the transcript and other parts of the record.

On June 15, 1984, the City Clerk notified the applicant, the applicant's attorney, and the appellant that an appeal in this matter would be heard by the Municipal Council at their regular meeting July 11, 1984, at 1:00 P. M., in the Council Chamber, second floor, City Hall, Newark.

President Grant stated we will now hear oral argument on the appeal from the decision of the Board of Adjustment in the Matter of Application of Amaden Ribeiro, Owner, to permit in a 3rd Residence District conversion of a building to a one-family dwelling on a lot containing a six-family dwelling and creating two main buildings on the lot; for premises 53-55 Kossuth Street. We may hear argument only from the parties to the appeal, that is the person or persons who filed the appeal and the one who was granted the variance. Either party may be represented by an attorney. No testimony will be heard by the Municipal Council, only argument based on the record made before the Board of Adjustment. For the benefit of the parties who are not represented by an attorney, that means that they may state the reasons for their position on the variance and they may point to testimony before the Board to support their position. However, they cannot bring in new testimony or other evidence.

This is the time and place for the appeal to commence.

July 11, 1984

MR. WILLIAM P. LUTZ, 51 KOSSUTH STREET, NEWARK, NEW JERSEY, stated his appeal is based on the fact the 50 x 100 lot will be over-utilized and the creation of an essentially new building with no regard for setback from the adjacent property. The yard between the two buildings will be converted to a parking lot or a used car lot and nothing in the variance states the eventual size of the building. Whether it will be a one level, two levels or what. It just says single family dwelling.

MR. MARTIN MORIANO, 332 LAFAYETTE STREET, NEWARK, NEW JERSEY, representing Mr. Ribeiro, the owner of property in question. Mr. Ribeiro seeks to convert a garage into the rear of his premises on Kossuth Street into a one-family home. The problem is the six-family which is in the front of the premises has very small apartments, only two to three rooms. He wants to convert the rear garage into a five room apartment for his family. In looking at the premises the way they are the garage is in a state of disrepair. There is no one that will rent the garage. When appearing before the Board of Adjustment it was spelled among other things that the conversion to a one-family dwelling would eliminate an eyesore and would help increase the property values in the area. As far as the negative and positive criteria of the zoning statute, they feel there will be no problem in that respect that both the negative and the positive criteria of the statute would be met. The Board of Adjustment after hearing all the testimony found 7 to 0 in favor of his client. He asked the Council to reaffirm the action of the Board of Adjustment. As far as increasing the size of the garage that the appellant spoke about, very detailed plans were submitted to the Board of Adjustment and they rest on those plans. If their variance is upheld today they intend to do their construction in accordance with those plans and will be adhered to strictly.

Councilman Martinez read the following statement:

"This is an appeal from the decision of the Board of Adjustment granting a variance to permit the conversion of an abandoned and dilapidated garage to a one story, one-family dwelling on a lot at 53-55 Kossuth Street, which already contains a six-family dwelling. Since the City's zoning ordinance prohibits two main buildings on one lot, a variance is necessary. The applicant also proposes to establish 3 parking spaces on the property to alleviate parking problems.

The property which is approximately 50' by 100' is a corner lot at Kossuth and Niagara Streets. The two structures are situated at either end of the lot with each one having direct access to a public street. The area within a 200 foot radius is composed principally of dwellings and a few commercial uses.

The Board of Adjustment determined that a variance can be granted without substantial detriment to the public good and without substantially impairing the intent and purpose of the zone plan and the zoning ordinances of the City, citing the following reasons:

July 11, 1984

- 1) Grant of variance will result in additional needed living space.
- 2) Grant will result in beautification of the neighborhood.
- 3) Grant will result in enhanced property values.

A review of the record indicates that the appellant, who lives next door to the subject property, objected to the conversion of the garage to a dwelling house. He cited as reasons for denying the variance the detriment to his family should cars be permitted to park on-site shining their lights into the bedrooms and creating noise and pollution, the close proximity of the two structures to his own property line, the condition of the six-family structure and the added congestion due to an additional dwelling unit on the site. Most of appellant's objections do not appear to be related to the application for a variance. The applicant is now permitted to park cars on the lot, the proximity of the buildings and the condition of the larger structure are not due to the variance but are existing conditions.

The record also shows reasons for granting the variance in addition to those cited by the Board in making its determination that the granting of the variance will not be substantially detrimental to the public good or the zone plan. Since the subject property is twice the width of most of the other residential lots shown in the block diagram, the conversion of the garage into a second main building will not unduly cause congestion in the area. Moreover, because the property

(Councilman Payne arrived 1:31 P. M.)

is a corner lot the second building will have direct access to a public street, the same as other residential structures in the area.

Finally, although the Board of Adjustment failed to determine that "special reasons" exist for granting the variance, as required by the Municipal Land Use Law, N.J.S.A. 40:55D-70(d), the record supports such a determination. The size of the lot and its corner location as well as the way the two structures are situated on the site, make the property particularly suitable for two main buildings. Furthermore, the visual improvement to the area by the conversion of an eyesore into a handsome structure constitutes a special reason for granting the variance.

The variance should be granted, however, with a condition imposed to alleviate the impact on the appellant of car lights when vehicles are parked at night. I, therefore, move that the determination of the Board of Adjustment granting a variance for the conversion of the garage at 53-55 Kossuth Street into a one-family dwelling be affirmed with the condition imposed that an 8' solid fence be erected between the subject property and No. 51 Kossuth Street, seconded by President Grant and declared adopted by President Grant by the following votes:

They are certainly sympathetic to the plight of employees that increases in salary generally are necessary and look forward to. He thinks they also have to keep in mind that they are facing difficult times. They have a tremendous tax rate, reduction of services and he would hope they could hold the line down.

A developer is now coming into Newark to renovate the building for which the City of Newark has not received any money. It is also an eyesore for the entire community. The developer plans to build 260 condominium units which would provide approximately $\frac{1}{2}$ million in taxes and would certainly be an inspiration to the City of Newark.

Ordinance amending and supplementing Title 2, Chapter 4, by establishing a New Section 2:4-17.2, "Criminal Conviction to Serve as Grounds for Disqualification from Award of Contract."

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

Section 1. Title 2, Chapter 4, of the Revised Ordinances of the City of Newark, New Jersey, 1966, as amended and supplemented be further amended to add a new Section 2:4-17.2 as follows:

2:4-17.2 - CRIMINAL CONVICTION TO SERVE AS GROUNDS FOR DISQUALIFICATION FROM AWARD OF CONTRACT.

Any Department, Division or Agency, of the City of Newark, which advertises for bids for goods and/or services shall request of all prospective bidders, through a questionnaire to be inserted in the bid specifications section, that the bidder disclose any Municipal, County, State or Federal Criminal Conviction, in this State or any other State.

July 11, 1984

Any conviction set forth in the questionnaire, including a conviction of any one principle of a corporation, may serve as the basis of a rejection of the bid by the City of Newark.

Any acceptance and/or rejection by the City, based upon a prior conviction, shall not take place unless and until there has been a responsibility hearing held by the Corporation Counsel, or his designee, of the City of Newark and recommendation submitted to the Municipal Council.

Any bid received by the City without a disclosure statement attached is in effect not to be considered a responsible bid.

If after the awarding of the contract, the bidder is found to have been convicted of a crime, such falsification of information by the bidder or his or her agent shall be grounds for the termination of the contract.

Section 2. Any prior ordinances or parts thereof, inconsistent herewith are hereby repealed.

Section 3. This ordinance shall take effect upon final passage and publication and in accordance with the laws of the State of New Jersey.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman Tucker, seconded by President Grant.

Councilman Tucker said he thinks by the characterization of this ordinance it appears that if a person has been convicted of a crime that they cannot be awarded a contract. What this ordinance does is indicate to a prospective bidder that if he or she has been convicted of criminal activities that they must at least acknowledge that at the time of the bid. If in effect that has taken place then the Law Department will hold a Responsibility Hearing. If it is felt and recommended by the Law Department that prior criminal activity does not in any way whatsoever damage the contract, that person can be in receipt of a contract. It is in effect a Disclosure Ordinance which would insure that the Council is knowledgeable of the persons who are doing business with the City of Newark.

The motion to close the hearing and adopt the ordinance on second reading and final passage was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

The City Clerk: The following ordinance was adopted on first reading, advertised in accordance with law and a hearing date set. It is now before you for public hearing, second reading and final passage:

WHEREAS, the Pearl Harbor Survivors Club of New Jersey, a non-profit corporation of the State of New Jersey, with tax exempt status with respect to both the State of New Jersey and the Federal Government has expressed a desire to lease the Schleifer Memorial and to restore it to its original condition and place it on display for the general public to view; and

WHEREAS, the Memorial which is presently located in a park at the junction of West Bigelow Street, Elizabeth Avenue and West Runyon Street has in the past been vandalized and in the future may continue to be vandalized; and

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman James, seconded by Councilman Payne.

President Grant indicated he voted for this ordinance on first reading and questioned whether this particular monument is going to be removed from the City and placed elsewhere.

July 11, 1984

Councilman James stated that Private Schleifer was the first person from Newark killed at Pearl Harbor. There are two monuments commemorating this person. Over the years both of these statues have been destroyed and there is a complete lack of maintenance. The Pearl Harbor Survivors Club of New Jersey have asked to be responsible for the maintenance of these monuments. At the present time they have not decided whether to remove them from their present locations or to join them with other statues throughout the nation. It will remain in the ownership of the City. For the last two years they have been trying to come up with a program to update and maintain all historic monuments in the City, but have been unable to do so.

Councilman Payne felt this was a great opportunity for citizens to help with the upgrading and maintaining of various historical events, but he hoped there would be some safeguards, and he did not want to see these monuments removed from the City and did not want this group to be given that option.

Councilman James stated he had left this opened. He pointed out that many of the monuments throughout the City are being vandalized and destroyed. He opined that an idea should be explored with Director Toma on how to maintain and preserve the historical monuments located in the City of Newark.

Councilman Tucker commended Councilman James for his efforts. He noted they should work with this group to try to highlight what this monument represented. He opined that unless the citizens are knowledgeable of what the monuments represent then it is just a statue. He felt they should play a role in getting the young people and the schools involved in that process.

The motion to close the hearing and adopt the ordinance on second reading and final passage was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

President Grant: The yeses are nine and the noes are none. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

Ordinance amending Title Two, Chapter Five, Article Nine, as amended and supplemented, by adding Section 2:5-26, "Lease of City Property for Gardening and Recreational Purposes."

BE IT ORDAINED BY THE MUNICIPAL COUNCIL OF THE CITY OF NEWARK, NEW JERSEY:

1. That Title Two, Chapter Five, Article Nine, as amended and supplemented, be further supplemented by the addition of the following new section:

2:5-26 Lease of City Property for Gardening and Recreational Purposes

- a. The Business Administrator shall have the power to enter into and execute leases of vacant land owned by the City of Newark, without advertising or receipt of competitive bids, where such leases are solely for the cultivation or use of vacant lots for gardening or recreational purposes. Entry into such leases shall not require the prior approval of the Municipal Council.

43

- b. All leases entered into pursuant to this section shall be in the form as filed with the City Clerk at the time of the adoption of this section. Any change or amendment to the terms and conditions of such leases must be approved by ordinance of the Municipal Council prior to their use.
- c. Any lease entered into pursuant to this section shall be for a term not to exceed 12 months. All such leases shall terminate as of December 31st of the year in which they are executed.
- d. For all leases entered into pursuant to this section, the rent to be charged shall be equal to the amount determined as the result of multiplying the equalized assessed value of the property by the equalized tax rate for County purposes for the year in which the lease is in force.
- e. Each month, the Business Administrator shall file a report with the City Clerk indicating all such leases entered into during the previous month. In addition, a fully executed copy of each such lease shall be filed with the City Clerk within seven calendar days after its execution.

President Grant called for those desiring to be heard on the ordinance to approach the rail, give their name and address and be heard.

No one appearing, a motion to close the hearing and adopt the ordinance on second reading and final passage was made by Councilman James, seconded by Councilman Payne and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

President Grant: The yeses are nine and the noes are none. This ordinance having been read on two separate days and having achieved the vote required by the statute, is declared adopted. The City Clerk is directed to deliver same to the Mayor for his approval or disapproval.

President Grant stated there are many persons from the East Ward of the City of Newark who have been listed as speakers relative to the closing of the Firehouse. He noted Councilman Martinez has been on top of this matter for several days. He has had the press in and more recently had the Fire Director before the City Council along with representatives from Administration. The Council is sympathetic and empathetic towards this particular cause and challenged the Administration that they could find the dollars in the budget to give to the Fire Department for the purpose of re-opening the fire house. Even if they were to do that it still would not mean that Administration would be guided and bound by the decision they make. The Mayor as Chief Executive Officer of the City has the authority to take care of the day to day business of the City. The Council is certainly willing to do whatever it can in terms of making the dollars available.

- 6-HC-d. REVEREND LIN POWELL, TRINITY REFORMED CHURCH, 483 FERRY STREET, NEWARK, NEW JERSEY.
- 6-HC-e. MS. NANCY ZAK, 48 READ STREET, NEWARK, NEW JERSEY.

The above speakers addressed the Municipal Council registering complaints about the closing of the firehouse at Ferry and Brill Streets and urged the Council to find ways and means of getting this firehouse re-opened because of the chemical and petroleum plants and the thousands of people living within this immediate area.

One of the speakers presented a petition bearing 500 signatures against the closing of this firehouse.

President Grant directed the City Clerk to forward Ms. Zak's remarks to the Mayor and the Fire Director.

After a lengthy discussion the City Clerk was directed to communicate with the Mayor pointing out that the Council shares the concerns of the community. Council Members pointed out that this engine company is closest to some of the City's most hazardous chemical and petroleum plants, and is in a congested area that contains the three largest apartment complexes in the East Ward--Hyatt Court, Roosevelt Homes and Riverpark Apartments. The Council believes there are adequate funds in the budget to assure continued operation of this facility and they have expressed a willingness to appropriate any additional monies that might be needed to keep the Fire Department at full strength. In addition, they are very apprehensive that the "temporary" closing of this unit will become permanent, as was the case of Engine 32 at Port Newark.

(For further action with respect to this item, see Motion 7-M-i in the minutes of this meeting)

- 6-HC-f. MR. ARNOLD COHEN, 48 READ STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to a new lease agreement with the Port Authority. He agreed with Councilman Tucker that the City Council should be in a position to thoroughly review said proposal and determine the long range ramifications, etc. The speaker also complained about the noise from the airplanes and was against the incinerator in the East Ward.
- 6-HC-g. MR. FRANK PLEVA, 116 BRILL STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the noise of the airplanes and urged the Council to do something about this matter.
- 6-HC-h. MR. TONY SOLTYS, 99 ST. CHARLES STREET, NEWARK, New Jersey, addressed the Municipal Council opposing the proposed incinerator on Blanchard Street and airplane noise and urged the Council to assist them.
- 6-HC-i. MR. WILLIAM GOODE, PRESIDENT OF THE DOUGLAS HARRISON TENANTS ASSOCIATION, 113 SOMERSET STREET, NEWARK, NEW JERSEY, addressed the Municipal Council with respect to the poor management of the Douglass Harrison Homes by the New Community Corporation and felt they did not warrant a 6% rent increase. The speaker submitted pictures of the various conditions existing at this site.

President Grant suggested the speaker leave the pictures and other information with the City Clerk for Council's perusal. After Council has had the opportunity to review them, they will schedule a meeting with N.C.C. and the Rent Control Board.

Mr. Goode pointed out that N.C.C. has made a proposal to acquire the park from the City as a donation. N.C.C. plans to build a community pavilion. He noted the tenants are strongly opposed to this measure.

Councilman Branch said he had met with the tenants who had submitted a list of 22 items that they wanted him to deal with. He advised the park had not been sold or turned over to N.C.C. He opined that Father Linder and Mr. George Hutton should meet with the Council to up-date them on what they plan to do with the park and how they anticipate correcting the conditions that exist at Douglass Harrison Apartments.

A motion to permit Ms. Sandra Holmes, Mr. Kennedy Wilson and Assemblyman Eugene Thompson to be heard under "Hearings of Citizens" was made by Councilman Branch, seconded by President Grant and declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Carrino, James, Martinez, Payne, Rice, Tucker, Villani, President Grant.

6-HC-j.

MS. SANDRA HOLMES, TENANT AT DOUGLASS HARRISON APARTMENTS, addressed the Municipal Council with respect to promises made by N.C.C. which they have not kept. The speaker pointed out that the Douglass Harrison Apartments are poorly managed. She noted she was also opposed to the proposed park and requested Council to look into this matter.

Councilman Tucker said he met with Councilman Branch and did an initial analysis dealing with the transfer of that building from the Prudential Insurance Company to New Community Corporation. He opined that New Community may be doing their best efforts but the economic situation of that building puts them in an awkward position. He noted the application approved by the Rent Control Board in the past raised the rents in excess of 50% and the 6% presently being requested is not debatable by the tenants. He mentioned there is only one proviso that exists within the Rent Control Ordinance that prevents that increase and that is if services have been denied. He pointed out that the onus is clearly on the tenants to identify the services that have been denied and to file a petition before the Rent Control Board and there is an option under the existing ordinance that deals with a rebate.

Councilman Tucker continued that there would not be a resolution of this problem without a joint determination being made by the tenants and New Community Corporation. He said he had the opportunity to check the historic perspective of this area and when this park area was donated to the City one of the provisos was that it remain a park and he has informed N.C.C. of that condition.

6-HC-k.

MR. KENNEDY WILSON, 63 STENGEL AVENUE, NEWARK, NEW JERSEY, addressed the Municipal Council stating that their area is opposed to the proposed development of the Emergency Children's Shelter at 561 Elizabeth Avenue. The community feels there are too many problems that they have to address at this time.

Councilman Payne said the situation was brought to his attention and attended the meeting where the sentiment of the neighborhood was expressed. He initially indicated that there is certainly a need of shelters around the City, County and State and they do have a responsibility of having an overall plan of providing for our young people but by the same token he can understand the neighbors opposition for a new facility to come in especially since it was done without any community input. The Division of Youth and Family Services have informed him today that they would temporarily hold up the approval for the license until they have meetings with the community and the contractor.

6-HC-l.

ASSEMBLYMAN EUGENE THOMPSON, congratulated the Council on adopting the ordinance dealing with South Africa. The speaker noted that he has nothing personal against New Community Corporation. Douglass Harrison Apartments are the type of housing they are incapable of managing.

Councilman Tucker said any Member of the Council can go to the Rent Control Board and get a copy of the Financial Statement that Prudential Insurance Company submitted dealing with the operational cost of running the Douglass Harrison Apartments. Even with the rent increase there was a 12% deficit in 1982. If you take the normal inflationary rate factor and add it on you will find the deficit is growing. The challenge New Community is faced with is the fact they have to cut and get down to economics so that they can maintain the normal operations. They accepted that building with a 12% deficit in rent collection.

Councilman James said he would request under "Motions" that correspondence be addressed to the Prudential Insurance Company requesting an explanation of the Financial Condition of the Douglass Harrison Apartments at the time Prudential donated them to New Community Corporation.

6-HC-m. MR. VICTOR DE LUCA, 38 MAIN STREET, NEWARK, NEW JERSEY, addressed the Municipal Council opposing the closing of the firehouse at Ferry Street and Brill Street. The speaker also referred to the Wilson Avenue Bathhouse and Morris Avenue Bathhouse noting that Council has appropriated the funds and the buildings are still closed.

President Grant pointed out that Director Zach had informed him that both projects are about to lift off in a week or two.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Tucker, seconded by President Grant.

Councilman Payne noted the Council at their June 20, 1984 meeting adopted a Motion requesting the Director of Health and Welfare to respond in writing to the implication that Methadone Maintenance Programs will no longer be run by the State of New Jersey. He said this resolution is presented as previous resolutions and he would like to know what changes have come about because according to the information he received, the State has divested itself as the sponsoring agency for the program and pointed out this information has not yet been received. He will vote affirmatively on this resolution.

Councilman Tucker said there has been two locations attempting to get variances within the City of Newark who are private operators of Methadone Treatment Programs. As of today they have not been in receipt of approval. They are attempting to locate one at Sussex Avenue near New Hope Development and the other one to be located downtown.

Councilman Payne requested through the Chair, 'that another communication be sent requesting this information.

Councilman Rice said maybe we can have the persons in from the State and also take another look on what direction they are going with respect to Methadone Maintenance Centers. His understanding is that under private contracts there are going to be shifts in Wards. There are problems with the Roseville Avenue site. Pressure from the business community has traditionally tried to compel the removal of one location which is isolated except for the daytime. He would like to have the opportunity

July 11, 1984

to look at newer sites because what is happening is taxpayers dollars are being spent on Methadone Maintenance Programs and they are not working because they are not properly maintained. He doesn't think contracts are going to be any different. They have a responsibility with those individuals that have social ills and they can't abate that. He noted that many of the persons who are being treated are not from the Newark community. If they are going to treat people let them be from our community and let the other communities treat their people.

Councilman Tucker requested to have Director Cherot and the State Director invited to the next meeting. The reason he is knowledgeable about the Center is because the people applied for a variance on Sussex Avenue. If they are going to be looking for new sites, they should at least know in advance.

Councilman Payne said they need to look at the zoning ordinance to find out if there are any districts in our City which would not require a variance for this type of Center.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:

Yes: Councilmen Branch, Payne, Rice, Tucker, Villani, President Grant.

No: Councilmen Carrino, Martinez.

Absent During Roll Call: Councilman James.

(Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by President Grant, seconded by Councilman Martinez.

Councilman Payne questioned why they were spending \$7,500. to demolish 76 Erie Place which is in a deserted area.

Councilman Martinez replied this is part of the new Department of Transportation wherein they gave the City of Newark several million dollars to rehabilitate the total area around the Broad Street-Lackawanna Station. Part of the agreement with the City of Newark is that all of those buildings will be demolished.

 (Copy of resolution and correspondence submitted to each Member of the Council)

A motion to adopt the resolution was made by Councilman Carrino, seconded by Councilman Tucker.

Councilman Payne questioned why we were awarding a contract to the 2nd lowest bidder.

President Grant replied Director Zach met with the Council at their pre-meeting conference yesterday and explained the first company to whom they gave the contract was not doing a satisfactory job and stopped the work immediately.

Councilman Rice noted that a lot of these individuals have not done a satisfactory job and he has brought this to the attention of the Director. They have denied people like Mr. Harper who has been doing a satisfactory job the opportunity to even get in. He hoped that they wouldn't approve this resolution.

The motion to adopt the resolution was declared adopted by President Grant by the following votes:
